General Information

ORGANIZATION

The University of Western Ontario is composed of three units: the College of Arts (University College), the Medical School and the Institute of Public Health; affiliated with the University are four colleges teaching four-year Arts courses: viz., Assumption College, Windsor; Ursuline College, London; St. Peter's Seminary College of Arts, London; Waterloo College, Waterloo; one Junior College teaching the first two years in Arts only, Alma College, St. Thomas; one theological college, Huron College, London.

HISTORY

Western University, through the efforts of the Bishop of the Diocese of Huron of the Church of England in Canada, received its charter from the Legislature of the Province of Ontario in 1878. The first classes graduated in Arts and in Medicine in 1883.

The Medical School has maintained an unbroken existence since it was first opened. In 1912 control by a joint stock company ceased and the Medical School became a Faculty of the University, under the direct control of the same Board of Governors as the rest of the institution; in 1921 it occupied its present buildings.

The Faculty of Arts, for financial reasons, was forced to close from 1885 to 1895. Revived in the latter year, it was for some time compelled to struggle for existence, but in 1908 its charter was so amended that it became undenominational and was permitted to receive financial assistance from the London City Council. Later, when the student body had increased to such an extent that local finances could not possibly meet the demands, the Province assumed part of the load of current expense. The Kingsmill property, about 260 acres, north of the City of London, was bought in 1917; buildings were erected, and the Faculty of Arts was moved from downtown to the present location in 1924.

The Institute of Public Health was opened in 1912 in a building erected and equipped by the Government of the Province of Ontario and turned over to the University to "aid Medical Education and promote instructional and practical work in Public Health." It became the Faculty of Public Health of the University, the first independent Faculty of Public Health in the British Empire, in 1917.

The name of the University was changed from "Western" to "Western Ontario" by Act of the Provincial Legislature in 1923.

PHYSICAL EXAMINATIONS

A physical examination by practising physicians, under the supervision of the Department of Physical Education, is required of students, men and women, of all years. Physical examinations will be made by

appointment during registration week. Students who have registered and who have not been examined during this prescribed period will be required to pay $1.00 for late examination.

STUDENT HEALTH INSURANCE

The scheme of health insurance was designed and is operated for the benefit of the students. Its first purpose is to protect any student whose academic year or college course may be jeopardized by a serious accident or a prolonged illness. The second is to maintain the health and efficiency of the students. As the student body cannot make a legal contract, the University has made the contract and has also assumed the overhead costs, but the University does not assume any responsibility for claims. This responsibility is borne entirely by the Assurance Company.

No insurance claims will be paid to any student who has not taken the physical examination for the current year (see page 10).

The maximum claim for one student is $75.00. For the protection, however, of students engaged in competitive athletics, the Athletic Association pays the Assurance Company an additional premium and then prepares a list of students for whom special protection is provided to a maximum of $150.00 each. No medical fees will be paid from the funds of the association unless the obligation has been sanctioned in advance by the Director of Physical Education or the department physicians.

Students registered in affiliated colleges and resident in London or St. Thomas, may secure health insurance.

UNIVERSITY CONCERT SERIES

The cultural life of the University is enhanced by the provision each year of a series of concerts by artists of high distinction in their several departments of music. The plan provides for at least two concerts during the academic year. The project is subject to the jurisdiction of the University Students' Commission and the Carnegie Music Fund Committee under the Chairmanship of the President of the University. Each full-time student in the three constituent Faculties (Arts, Medicine, Public Health) is given, in return for the payment of the music fee, a ticket of membership in the series which entitles him or her to admission to all concerts. Members of the governing bodies and of the alumni, together with their families, are admitted to membership upon payment of a fee per person arranged by the Committee for each annual series.

THE LIBRARIES

Since sound learning is impossible without sufficient good books, the library has an important place in a university. There are three libraries at the University of Western Ontario, each of which comes under the central administration of the University Library Board.

The three divisions follow the Library of Congress system of classification. The main collection of books, amounting to 121,000, is housed in the Lawson Memorial Library, erected in 1934. The Medical School Library contains more than 25,000 volumes. The library of the Institute of Public Health is maintained as a working collection of books and journals and contains about 1,200 volumes. Thus the combined libraries contain more than 147,000 volumes.

Although this is a fairly large collection and compares favourably in point of numbers with other university libraries in Canada, numbers of volumes are not the best criteria of a library's value. It would be quite possible to have 150,000 volumes, not one of which would be of value to undergraduate or graduate students; or to have the same number of valuable books made almost unusable because of lack of space in which to consult them. The books on the shelves, their accessibility and condition, the policy of selection, the numbers of current literary and scientific journals, and the reading-room accommodation must also be taken into account. In these particulars the University libraries rank high. Few volumes are on the shelves without a good reason. Books purchased are subject to a rigorous selection policy which takes into account both immediate and prospective value. Reading-room accommodation is adequate at the Medical School, and in the main library there is reading-room space for nearly three hundred students; there are also forty carrels for advanced and graduate students, who may secure permits to enter the stacks on the recommendations of their professors. In an effort to make the collections usable, every student in his first year is required to secure credit in a course of instruction in the use of the library. Students in medicine receive special instruction in the use of medical indexes.

It is impossible for a University library to make exhaustive collections of all kinds of printed material. However, in some respects the libraries of the University of Western Ontario are outstanding. The main library is conspicuously rich in Canadiana, Americana, and books relating to Shakespeare. The nucleus of this material came as a gift in 1918 from the late Dr. John Davis Barnett. There are also important newspaper files, and a large collection of early agricultural journals, as well as printed and manuscript sources of the social and religious history of Canada. The Medical School library is particularly rich in medical journals and has an extensive collection in the field of medical history.

Students may also have access to the comprehensive and well chosen collections of the London Public Library if they make application. The new modern library building will be completed before the first term opens in September, 1940.

DEGREES

By its charter the University of Western Ontario may confer degrees in Arts, Medicine, Science, Agriculture, Law, Education, Music and Theology, upon persons who, having complied with the requirements, are admitted to such degrees by the Senate.

The degrees at present conferred by the University are:

1. Honorary Degrees: *Doctor of Divinity; Doctor of Science; Doctor of Laws.
2. Degrees by examination: Bachelor of Arts (B.A.); Bachelor of Science in Nursing (B.Sc.); *Bachelor of Divinity (B.D.); Bachelor of Laws (LL.B.); Master of Arts (M.A.); Master of Science (M.Sc.); Doctor of Medicine (M.D.); *Doctor of Divinity (D.D.).

The diplomas and certificates awarded by the University are:

Diploma in Business Administration; Diploma in Home Economics; Diploma of Public Health (D.P.H.); Certificate of Public Health Nurse (C.P.H.N.); Certificate of Instructor in Nursing (C.I.N.).

Exchange of Undergraduate Students

The National Federation of Canadian University Students has put into operation a plan for exchange of undergraduate students among any two of the four following divisions of Canada:

I. University of British Columbia;
II. Universities of Alberta, Saskatchewan, Manitoba;
III. Universities of Ontario and Quebec;
IV. Universities of the Maritime Provinces.

Any bona fide student may apply for exchange to some division other than the one in which he is currently working, for the third or higher year, but he undertakes to return to his home university the following year to complete the work for his degree. Exchange in the faculties of Medicine and Dentistry is not available. The successful candidate for exchange privilege will be permitted to take a full year's work at the desired university without paying tuition or student council fees. Applications must be filed before March 1st each year. Exchanges will not be possible in 1940-41.

