# Mahogany

stain on any wood except  
oak or apple wood.

For 1 Gallon take 1/2 lb of  
Rock Lime put it 3 Days  
in 6 quarts of water in this  
Water boil Alkanet Root  
3/4 lb Cutbear 3/4 Gum arabic  
boil all to 1 Gallon Strain it  
and put 1 Tea spoon full of  
Aqua Fortis to every Pint.

Lay it on with a sponge  
when dry rub it up and it  
will shine cleane and stain  
quarter Inch deep only the  
Day before you stain it.  
rub it up with the moist  
Lime and then stain it

To Plate on Iron Steel Brass  
Copper or Tin  
For this take Wash your piece  
in the fire when it is warm  
and salt on it and then  
take your silver and Green  
Tartar and dissolve it in as  
much aqua Fortis as will do.  
When Dissolved take a round  
saced Cork and your slyers  
to shift your piece dip the  
Cork in your Lagues and  
over your work and if you  
want it double Plated. do  
it a second time, and it  
will stand good 20 years  
Look equal to the real  
silver

Sooth Paste

Oris Root - ℥i

De la Mirin

1 R ad Lingzile 1/2i.

Super Salt Potash 1/2i.

Leaf sugar - 1/2i.

Lemon sliced -

Pour two Gallons of  
boiling water on the  
above and let it stand  
until it is nearly  
cold then strain it off  
and add three spoons full  
of yeast. stir it well  
put it into small  
stone bottles. It will  
be fit to drink in  
2 or 3 hours -

Cur. Healing Bristle

1/2 Soft Soap 1/4

Sweet Oil. 1/2

Alumbr 1/2

Soft Water 1/4

The whole to be boiled for  
the till the soap is dissolved  
pour the whole an ounce  
pound of Rotten Stone  
mix it well together as  
you will dough and it is  
fit for use directly. Use it  
with a bit of flannel  
let it remain on till dry  
for brass or copper clean  
it off with swollen Cloth.

For a white ~~metal~~  
metallic base cotton

Steel Gravel  
Cure Hardened Metal

If it is much rusted or  
paled you will take

Neats foot Oil  $\frac{1}{2}$   
Turpentine  $\frac{1}{2}$

Mix both together and put  
it upon a piece of Yellow  
cloth and a small piece  
of Cotton Stone on it  
and scour the article  
with and clean it off  
with any wollen

and afterwards polish  
with fine mice Stone fine  
by powdered dusted off  
with clean shining  
Leather

For the French Polish

Shelllac  $\frac{3}{4}$

Mastic  $\frac{1}{4}$

Alcohol - 36 pt M.

pour it off for use.

For Preserving Leather

Prussian Blue - 2 1/2 lb

Soft Soap 3 3/4

Glue 2 1/2

Strong Linn 3 1/4

Log wood 2 1/2

Wine 2 1/2

Bait and a slow fire for 3 1/2

half an hour then strain  
and in a week it will  
be fit for use -

Boil for two hours then  
strain through a fine  
hair sieve and boil the  
bones in a pint of strong  
vinegar and if any remain  
after grinding them in a  
marble mortar boil  
the whole with  
starch sufficient about  
3 ounces to form a syrup

Water Colours -

Mineral Green  
of Blue Vitriol #1  
to be powdered very fine  
and dissolved in hot  
water to which add 1 of  
Whiting and stir them  
together then add them  
together add 2 American  
ashes stop it down close  
and let it remain for  
two days then it may  
be exposed to the air  
if you wish to make it  
darker add more ashes  
if lighter more white.

Gooseberry Wine  
Every pound of goose  
berry when bruised put  
one quart of water let it  
stand three days, to every  
gallon of Juice when  
strained put three pounds  
of Loaf Sugar. Put it in  
barrel with a piece of  
Seynslap hanging in it  
plug it, and in six months  
bottle it when the wine  
is put in the barrel to  
every twenty quarts put  
one of Brandy

The Green Gooseberries  
are not quite ripe are

 half pint.

Rt - Cinnamon wine

Sherry glass or if found  
 put one glass of water

Let it remain 24 hours in warm  
 it then add 1/2 pint sugar or  
 Candies to give the Cord  
 Give the ferment. wine

is over then add half pint  
 of brandy to each glass

Mentha pulegiata 1  
 Pulphale taste 3

of - 1. 1/2 lb. Cummy Brine  
to one gallon of weak but  
a gallon of water till it stinks  
It haues then strain mix to  
every Gallon half the soft sugar  
put it into a Cork wine Ruff  
it will preserve while the  
Invention is in use  
then add the sweet sugar  
& soft kind Brandy to a Gallon

To make Ginger Wine  
To a gallon of water put  
three pounds of Sugar  
two ounces of sliced Ginger  
and two Lemons  
The sugar must first boil  
and be well skimmied  
then add the Ginger as  
the rind of the Lemons  
toast a piece of bread  
cover it with yeast put  
it on feeted very thin  
to the syrup. This  
must boil in all about  
an hour when nearly  
cold put in the juice of

tumors, toast a piece of  
bread, cover it with yeast  
put it in lishing the whole  
stand two or three days in  
the tub stirring it twice  
a day. then put the whole  
with the ingredients when  
may be at the bottom

to a barrel & add a little  
Sungas; to fine it let it  
stand 4 or 5 weeks and  
bottle it off

The barrel should stand  
not be stopp'd close under  
a fortnight
