

ONTARIO  
THE ONTARIO HOSPITAL

London, June 19, 1947.

Mr. Phillip George,  
249 South Christina Street,  
SARNIA, Ontario.

Re: Lena Finger

Dear Mr. George:

I am writing to inform you that Miss Finger is in poor health. She has been losing weight for the past few weeks. Two days ago her temperature became elevated and it was found that she is suffering from pneumonia. She is quite thin. She has very little resistance. At present her temperature is a little lower than at the beginning of her illness.

I would advise you to visit her at once if you should wish to do so.

Yours truly,

*H. D. Wilson*

H. D. Wilson, M. D.,  
Physician.