For further details consult the Registrar.

Public School Inspectors' Certificates

By agreement with the Minister of Education the work described below satisfies the academic requirements for a Public School Inspector's Certificate:

(1) An Honour Degree in Arts in accordance with the present agreement as prescribed for Specialist qualification (see page 14); or

(2) A General Course Degree in Arts with a standard of 66 per cent. at the final examination for the degree, with standing in English for each of the four years.

* The degree so indicated can be conferred by the University only on the recommendation of an affiliated theological college. The last degree, Doctor of Divinity by examination, is under the jurisdiction of the Board of Theological Colleges of the Church of England in Canada.

A candidate shall extend his course over at least four years from Junior Matriculation and he shall attend the University classes (a) for at least two complete winter sessions approved by the University, or (b) for at least one complete winter session, and two complete sessions of the Summer School, or (c) for at least six complete sessions of the Summer School or the equivalent thereof. His work must be supervised as prescribed in the agreement between the Department of Education and the University.

For the professional requirements candidates should consult the Department of Education, Toronto, Ont.

High School Assistants' Certificates

I. Ordinary Certificates

The academic standing for admission to the course in the Ontario College of Education leading to an ordinary High School Assistant's Certificate is a degree in Arts from a British University, based upon courses approved by the Minister of Education.

II. Specialist Certificates

Subject to the conditions specified below, an Honour degree in Arts (60 per cent.) is the academic standing for admission to the qualifying examinations leading to High School Specialist Certificates in Classics, Commerce, English, English and French, French and German or Spanish, History, Latin and French, Mathematics and Physics, Science.

Each candidate for a Specialist's Certificate must also obtain Honour standing (at least 75%) at the qualifying examination held annually in November at the Ontario College of Education. This examination is based on the High School courses prescribed for the current year in the subjects represented in the Specialist course to which the candidate seeks admission.

For the University of Western Ontario, the courses in the departments specified above shall be the Honour Courses as defined in the Announcement of the Faculty of Arts for 1940-1941.

The courses shall extend over at least five years from Pass Matriculation or, as may be determined under the regulations of the University, over four years from Honour Matriculation in four subjects.

Candidates shall attend for at least two full academic years, the third and the fourth. Under the direction of the University, the rest of the course may be taken by Summer School and Extramural study.

The Minister shall have authority to deal with any case not already covered. The University shall submit to the Minister a recommendation on any case whose merits justify special consideration.

NOTE. Graduates in general or pass courses who wish to obtain specialist standing should consult a special pamphlet to be obtained from the Registrar.

Objectives

The Arts Faculty of the University is primarily concerned with undergraduate instruction leading to a first degree. The purpose of this instruction is to produce personalities of positive value in their environments. The ideas that should inform this process have been so strikingly stated by a leading educationist* that he may well be quoted:

"The chief needs of public service are five very simple ones: honesty, courage, common sense, knowledge and vision. The character-building forces of the nation—the home, the school, the church, the college—must be depended upon to provide the honesty and the courage. Nature, and nature alone, can furnish the common sense. To honesty, courage and common sense, the University can and should add knowledge and vision.

"The task of the college is, or should be, reasonably definite and well understood. It is to take the youth at about the age when in ancient Rome he put on the *toga virilis* and offer him for three or four years opportunity for carefully directed and supervised study in some part or in many parts of the field of liberal arts and sciences. The purpose of this carefully supervised and directed training is to give him the benefit of his rich human inheritance, so far as that may be practicable, and thereby better to prepare him for such specific task as may await him in the years of mature life. The old days when the substance of this inheritance could be transmitted through a few carefully chosen and prescribed subjects of study have gone forever. They have gone, not because those studies were not excellent in their time, but rather because times have changed and the human inheritance has taken on a more many-sided and richer form than it once was known to have. Nature and its study have offered new and splendid vistas to both knowledge and imagination. The creative arts have unfolded themselves in striking fashion for a century past as educational instrumentalities of highest value. The structure and underlying principles of the social and political order, first examined and interpreted in classic fashion by Aristotle, have now taken on many new forms and guises, each with its own appeal and its own capacity for usefulness. It is for reasons such as these that the task of the college faculty has become more difficult than ever before, since it must, within a very limited time and for youths from all sorts and conditions of home, family and school background and environment, offer that opportunity to understand and to grasp the rich human inheritance which it is the first business of the college to transmit."

Regulations

MATRICULATION

Subjects: Pass Junior

A candidate for Junior Matriculation must secure credit for the following subjects of the Middle School of the Department of Education of Ontario:

Latin (Authors, one paper; Composition, one paper);
English (Literature, one paper; Composition, one paper);
History (Canadian, one paper; *Ancient, one paper);
Mathematics (Algebra, one paper; Geometry, one paper);

Any two of:

Greek (Authors, one paper; Composition, one paper);
French (Authors, one paper; Composition, one paper);
German (Authors, one paper; Composition, one paper);
Spanish (Authors, one paper; Composition, one paper);

or

Italian (Authors, one paper; Composition, one paper);
Experimental Science (Physics, one paper; Chemistry, one paper);

or

Agriculture (Part I, one paper; Part II, one paper).

Subjects: Honour.

A candidate for Honour Matriculation must secure credit either by recommendation or examination for one or more of the following subjects of the Upper School examinations of the Department of Education of Ontario:

Greek (Authors, one paper; Composition, one paper);
Latin (Authors, one paper; Composition, one paper);
English (Literature, one paper; Composition, one paper);
French (Authors, one paper; Composition, one paper);
German (Authors, one paper; Composition, one paper);
Spanish (Authors, one paper; Composition, one paper);
History (one paper);
Mathematics (Algebra, one paper; Geometry, one paper; Trigonometry, one paper);
Physics (one paper);
Chemistry (one paper);
Biology (Botany, one paper; Zoology, one paper).

These examinations are conducted by the Department of Education at various centres throughout the Province of Ontario in June of each year.

---

*Music may be offered as an option for Ancient History.

A candidate for Junior Matriculation on obtaining at least fifty per cent. of the marks assigned to any paper, will be given credit for having passed in that paper and will receive a certificate of such standing. Percentages: Junior

A candidate for Honour Matriculation will be allowed to write on one or more Upper School papers at a time in any order.

In order to secure First Class Honours in a subject a candidate must obtain at one examination at least seventy-five per cent. of the marks assigned to that subject and at least fifty per cent. in each paper of that subject. Percentages: Honour

In order to secure Second Class Honours in a subject a candidate must obtain at one examination at least sixty-six per cent. of the marks assigned to that subject and at least fifty per cent. in each paper of that subject.

In order to secure Third Class Honours in a subject a candidate must obtain at one examination at least sixty per cent. of the marks assigned to that subject and at least fifty per cent. in each paper of that subject.

A candidate who fails to obtain First, Second, or Third Class Honours in a subject under the above regulations, may secure credit for the subject by obtaining at least fifty per cent. on each paper of the subject, not necessarily at one examination.

Such credit in a subject will exempt the student from the Pass work of the First Year in that subject (except in the Sciences and History), if it is included in a Junior Group.

Third Class Honours in Botany and in Zoology will exempt a student from Biological Science in Junior Groups 2, 3 and 4; Third Class Honours in Physics and in Chemistry from Physical Science in Junior Groups 2, 3 and 4. Credit will not be allowed on one paper; both are necessary.

