Dear Mrs Bands & Aggie:-

Still, here I am  
away out in the West  
again & it seems rather  
good to be back, although  
everything is very quiet  
& I can see a considerable  
change in Edmonton.

Business is flat, especially  
in Real Estate, & there  
are so many in that  
line of business.

I arrived here  
two weeks ago yesterday

& believe me I was mighty tired after my long journey. I stayed in Moose Jaw a day & that was the only stop over I made. I made good connections all the way. Jean met me at the train & she was surely glad to see me. She is looking fine & I think she is feeling better than she did when I left for home. She was asking for you both & wished ~~me~~ to be remembered to you.

The weather is perfectly lovely here & every body was out in their spring suits to day.

I have a temporary position with the Immigration Hall, the stenographer's mother & father both died in a week so I am just relieving her. Expect I shall be there for two weeks more. The work is very heavy but I get dandy practise in my shorthand. The office where I used to work may open soon then I will have my old position back

again. This Star has  
surely made a change  
in this town & I guess  
the other Western places  
are the same.

I am enclosing a  
snap of myself which  
I think, is quite natural.  
I wish I had a nicer one  
to send.

Did you get your  
umbrella O.K. I was  
sorry Hilfred didn't  
take it - sooner. I still  
have my cold yet &  
it - seems I can't get  
rid of it.

Write me soon &  
I will surely be glad  
to hear from you.

With love,  
Ethel
