a forced Leg of Mutton or Chickens.

Take a large leg of Mutton, take out all the meat but leave the skin whole: then slip back the skin & knock off the marrow bone to the Knuckle, you must

must leave the rest of the bone on the skin. Then
mince your meat very fine, putting to it about as
much more suet. Mince them together as fine as
you can, putting to it a little pounded cloves & mace,
pepper & salt, a little grated nutmeg; as much sweet
herbs as will season it: sweet marjoram, thyme, winter
savory & chiives (if you have not chiives mince an onion
very fine) then mince some lemon peel very fine, two
anchovies, mix all these together with your meat.
Adding the yolks of 3 or 4 eggs. Work all this well
together with your meat, and fill up the skin of y^e^
leg of mutton again, sew it up close & put it boiling
Then have some chickens well scalded, when your
leg of mutton is near ready, throw milk into your
pot and boil your chickens. Then boil some Artichokes
and take a dozen of the bottoms of them. boil a good
bunch of parsley, take ye leg of mutton & cut off the
skin where you sew'd it. Then cut some slices off
and put the rest in the middle of ye dish with the
bone uppermost. Then lay the chickens round about
it & a bottom of an Artichoke between every chicken.
Then have some butter melted thick with ye parsley &
a spoonful of Vinegar, & pour it over ye chickens. Then
take ye slices of forced meat & cut them in pieces, & lay
a piece on each chicken with a slice of Bacon either
fried or broiled to garnish ye dish wth what pickles you please

To force and bake a rump of Beef.

Take a flat rump of beef, then take about two or three handfuls of grated bread & half ℔ of fresh butter; suet minced very small, then take the yolks of four or five hard eggs minced, with two handfuls of sweet herbs minced, viz. sweet marjoram, thyme, winter savory parsley & chives, with some minced lemon peels. Then pound some mace and cloves very fine, pepper & salt, mix all these together, then work them well with the yolks of 2 or 3 eggs. Then with a knife make several holes in the wrong side of ye Rump of Beef, and thrusting in ye Stuffing stick on the right side, lard it thin with slices of lemon peel and larding of Bacon. Then put it in a large earthen pan that will hold it handsomely; and put under it a pint of claret & half a pint of water. A little pepper & salt, an onion minced. Put it in ye oven and leave it there till you think it is thoroughly baked. Before you put it in, cut a few lardings of bacon, about 3 or 4 inches long. Then take a little pounded cloves, mace, pepper and salt, & role your bacon in them. Make several holes in the wrong side of ye piece of beef with a big skiver as long as ye bacon, and thrust your pieces of bacon into them. some love it with bacon, & some not. When your beef is baked put it in your dish. Then blow off the fat from the gravy that was under it, put a spoonful of Vinegar to it, so pour it under ye beef. Garnish your

your dish with pickles and serve it up. You may roast a rump of beef stuffed & larded exactly as the other making a little gravy to put under it. You may stuff a fillet & shoulder of veal & lard it with lemon peel and lardings of bacon. But you must not put bacon in in your veal: a little gravy mixed with a little melted butter is proper sauce for the veal.

To make Beef Alamode

Take the thick end of a flan of beef, cut it in pieces of two or three pounds. Then take fat bacon that is not rusty and cut it in pretty long slices for larding. Pound some mace and cloves, and mix some pepper & salt. Then take a large skiver and put your bacon in your seasoning, and when you have rolled it in with the skiver, make holes in the meat, and draw your bacon thro', and lard it pretty thick. Then rub the outside of ye beef with the same; seasoning more of salt than any other and have another pot or earthen stewpan with a close cover. Put in the bottom of ye pot about a pint of strong gravy made without any thickning, and lay some bay leaves in the bottom of your pot; lay in your meat close down, putting between every lay a little of ye seasoning and bay leaves. Then cover your pot close, and paste your cover down. Then put it over a fire not too hot and let it stew there for an hour. Then take it off and uncover it & turn ye meat; then paste ye cover

cover down again close, and clap it over a fire, and leave it there until 'tis pretty tender. Then take it off; you may serve it to the table hot, with the gravy about it, or cold, and slit it in slices & serve it up with its own liquor about it. —

To make hams.

Take your hind quarter of fat pork, and cut out the ham pretty large & round. Then cut off some of the outer bone of the inside, and give a little cut to the flesh, that it may come to the marrow bone. Then take some brown sugar, and rub your ham over with it very well, and leave it 10 or 12 hours. Then take 3 ounces of salt, pepper pounded, and a quarter of spanish salt pounded; put it over y^r fire in a skillet, till 'tis as hot as you can endure. Then mix your salt petre with it, and rub your bacon while it is hot very well with it; Then lay y^r ham in the tub fit for it, and throw the rest of the salt under & over it; cover it close & let it stand so for about a week. Then turn it over throwing a little more salt over it. About a week after take it up and new salt it; So leave it in its own pickle a week more, turning it twice a week, then when 'tis pretty hard, take it out and drain it well & hang it up in y^r chimney pretty high, & dry it with saw dust, which will make it taste like Westphalia. You must constantly keep smoak under it

it every day, and it wile be dry in three weeks. then take it down and keep it in dry bran or malt. Water it a day and a night before ye use it. —

To dry neats tongues. —

Take your large neats tongues and cut out the wind-pipe clean, and all other things hanging to it. then to half a dozen neats tongues put 3 ounces of salt petre and a pottle of Spanish salt pounded. Mix them together, & rub your tongues very well with it. Put them in a close pot or tub, and cover them. and when they have been there a week turn them; about five days after, salt them again, and put them in their own pickle, and so for three weeks, keep turning them twice a week. Then they wile be pretty hard. take them out and drain them, hang them up in ye chimney tile they are dry, and smoak them as you do the hams with saw-dust

To make a Rode of Beef.