A candidate who obtains at least forty per cent. in a paper of the Upper School examination (with the exception of Modern History, Physics, Zoology and Botany) will, if he so desires, receive credit for that paper of Middle School examination; a candidate who obtains at least forty per cent. in Modern History of Upper School, will, if he so desires, receive credit for Canadian History of Middle School, provided he submits a certificate of standing in Lower School Canadian History.

EQUIVALENT EXAMINATIONS

Certificates of having passed Secondary School subjects parallel to Middle or Upper School subjects named above may be accepted *pro tanto*, provided always that the standards of these certificates meet the requirements of this University.

The senior local examinations conducted by the University of Oxford and by the University of Cambridge may be accepted instead of Upper School standing in the same subjects.

A candidate applying for admission must submit an official statement of the marks on which his certificates were awarded. For an official examination of other than Ontario certificates, a fee of $2.00 is charged. Credit for this fee is allowed students who subsequently register in the University of Western Ontario.

ADMISSION

Candidates seeking admission must present the official evidence of their academic standing to the Registrar at least two weeks before the opening of the session they wish to attend.

General Course. Candidates will be admitted to the General Course in Arts if they present certificates of complete Junior Matriculation (or the equivalent) as outlined on page 32.

Candidates presenting Upper School certificates or the equivalent in at least four non-Science subjects (not papers), together with complete Junior Matriculation, will receive sufficient credit to enable them to reduce the normal length of their courses by one year.

Honour Courses. Students who have completed the Junior Group in which they first registered may enter the second year of an Honour course for which they have the specific qualifications (see pages 61-79).

ADVANCED STANDING

From Collegiates. Candidates presenting Upper School certificates in Ancient or Modern Languages or Mathematics, or the recognized equivalents of such certificates, may be credited with the corresponding subjects in the Junior Groups. For Sciences, see pages 33 and 55.

From Universities. All applications for advanced standing, except on certificates indicated above, must be accompanied by official certificates from the institution where work has been done, and be presented to the Registrar not later than September 10. These official documents must include a certificate of honourable dismissal from the institution last attended. No student may register in the University of Western Ontario if he may not re-register in the institution from which he wishes to transfer.

ADULT SPECIAL STUDENTS

Students who are over twenty-one years of age, though they may not be able to present qualifications for admission to candidacy for degrees, may be admitted to classes in the Faculty of Arts of the University, if, in the opinion of the professors in charge, they are qualified to pursue satisfactorily the courses chosen. These special students must satisfy the professors by regular attendance and attention to the work of their classes. They will not be allowed to advance from year to year in a department without taking the regular examinations.

The adult special student who has satisfactorily completed the work of a Junior Group in the General Course will be considered to have secured standing sufficient to permit his proceeding to a degree on the same terms as one who at entrance presented complete entrance requirements.

LENGTH OF COURSES

The General, Home Economics, Secretarial Science and Theological Courses are four-year courses from Junior Matriculation, but they can be completed in three years of satisfactory work by a student who presents credits obtained at the examinations of the Department of Education of Ontario in four Upper School subjects (eight papers) corresponding to subjects prescribed in the first year of each course (see page 33.) The Honour Courses, except as mentioned below, are five-year courses from complete Junior Matriculation or four-year courses from complete Junior Matriculation and Honour Matriculation in four subjects. The Honour Courses in Philosophy, except in University College, require four years from complete Junior Matriculation (see pages 73-76).

EXAMINATIONS

A student who fails to appear for a paper at the time set in the examination timetable will not be allowed to write on the examination paper thus missed, but will be required to pay a special fee and to write a special examination at a time determined by the Registrar in consultation with the department involved.

General Courses.

Regular examinations will be held for the General Arts Courses in January and in May. Students must obtain the required percentage, at least 50, both for the first and for the second term's work in each course.

Students in the General Courses will be ranked in order of merit in each course in six grades, A, B, C, D, E, F. The minimum for Grade A is 75 per cent. of the marks obtainable; for Grade B, 66 per cent.; for Grade C, 60 per cent.; for Grade D, the minimum passing grade, 50 per cent. A mark that falls in Grade E, 40 to 49 per cent., entitles the student to a supplemental, subject to the regulations governing supplementals (see page 36). Grade F, less than 40 per cent., indicates a total failure and the necessity of repeating the course in class.

No student will be admitted to the degree of Bachelor of Arts in the General, the Home Economics, the Secretarial or the Theological Course who has not obtained at least Grade D on all the prescribed and elective work of his course and who has not obtained at least Grade C on one-half the credits required for the Senior Group, or the third and fourth years, and Grade C on one-half the credits of his senior year.

Honour Courses.

The regular examinations for the Honour Courses will be held in May; but when an Honour Course or a definite portion of an Honour Course has been completed by the end of the first term, the instructor may set a final examination on the completed work. This examination

is to be held during the regular January examination period. Third and fourth year Honour classes in which examinations are not set will continue without interruption during the mid-year examination period.

Candidates in the Honour Courses in any department will be ranked in order of merit in that department in four classes; those who obtain 75 per cent. or over of the total number of marks will be placed in Class I; those who obtain 66 per cent. to 74 per cent. will be placed in Class II; those who obtain 60 per cent. to 65 per cent. will be placed in Class III; those who obtain between 50 per cent., the minimum for pass, and 59 per cent., will be placed in Class IV; but an average of Class IV over all the honour subjects of the fourth year (with no failure on any paper) will entitle the candidate to a General and not an Honour Degree. (See page 38).

Students in an Honour Course who do not obtain at least second class standing in the work of the second year, are recommended not to continue in Honours. Nobody will be admitted to the fourth year of any Honour Course whose record in the third year was not at least second class.

Comprehensive Examinations.

Students entering Honour Courses should observe that the purpose of their college work is not simply the creditable passing of courses term after term, but the gradual acquisition of a broad and deep knowledge of the chosen subjects and an intelligent appreciation of their bearing upon general knowledge and culture. Various departments of the University College of Arts have introduced comprehensive examinations for Honour students. These examinations, partly oral and partly written, are given at the end of the senior year and cover the broad aspects of the student's Honour Course. They are additional to the course examinations.

Term Work.

In all subjects of the General Course, except the sciences, the ratio of term-work marks to examination marks is 50 to 100. To pass, a student must obtain 50 per cent. on the whole of a subject, with 50 per cent. in term work and 50 per cent. in examinations. In the sciences the ratio of term-work marks to examination marks is determined by the teaching staff in each subject.

In Honour Courses the ratio of term-work marks to examination marks is determined by the teaching staff in the subjects involved.

Term work in a course will not be credited to a student beyond the year in which the course is taken.

SUPPLEMENTALS

A supplemental examination is one set on work in which a student has been conditioned (40 to 49 per cent.) This examination will be held in August for those who have been conditioned in the first term or in the second term or in the work of the whole year in any course. (See second paragraph under **Failures**, page 37).

Students conditioned at the January or May examinations should attempt to remove their conditions at the supplemental examinations of the next August. If the conditions are not removed the **whole course** must be repeated **in class.**

Supplemental examinations will not be allowed any student in more than four credits of work.

Students whose grade is F (less than 40 per cent.) in any course may not write a supplemental. They must repeat the course in class.

No supplemental examination will be allowed in Honour subjects except those offered as options by General Course students to complete the requirements of their courses.

