

The Indian Dept^E having had to accept the Will of the Late William Rawanah, would seem to give the sons a chance to dispute the disposition of their father's property direct to that Department, as the very fact of their father having forgotten them in disposing of his estate, would give them a wider chance and most good reason to apply to that department,

Make a sworn Statement before any Magistrate, as to the Truth of their father forgetting them when making his last will, and then send the statements to the Indian Dept^E Ottawa, would naturally bring some results or some information at least.