When you think they are done drain them very wele and put them in your potting pots, coverd with clarified butter.

To pot Herrings.

Take 30 herrings, cut off the heads & tails, & scrape off the scales clean, then gut and wash them in two or three waters. Leave no blood in the backs, then dry y.m wele within & without with a dry cloth, and take half an ounce of white pepper & half an ounce of black pounded fine, three large nutmeggs grated, & two large onions cut small, a large handful of white salt pounded fine, 3 or 4 anchovies minced small. Mix y.e pepper and the rest of y.e seasoning together. then have an earthen pot that wile just hold your herrings, & season them wele within side and without with y.e seasoning, and lay them at full length, with the backs down, as close as you can. Put as much Vineg.r as wile just cover them. tye y.e pan close with paper and brown dough over it; put it into the oven with 3.d bread, when baked take it out and do not uncover it

it that day: put it in the next day again with bread, then 'tis done when the bones of y.r herrings will melt between y.r fingers. You may eat them with some of their own liquor, or more vinegar if you like.

To pot Salmon

Take y.r right curdy Salmon, & cut it in cross pieces; take out the chine bone & head & every little bone, wash it very clean and take out the blood next to the back. Then dry it with a clean cloth very well. Then get an earthen pot well glazed, take some mace cloves, & nutmeg pounded very fine, with some pepper & salt. Mix them together & season y.r pieces of salmon, and lay them in an earthen pan, and put some fresh butter over them. tye brown paper on y.r pan and lay a thin role of brown dough on it. put it in y.r oven and when you think 'tis baked enough, take up y.r pieces and drain them very wele. Then put y.m in y.r potting pots, & cover them with clarified butter.

To Collar Cowheels.

Take y.r cowheels, and do not skin them, then boil them tender and as soon as the hair wile come off, peel it off. Then bone & season them with cloves, mace, & pepper & salt, pound y.r spice fine and season yr collar very wile with it. Then lay them in a cloth the outside skin of the cowheels under and over, and the rest in the

the middle. Then role up the collar very hard & pin the cloth: tye the two ends down with pack-thread as you do the other collars. Then fillet it smooth with broad tape. When yr. pot of water boils, put down yr. collar, and when you think it done take it up and tie it faster. don't untie it in 24 hours, then untie it, and put in some drink of smale beer & salt, or bran & water boiled & salt; if you have any pork that is middling take the middle piece of the bone, and season it with the same spice. Then do yr. heels & a pretty deal of salt; put yr. cow heels in the middle of yr. meat; role up the pork about them in a hard collar, and so boil them as you would any other. Put in same drink, as you do the collars of the cow-heels in the other way.

To Collar Mutton.

Keep it covered while 'tis boiling, and when they are boiled tender, take them up and peel them very well, and put them in the water in which they were boiled. Keep the water boiling hot upon some coals, but do not let it boil after you put your angelica in, when 'tis well peeled, you may stifle your pot down close, & leave your Angelica in, while 'tis very green, then take it up and drain it; Weigh it, & to every pound, take a pound & two ounces of double refin'd sugar. You may use the best loaf sugar. put it in your skillet, and put to it a pint of spring water; put it over the fire & when it boils, put in your Angelica (if you use loaf sugar, whisk the white of an egg to it to clarify it, put it over the fire, and when any scum rises, skim it clean. Then take it off, and strain your syrup, and put it to your Angelica as you do the syrup you make with the double refined sugar) Let your Angelica boil leisurely over the fire, keeping it close covered, and turn it now and then but keep it as whole as you can. Then when 'tis boil'd

so that your syrup is consumed, and your Angelica sticks to your fingers, for the syrup will dry on them, and be like sugar, you may take it up. Then scrape a little double refin'd sugar on a dish or pye plate; then twist your Angelica & lay it on, some of it you may braide, some you may tie in knots.

No. Admiral Pococke's rec.t for Pickling Beef, Mutton &c. and keeping Meats good with Improvement

Take 4 Gallons of Good Water, to which add one pound & half of Muscavado Sugar, Two Ounces of Saltpetre, and Six pound of Bay Salt, or common great Salt, put the whole into a Clean Pott, or Kettle, and let it boil, being careful to take all the Scum off as it comes up, when no more scum rises take the Liquor off, and let it stand till Cold; then having put the Meat you want to preserve into the Vessel you intend to keep it in, pour the Liquor over the Meat till it be quite cover'd, in which Condition it must be kept.

Beef preserved in this Manner has been taken out of the Pickle after lying in it Ten Weeks, and it has been found as good as if not salted more than Three Days & at the same time as tender as a Chick,—

If you intend to preserve your meat for a Considerable length of Time, 'twill be necessary once in two Months to boil the Pickle over again, Skimming off all that rises & throwing in during the Boiling. Two oz of Sugar & half a Pound of Common Salt. Then, the same Pickle will

hold good for Twelve Months ——— This
Pickle is incomparable to Cure hams, Neats Tongues
or Beef which you intend to Dry or make what is call
ing Beef. Observing when you take them out of the
Pickle first to Clean & Dry them, then put them in
paper Bags & hang them up in a warm place.

Some who have tried the above receipt & those that
Meat Salter than this Method will effect, instead of
Six pounds of Salt, take Eight, or Nine pound. In the
hotter Weather it has been found necessary before
the Meat is put in to the pickle to rub it well
over with Salt & let it lie from one hour to four
till all the Blood runs from it, if the Meat is the
least tainted before it is put into the Pickle
it will be quite Spoild in a days time in such
Weather ———