SPECIAL EXAMINATIONS

No General Course student may write special examinations on more than four credits of work in one academic year (July 1-June 30).

An Honour Course student may not write a special examination in any academic year if he has failed in more than one Honour examination paper or has secured less than 35 per cent. on one Honour examination paper.

No special examination will be set within three months of failure.

FAILURES

A student who fails at any mid-year examination in one-half of his registered credits may be dropped from the University for the second term of the year, but he may re-register for the following winter session. No credit will be given for the part of his work successfully carried in the first term unless a course has been completed.

A student who fails to obtain 50 per cent. in the regular or supplemental examinations in a course will not be eligible for re-examination without a further year's attendance at the lectures in the course in which he has failed. **The student must repeat that course, if it is prescribed, the year after failure no matter what subject or subjects must be postponed.** Genera Course.

A student may take no course oftener than twice.

Subjects which depend directly upon the work of a preceding year may not be taken by a student who has failed in the work of the preceding year.

A student who, at the close of the August supplementals, has not obtained standing in at least two-thirds of the credits of his year will not rank academically as a student of the next higher year.

A student who for two consecutive years has failed to obtain credit in one-half the work for which he has registered each year will be automatically dropped from the University. He may not re-register.

No work may be taken in the Senior Group until the work of a Junior Group has been completed.

Honour Course.

A candidate in an Honour Course who, at the examination for the degree of Bachelor of Arts, fails to obtain the requisite average for Honours (60), provided he has obtained 50% in each course of his final year, may, on the recommendation of the Committee on Academic Standing, be awarded a degree in the General Course. The candidate may write a subsequent examination for the Honour degree.

English Language.

Any student of the third or fourth year who shows an unsatisfactory knowledge of spoken or written English, must take English 21, or a similar course, and remove his condition.

GENERAL

When a student begins a foreign language in the University, no credit towards a degree will be given for the first year of that language unless that year is followed by a second year in the same language.

Preparatory Greek is offered as an option in Junior Groups 2, 3 and 4 for students who present for entrance complete Pass Junior Matriculation without Greek. Credit towards a degree for this preparatory course will not be given unless it is supplemented by at least two other years of Greek, either New Testament or Classical.

A course that is an optional course need not be given unless it is elected by at least five students.

A student may take only three credits more than the number required for the academic year in which he is registered. Permission to take more than three extra credits may be given by the Committee on Academic Standing. For extra credits taken by permission of this Committee, an extra tuition fee of $10.00 a credit and the usual laboratory and caution fees will be charged.

ATTENDANCE AT LECTURES

First and second year students who have attended less than 80 per cent. of the lectures in a course **for any term** shall be debarred from taking the regular examinations on that course. This rule holds for all courses numbered in the tens or the twenties or the two hundreds regardless of the year of a student's registration in the University.

A student, to be eligible for a degree, must have attended classes in this University for two academic years or for one academic year and two summer schools or for six summer schools.

APPEALS

The Senate has made regulations governing appeals by students. A copy of these regulations may be seen in the Registrar's office.

CONDUCT

Students are required to conduct themselves in an orderly manner in all parts of the University premises at all times.

No student will be registered in any year, or be allowed to continue in attendance after registration, if his presence is considered prejudicial to the interests of the University. Registration in any year does not entitle a student to registration in a subsequent year.

The Dean may suspend any student until his case has been considered by the Administrative Council.

The name of the University may not be used in any publication without the permission of the Administrative Council. No class or group of students may engage in any public effort as a body representing the University or any organization within the University, without the permission of the Administrative Council.

Teachers' Courses

University College offers under the three departments listed below a series of courses for those who for various reasons find it impossible to attend the winter sessions for all the work necessary for a degree in Arts.

I. EXTRAMURAL DEPARTMENT

An extramural course is one which a student may pursue without attending classes (except as provided below), but in which he must write the examinations at the periods prescribed for resident students. The conditions for admission to such courses are the same as those required for admission to the intramural General Course (see page 34).

No extramural student is eligible for a degree, unless he has attended classes in this University for two academic years or for one academic year and two summer schools, or for six summer sessions.

No student may take intramural and extramural work concurrently.

Extramural courses are independent of attendance at classes. Courses in the Sciences (including Psychology), in the elements of any foreign language, and honour courses not also given as pass courses, are not given extramurally. Students pursuing extramural courses are subject to the same regulations about exercises, essays, examinations, etc., as those pursuing intramural courses.

II. SUMMER SCHOOL

University College offers a summer session which opens in the first or second week of July and continues thereafter for six weeks.

The subjects offered in the Summer School are taken from the courses of the winter session for General Course students. No Honour course will be offered in Summer School unless it is also part of the General Course.

A student who attends six summer sessions and obtains twenty-four credits for work taken therein satisfies the residence requirement demanded for graduation from this University. Credits obtained by attending classes conducted by the Extension Department (see below) may be included in this number.

Complete information about the Summer School and extramural work is contained in the Summer School Announcement and the Bulletin on Summer School and Extramural Work. These may be had by applying to the Registrar or to the Director of the Summer School and Extramural Department.

III. EXTENSION DEPARTMENT

During the winter session, the University conducts regular weekly credit-classes in several centres in Western Ontario. These classes are taught by members of the University staff, and a student who satisfies the attendance requirement and passes the regular University examinations will obtain credit for the courses. (For further information write to the Director of the Extension Department or the University Registrar).

The M. A. Degree

Academic Qualifications.

A candidate must be a graduate in Arts of this or some other accredited university. A graduate in an Honour Course must have obtained at least Second Class Honours (66%) in the third and fourth years of his course. A graduate in a General Course must have obtained in the last two years at least 66% of the total marks possible and must have no more than six credits graded below 60% in those years. He must spend one year in residence raising his standing to that of an Honour graduate: sixteen credits, chosen on the advice of the Dean and the heads of the departments concerned, must be completed with an average of at least 66 per cent. This year does not satisfy the attendance requirement (mentioned below) imposed on all candidates for the degree of Master of Arts.

Graduates of accredited universities will be accepted as candidates for the degree after they have presented to the Registrar official evidence that they have obtained the degree of B.A., and that their standing in the third and fourth years of their courses corresponds to the standard described in the preceding paragraph.

Period of Study.

A graduate in an Honour Course or a graduate in a General Course who has fulfilled the requirements laid down in the first paragraph, must spend at least one year in residence study. A candidate who holds a half-time teaching or demonstrating appointment shall not be

allowed to try the M.A. examinations until he has completed two years in residence. No courses taken by correspondence shall count towards an M.A. degree.

Each candidate must register not later than October 9th; the Council of the Faculty of Arts will then name a committee of Professors who will supervise the work of the candidate, conduct his examinations, and report the results to the Faculty. Registration and Course of Study.

At least twelve credits of work must be satisfactorily completed in the M.A. course. A candidate may pursue either an extensive or an intensive course; that is, he may study in several departments or in one. The writing of a thesis shall be at the discretion of the departments concerned. If a thesis is required, from three to eight credits may be allowed for it. A candidate may offer no more than six credits for undergraduate courses approved by his committee; no more than three credits for undergraduate courses may be offered by a candidate who elects the extensive course and writes a thesis.

A candidate must pass (with a standing of 66%) written examinations on all lecture courses and an oral comprehensive examination which shall include the field of the thesis if written. The examination shall be given during the annual May examinations. A representative from another department may be asked to be present at the oral comprehensive examination of a student who has pursued an intensive course. Examinations

The subject of the thesis must lie in the Faculty of Arts and in that part of his course in which the candidate obtained at least 66% as an Honour student, or Grade A as a General student, in each of the third and fourth years of his course. Thesis

Each candidate must submit, to the Registrar, through the committee appointed to supervise his work, an outline of his proposed thesis, not later than January 6th.

A typewritten or printed copy of the completed thesis, bound in the form approved by the Librarian, must be in the hands of the Registrar not later than May 1st, and must be accompanied by the fee of twenty dollars, ten dollars of which will be returned to the candidate if unsuccessful. If the thesis is typewritten, the original and not a carbon copy must be submitted.

Upon being approved the thesis shall become the property of the University.

A candidate who obtained First Class Honours in each of the third and fourth years of his Honour Course and who obtains First Class Honour Standing in the examinations on his prescribed course may be granted the degree of Master of Arts with Honours. Honours

The LL.B. Degree

The academic requirements for permission to register for this degree are:

(a) An Honour Degree in the Department of Economic and Political Science from the University of Western Ontario or some other acceptable university or college.

(b) A certificate of graduation from Osgoode Hall and of admission to the practice of law in the Province of Ontario, or equivalent certificates.

The work itself consists of:

(a) Reading Courses and examinations in each of the following subjects (see page 124):

Domestic Relations.
Medical Jurisprudence.
Theory of Obligation.
Corporations.

(b) An approved thesis on an assigned subject.

A typewritten or printed copy of the completed thesis, bound in the form approved by the Librarian, must be in the hands of the Registrar not later than May 1st. If the thesis is typewritten, the original and not a carbon copy must be submitted.

Upon being approved the thesis shall become the property of the University.

For fees, see page 53.

II. Graduate

The Rhodes Scholarships.

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years.

The stipend of a Rhodes Scholarship is fixed at £400 per year. At most colleges, and for most men, this sum is not sufficient to meet a Rhodes Scholar's necessary expenses for term-time and vacations, and Scholars who can afford to supplement it by, say, £50 per year from their own resources, will find it advantageous to do so.

CONDITIONS OF ELIGIBILITY: A candidate to be eligible must:

1. Be a British subject, with at least five years' domicile in Canada, and unmarried; have passed his nineteenth, but not his twenty-fifth birthday on October 1st of the year for which he is elected.

2. Have reached such a stage in his course at one of the Universities of Canada that he will have completed at least two years at the University in question by October 1st of the year for which he is elected.

Candidates may apply either for the province in which they have their ordinary private domicile, home, or residence, or for any province in which they have received at least two years of their college education before applying.

Full particulars can be obtained from Erskine W. Ireland, Esq., 372 Bay Street, Toronto, Ontario, Secretary of the Selection Committee for the Province of Ontario.

Each candidate for a Scholarship is required to make application to the Secretary of the Committee of Selection of the province in which he wishes to compete. not later than November 10th. Preliminary applications of all University of Western Ontario candidates must be filed before Nov. 1, with the Registrar, from whom application forms may be obtained.

Daughters of the Empire Overseas Scholarship

As part of their War Memorial the Imperial Order Daughters of the Empire offer annually in each province in Canada a scholarship for one year's post-graduate study in Britain. The value of the scholarship is $1,400.

These scholarships are subject to the following conditions:

1. Candidates may be men or women. They must be British subjects, with at least five years' residence in Canada, and unmarried. Each candidate must either hold a degree from a University or College in the Province in which he or she is making application, or be in his or her final year in a course proceeding to a degree.

2. In each province a committee of selection will award the scholarship. Other things being equal, preference will be given to a returned man, his sister, son or daughter. The Committee will consider not only the academic record of the candidate, but his or her character, physical fitness and promise.

3. Applications for this scholarship should be sent, before October 5th, 1940, to the Provincial Educational Secretary, I.O.D.E., Y.W.C.A. Building, Hamilton, Ontario, who will provide additional information about the scholarship.

Canadian Federation of University Women Scholarships

Value, $1,000 for Senior Scholarship, $700 for Junior; the scholarships of the Canadian Federation of University Women, available for study or research work, are open to any woman holding a degree from a Canadian university. Preference will be given to candidates who have completed at least one or two years of graduate study and have definite

research work in preparation. Each award is based on evidence of character and ability of the candidate and promise of success in the subject to which she is devoting herself. Applications must be received not later than February 1st, each year, by the Convener of the Scholarship Committee.

The letter of application should contain an account of the applicant's educational training and a statement in full of the plan of study or research she intends to pursue. This information should be accompanied by:

1. A written statement from the President or Acting President of the college or university awarding the degrees held by the applicant to the effect that her application as a suitable candidate is approved;

2. Testimonials about her health, character, ability and scholarship;

3. Theses, papers or reports of investigations, published or unpublished. These papers, letters, etc., submitted by the applicant, will be returned if postage is sent for that purpose. Confidential letters sent are kept.

The Committee cannot assume any responsibility for collecting testimonials for an applicant.

III. Matriculation

Candidates for Matriculation Scholarships must write all the papers on which an award is based. No credits by "recommendation" will be considered. Each candidate must write at least six papers in order to be eligible for competition for any scholarship.

The Sir Arthur Currie Memorial Scholarships

These annual scholarships, two in number, have been endowed by a group of citizens of London and vicinity in honour and in memory of the late Sir Arthur Currie; value $100 cash per year for four years, and $125 tuition per year for four years; total value, $900 each.

The conditions and terms of the award are:

1. The scholarships will be awarded annually only to applicants who have been approved by the executive committee of the donors.

2. Applicants may be graduates of other universities providing the courses elected are not available at the universities they were attending.

3. School attendance during the preceding year is not necessary if the applicants have the required academic qualifications.

4. Financial need of the candidates will be taken into consideration in making the award.

5. A successful candidate may hold his scholarship either in the Faculty of Medicine or in University College.

6. In order to retain the advantages of the scholarship, the holder must carry his academic program to the satisfaction of the committee from year to year.

7. The Committee of Award shall consist of the Registrar of the University (Convener), the Director of the Department of Physical Education, the Chairman of the Physical Education Committee of the Board of Governors, a representative from the Staff of the Medical Faculty, a representative from the Faculty of University College, and two representatives of the donors, seven in all, of whom four shall constitute a quorum.

8. The Committee of Award may waive any of the above conditions in favour of specific cases by unanimous vote, except rule one.

Leonard Scholarships

The income of a trust created by the late Lieut.-Col. and Mrs. R. W. Leonard, St. Catharines, Ont., will be expended in paying part of the college expenses of selected students at several institutions of Canada, including the University of Western Ontario, for from one to four years. The details of qualification and the procedure of application for these scholarships may be secured by corresponding with the trustees of the foundation, The Toronto General Trusts Corporation, Toronto, Ontario, or with the Registrar of the University of Western Ontario.

Ontario Hockey Association Scholarship

The Ontario Hockey Association has founded a scholarship to be awarded annually on the results of Junior Matriculation or Honour Matriculation examinations (or a combination of the two) held by the Department of Education of Ontario the June preceding the award. The following conditions obtain:

1. The candidate must have complete entrance requirements for the course he intends to pursue;

2. The marks on the candidate's six best papers only will be considered; minimum average for qualifying contestant, 66 per cent.;

3. If in any year no candidate reaches the minimum qualifying average no scholarship for that year will be awarded.

In making the award the following points will be considered:

1. Academic qualification;
2. Financial need (to be supported by affidavits);
3. Ontario Hockey Association rating as a clean, effective hockey player.

The award shall be made by a committee of three members who shall be the Registrar of the University, the chairman of the Scholarship Committee of University College, and a nominee of the Ontario Hockey Association Executive, who may or may not belong to the University. The winner of the scholarship will receive $100 in cash, one-half in October, the other half in February following; he will receive also $125 tuition a year for four years; total value of the scholarship $600. Application forms for this scholarship should be received by the Registrar of the University on or before May 1, each year.

The Ontario Knights of Columbus Scholarships

The Ontario State Council of the Knights of Columbus has established four scholarships for competition among the Catholic students writing upon the Honour Matriculation examinations conducted by the Department of Education of Ontario. A scholarship, which has a value of $100.00 a year, will be paid to the successful student during his course, but not for more than four years. The student may attend any University or Catholic School of Philosophy in Ontario, or Osgoode Hall, or any other University, or Catholic School of Philosophy approved by the State Executive. If the University chosen has a Catholic college in federation or affiliation, the student must enroll through this Catholic college; the student registering in the Faculty of Arts of the University of Western Ontario must enroll in either Assumption College, Windsor, Ursuline College, London, or St. Peter's College, London.

Application forms for these Scholarships may be obtained from Mr. J. W. C. Tierney, the State Secretary of the Knights of Columbus, Arnprior, Ont., with whom they must be filed on or before the first day of May in the year in which the examination is to be completed. All other communications about these Scholarships must be made to the Secretary, from whom further information may be obtained on request.

UNIVERSITY COLLEGE

In order to retain the privileges of the following scholarships in University College, the winners must maintain a satisfactory degree of proficiency from year to year of their courses.

Honour Matriculation Scholarships

I. Two General Proficiency scholarships of $100.00 each, on five departments of Upper School work:

(a) English, Latin, Mathematics (Algebra and Geometry only), History and one foreign language;

(b) English, Mathematics (Algebra, Geometry, Trigonometry), History, a science and a language.

The winners will receive free tuition for four years in University College of Arts; total value of each scholarship, $600.00.

II. Scholarships of $50.00 each, awarded on six Upper School papers:

(a) English, Latin and Mathematics (Algebra and Geometry);

Requirements For Degrees

Explanation of Number System

First year general courses are numbered between 10 and 19.

Second year general courses are numbered between 20 and 29; second year honour courses, between 200 and 299.

Third year general courses are numbered between *30 and 39; third year* honour courses, between 300 and 399.

Fourth year general courses are numbered between 40 and 49; fourth year honour courses, between 400 and 499.

Graduate courses are numbered between 500 and 599.

Courses numbered between 1 and 9 are preparatory courses equivalent to matriculation work in the same subjects.

A course whose number is followed by -a is given in the first term only; followed by -b, in the second term only; followed by -x is given in an affiliated college only.

All students, on entering the Faculty of Arts, will register in one of the following courses:

I. GENERAL COURSE: leading through one of four Junior Groups to either a General or an Honour degree. On completion of any one of the Junior Groups a student may finish his course for a General degree in two years (Senior Group) or, if eligible, may enter an Honour course and finish in three years (see pages 61-79).

II. SECRETARIAL SCIENCE COURSE (see page 57).

III. THEOLOGICAL COURSE (see page 58).

IV. NURSES' COURSE: leading to the degree of Bachelor of Science. (see page 59).

V. HOME ECONOMICS COURSES: leading to a diploma or to the degree of B.A. (see page 60).

For Honour Philosophy in Assumption and St. Peter's Colleges, see pages 73-76.

I. GENERAL COURSE

Requirements for Admission: Complete Pass Junior Matriculation.

In each Junior Group credit will be allowed for certificates in Upper School English (10, 11), Mathematics (10, 12, 18), Latin (10), Greek (10), French (10), German (10), Spanish (10). Certificates of at least third class honours in each of Botany and Zoology will cancel Biological Science 11, and of at least third class honours in each of Physics and Chemistry will cancel Physical Science 11. Credit will not be given for one of the two papers involved.

These Junior Groups are complete in themselves and no work in advance of them can be taken before the elected Group is completed.

The Department of Education of Ontario approves of a degree in this course as the academic qualification for an ordinary High School Assistant's Certificate.

JUNIOR GROUP 1

This group is a prerequisite for all the Honour Science courses and for Honour Mathematics and Physics.

III. THEOLOGICAL COURSE

Requirements for Admission: Complete Pass Junior Matriculation.

The following course, the Theological Options of which are available at Huron College only, is accepted by the University for all Protestant students who have been officially approved as candidates for the ministry by the governing authorities of their respective denominations. The course, however, is open to any man or woman who may be interested in training for religious work as a profession or as an avocation. To meet the individual needs of this latter group adjustments, especially in Greek and Hebrew, will be arranged as the timetable permits.

Any student entering this course with Upper School standing in English, Greek and Latin may reasonably expect to complete the course in three years.

Greek and Hebrew may not be begun in the same academic year.

*See Actuarial Science Option.

ACTUARIAL SCIENCE OPTION

This option is intended for students who wish to become actuaries. It differs from the Honour Course in Mathematics and Physics only in the substitution of a course in accounting for two credits of mathematics in the third year, and of the addition of two courses in actuarial science in the place of two credits of

mathematics in the third and fourth years. This course will prepare students for four of the six examinations required for Associateship in the Actuarial Society of America and in the American Institute of Actuaries. The first of these may be written in the second year, and the other three in the third and fourth years. These examinations are held on the first Monday, Tuesday and Wednesday after the thirteenth of April and may be written in London. **Application to write these examinations must be made by January 31st.**

Students may elect this option only after consultation with the Head of the Department of Mathematics.

NOTE:—This course does not satisfy the academic requirement for the Mathematics and Physics Specialist Certificate of the Department of Education of Ontario.

Third and Fourth Years

Same as Third and Fourth Years in Mathematics Option, except that Mathematics 351a, 359b and 362b are replaced by Business 250 and Mathematics 355b, and Mathematics 462b is replaced by Mathematics 473b.

PHYSICS OPTION

This course satisfies the academic requirements for the qualifying examination for the Mathematics and Physics Specialist Certificate of the Department of Education of Ontario. See page 14.

10. **Introductory Botany:** for students of the General Course, Group I; the general principles of Botany. **To qualify for the honour courses in Biology a student must obtain 60 per cent. in Botany 10.**

2 lectures and 2 laboratory hours a week: 3 credits.
Prerequisites: complete college entrance requirements.

Text-book: Smith, Overton, etc., *A Text-book of General Botany.*

11aN. **General Botany:** for students in the B. Sc. course for nurses and in the Home Economics course.

2 lectures and 2 laboratory hours a week: 1½ credits.
Prerequisites: complete college entrance requirements.
Text-book: Sinnott, *Principles and Problems of Botany.*

22b. **Plant Physiology:** the relationship between plants and their surroundings, and some of the functions of the organs of plants.

2 lectures and 4 laboratory hours a week: 2 credits.
Prerequisite: Botany 25a.
Text-book: Seifriz, *Physiology of Plants.*

25a. **Plant Biology:** the general principles underlying the study of plant culture and plant breeding.

2 lectures and 4 laboratory hours a week: 2 credits.
Prerequisite: Botany 10 or Botany 11aN (60%), or Biological Science 11 (60%).
Text-book: Sinnott and Dunn, *Principles of Plant Genetics.*

31a. **Plant Diseases and Fungi:** the recognition of poisonous and edible fungi and the identification, cause and control of common plant diseases.

2 lectures and 4 laboratory hours a week: 2 credits.
Prerequisites: Botany 25a and 22b, or Botany 10, or Botany 11aN (60%), or Biological Science 11 (60%).
Text-book: Duggar, *Fungous Diseases of Plants.*

36b. **Elementary Bacteriology:** the common economic organisms in reference to water, food supplies, public health and civic problems. Prescribed for third year students in Home Economics: optional for others.

2 lectures and 3 laboratory hours a week: 1½ credits.
Prerequisites: as in 31a.
Text-book: Buchanan and Buchanan, *Bacteriology.*

43. **Plant Ecology and Taxonomy:** the recognition and classification of the common garden and field plants with special reference to adaptations to their environment.

2 lectures and 4 laboratory hours a week: 4 credits
Prerequisites: Botany 25a and 22b, or Botany 31a and 36b.
Text-book: Gray, *New Manual of Botany.*

Honour Courses

250. **Biology of Seed Plants:** the evolution, external morphology and anatomy of the Spermatophyta; elementary plant physiology.

2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisites: Junior Group 1.
Text-books: Coulter, Barnes and Cowles, *Text-book of Botany.*
Gray, *New Manual of Botany.*

357. **Historical Biology:** see Zoology 357

360a. **Algae:** morphology, classification and evolution.
2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisites: Botany 250.

Text-books: Miller, *Plant Physiology.*
Livingston, *Palladin's Plant Physiology.*
Maximov, *A Text-book of Plant Physiology.*

453. **Ecology and Taxonomy:** the principles of ecology, and the classification of the Spermatophyta.
2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisites: Botany 360a.

Text-books: McDougall, *Plant Ecology.*
Coulter, Barnes and Cowles, *Text-book of Botany, Vol. II.*

454. **Plant Anatomy:** the cytology and anatomy of the Pteridophyta and Spermatophyta.
2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisites: Botany 360a.

Text-books: Strasburger, *Text-book of Botany.*
Jeffery, *Anatomy of Woody Plants.*

461a. **Mycology:** plant diseases and the classification, morphology and structure of fungi.
2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisites: Botany 360a.

Text-books: Stevens, *Plant Disease Fungi.*
Gwynne-Vaughan and Barnes, *The Structural Development of the Fungi.*

466b. **Bacteriology:** the culture, classification and life histories of selected groups of bacteria.
2 lectures and 6 laboratory hours a week, one term: 2½ credits.
Prerequisite: Botany 461a.

Text-books: Tanner, *Bacteriology.*
Jordan, *General Bacteriology.*

474. Plant Cytology: a study of plant cells, including the technique of preparing materials for cytological studies.

2 lectures and 6 laboratory hours a week, one term: 2½ credits.

Prerequisite: Botany 454.

ZOOLOGY

10. **Elementary Zoology:** the principles of Animal Biology, illustrated by typical animal forms. First term, Invertebrate; second term, Vertebrate. **To qualify for the Honour Courses in Biology a student must obtain 60% in Zoology 10.**

2 lectures and 2 laboratory hours a week: 3 credits.

Prerequisite: complete college entrance requirements.

Text-book: Wolcott, *Animal Biology.*

11bN. **General:** for students in the B. Sc. course for nurses and in Home Economics.

2 lectures and 2 laboratory hours a week: 1½ credits.

20. **Functional Anatomy:** a course dealing with vertebrate tissues, organs and systems from the structural, functional and developmental points of view. Protoplasm and the cell and genetics with its relationship to evolution and to society will be emphasized. 20a may be elected for 2 credits, but 20b cannot be taken without 20a.

2 lectures and 4 laboratory hours a week: 4 credits.

Prerequisites: Biol. Sc. 11 (with 60%) or Zool. 10.

21aN. **Mammalian Zoology:** the evolutionary development of structure and function in the Mammals. For students in the B. Sc. course for nurses and in Home Economics.

2 lectures and 4 laboratory hours a week: 2 credits.

Prerequisites: Zoology 10 (or Biological Science 11 with 60%).

Text-books: Adams, *An Introduction to the Vertebrates.*
Bensley, *Anatomy of the Rabbit.*
References: Best and Taylor, *The Human Body and Its Functions.*
Kirkpatrick and Huettner, *Fundamentals of Health.*

36. **Elementary Principles of Genetics:** inheritance. 36a may be taken for 2 credits, but it is a prerequisite for 36b.

2 lectures and 4 laboratory hours a week: 4 credits.

Prerequisite: Zoology 10 or Biol. Sc. 11 (with 60%).

Text-book: Sinnott and Dunn, *Principles of Genetics.*

Honour Courses

250. **Invertebrate Zoology:** to supplement the study of Invertebrate Animals begun in Zoology 10a. Two primary objectives will be kept in mind: the evolutionary as revealed by Comparative Anatomy, and the applied as shown by a consideration of the human relationships of a few outstanding economic forms.

2 lectures and 6 laboratory hours a week, one term: 2½ credits.

Prerequisite: Junior Group 1.

Text-books: Borradaile, Eastham, Potts and Saunders, *The Invertebrata.*
Hegner, *Invertebrate Zoology.*
Chandler, *Introduction to Human Parasitology.*

350a. **Comparative Anatomy:** the anatomy of the Chordates exclusive of the Mammalia, from the functional and evolutionary points of view.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisite: Zoology 250.

Text-books: Kingsley, *Comparative Anatomy of the Vertebrates.*
Adams, *Introduction to the Vertebrates.*
Neal and Rand, *Comparative Anatomy.*
Hyman, *Laboratory Manual, Elemeniary Zoology.*
Hyman, *Laboratory Manual, Comparative Anatomy.*

354b. **Elementary Histology, Embryology and Experimental Biology:** an introduction to the microscopic structure, the functioning and the development of vertebrate tissues and organs as exemplified in the frog.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisites: Zoology 350a.

Text-books: Holmes, *Biology of the Frog.*
Scott and Kendall, *Microscopic Anatomy of Vertebrates.*
Rogers, *Comparative Physiology.*
McEwen, *Text-book of Vertebrate Embryology.*

357. **History and Theory of Biology:** the history, theory and problems of Biology.

2 lectures a week: 2 credits.

Prerequisites: Zoology 250 and Botany 250.

Text-books: Newman, *Readings in Evolution, Genetics and Eugenics.*
Lindsey, *Text-book of Evolution and Genetics.*
Locy, *Biology and Its Makers.*
Locy, *The Growth of Biology.*
Nordenskiold, *A History of Biology.*
Sinnott and Dunn, *Principles of Genetics.*

450b. **Mammalian Zoology:** a continuation of Zoology 350a, extending the concepts at the basis of Comparative Chordate Anatomy into the field of Mammalian Anatomy.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisites: Zoology 350a.

Text-books: Neal and Rand, *Comparative Anatomy.*
Bensley, *Anatomy of the Rabbit.*

451a. **Animal Phylogeny:** the phylogenetic relationships of animals, with particular attention to vertebrate descent.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisites: Zoology 350.

Text-books: Pratt, *Manual of the Common Invertebrate Animals.*
Pratt, *Manual of Vertebrate Animals.*
Newman, *Vertebrate Zoology.*

452a. **Experimental Zoology:** application of general physical and chemical principles to biological phenomena, to elementary cellular physiology, to regeneration, to tropisms, and to metabolic processes as illustrated by selected invertebrate and vertebrate types.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisites: Zoology 354b.

Text-books: Rogers, *Comparative Physiology.*
Barnes, *Text-book of General Physiology.*

454b. **Microscopical Anatomy of Animals:** the structure, development and evolution of animal tissues and organs, including the fundamental principles of embryology, as exemplified in typical invertebrates and vertebrates.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisite: Zoology 354b.

Text-books: Scott and Kendall, *Microscopic Anatomy of Vertebrates.*
Dahlgren and Kepner, *Principles of Animal Histology.*
McEwen, *Text-book of Vertebrate Embryology.*
Richards, *Outline of Comparative Embryology.*
Patten, *The Early Embryology of the Chick.*

456a. **Laboratory Technique:** for Honour Zoology students and other students who may be qualified to take training in laboratory technique: the preparation of materials for study in the Zoological Laboratory, the preparation of specimens for the teaching museum, photography as it pertains to the teaching and practice of Zoology, the preparation of Zoological demonstrations and illustrations.

2 lectures and 6 laboratory hours a week: 2½ credits.

Prerequisites: Third year Honour Biology or the approval of the Dean and of the Head of the Department.

Text-book: Galigher, *Essentials of Practical Microtechnique.*

APPLIED BIOLOGY

23. **Biological Field-Studies:** a course designed to provide an understanding contact with Nature. Field observations and collections from field trips will form the background of the course. Common Ontario trees, shrubs and birds, local fur-bearers, water-life and representative insects and their relatives will be studied from the point of view of life history, economic importance, conservation possibilities and scientific identification.

4 class hours a week: 3 credits.

Prerequisite: Biological Science 11 or its equivalent.

40a. **Arthropoda:** comparative morphology, postembryonic development and economic importance of typical representatives of the main arthropod groups.

2 lectures and 4 laboratory hours a week: 2 credits.
Prerequisite: Zoology 20.

40b. **Hexapoda:** morphology, organ systems and elementary classification of insects; life histories; studies of insects of major economic importance.

2 lectures and 4 laboratory hours a week: 2 credits.
Prerequisite: Zoology 20.

Honour Courses

460a. **General Arthropodology:** the phylogenetic relationships of arthropods deduced from a study of their morphology and organ systems. Life histories and economic features will also receive attention.

2 lectures and 6 laboratory hours a week: 2½ credits.
Prerequisite: Zoology 350a.

460b. **General Entomology:** morphology, function and general classification of insects. Organ systems, biologies and developmental studies will also be made.

2 lectures and 6 laboratory hours a week: 2½ credits.
Prerequisite: Zoology 350a.

463b. **Fresh-Water Biology:** an environmental study of inland waters, and the fitness of forms to their environment; problems of conservation and of aquatic wildlife. The environmental study will be broadened out into the wider concept of general animal ecology.

2 lectures and 6 laboratory hours a week: 2½ credits.
Prerequisites: Botany 360a, Zoology 250.

Text-books: Needham and Lloyd, *The Life in Inland Waters.*
Needham and Needham, *Guide to the Study of Fresh Water Biology.*

Courses Leading to the Degree of M.A.

A selection from the following courses will be offered from time to time to suit the qualifications and objectives of the candidates:

544. **Embryology.**
550 **Comparative Anatomy.**
551. **Phylogeny.**
552. **Experimental Zoology.**
553. **Ecology.**
554. **Histology.**
555. **Genetics.**
556. **Laboratory Technique.**
557. **History and Theories of Biology.**

558. **Seminar.**
559. **Research.**
560a. **Insect Morphology.**
560b. **Insect Taxonomy.**
561a. **Medical Arthropodology.**
561b. **Economic Entomology.**

DEPARTMENT OF BUSINESS ADMINISTRATION

W. A. THOMPSON, M.B.A., Acting Head,	Associate Professor
MALCOLM SLAGHT, M.B.A.,	Assistant Professor
ROSS WILLIS, M.A.,	Assistant Professor
GORDON MCKEE, B.Eng., M.B.A.,	Instructor
C. C. CARROTHERS, B.A., LL.B.,	Lecturer
ROBERT TAYLOR,	Student Assistant

Students taking courses in this department will be charged a laboratory fee of four dollars in each of the second, third and fourth years.

20. **Introduction to Business Organization:** general business organization, promotion of business enterprises, business finance, industrial management, marketing.

3 hours a week: 3 credits.

Text-books: *Canadian Case Material.*
Gilbert and Gragg, *Introduction to Business.*

30. **Accounting and Bookkeeping:** prescribed for Secretarial Science students.

2½ hours a week: 2 credits.

Text-book: Jackson, Sanders and Sproul, *Bookkeeping and Business Knowledge.*

36. **Business Mathematics:** first term; interest, annuities, bonds: second term; use of fractions and decimals in solving problems; billing, pay rolls, trade discounts, duties, customs, commission, bank interest and discount, exchange, rapid calculation.

2 hours a week: 2 credits.

Text-book: Curtis and Cooper, *Mathematics of Accounting.*

Honour Courses

250. **Accounting:** bookkeeping and financial statement procedure, including the development of modern accounting records, special journals, work sheets and working papers and an introduction to partnership and corporation accounting.

2 lectures and 2 laboratory hours a week: 3 credits.

Text-books: Hosmer, *Problems in Accounting.*
Finney, *Introduction to Principles of Accounting.*

255. **Business Statistics:** importance to the business executive; the use and interpretation of business and economic statistics; laboratory work.

2 lectures a week, 2 hours laboratory: 3 credits.

Text-book: *Cases and Problems in Business Statistics.*

306a. **Business Papers:** receipts, releases, promissory notes, chattel notes, lien notes, instalment notes, drafts, bills of exchange, orders, due bills, deposit slips, cheques, bank drafts, draft requisitions, deposit receipts, bank pass books, bills, invoices, credit invoices, accounts, monthly statements, warehouse receipts, bills of lading, freight bills, proxies, powers of attorney, agreements, bonds, debentures, leases, instalment scrips, stock certificates, stock transfers.

3 hours a week: 1½ credits.

350. **Advanced Accounting:** first term; problems of valuation; preparation of accounting statements, principles of analysis, statement of funds, their sources and application; assets, liabilities, capital stock, surplus and reserves: second term; consignments, instalment sales, branch house accounting, mergers, holding companies, consolidated balance sheets and profit and loss statements, receivership accounting, statement of affairs, realization and liquidation, dissolution of partnerships, accounting for estates and trusts.

3 hours a week: 3 credits.

Text-book: Taylor and Miller, *Intermediate Accounting.*

351. **Marketing:** first half-year, methods of marketing consumer goods and wholesale distribution; second half-year, methods of marketing industrial goods. The problem method is used with collateral readings and written reports.

3 hours a week: 3 credits.

Text-book: Learned, *Problems in Marketing.*

353. **Finance Problems:** individual investment policies, administration of investment houses, commercial banks and finance companies; the financial problems of a business and its relations with financial institutions.

3 hours a week: 3 credits.

Text-books: Masson and Stratton, *Problems of Corporation Finances.*
Canadian Business Problems.

354. **Industrial Management:** the economics and organization of production.

3 hours a week: 3 credits.

Text-book: Folts, *Industrial Management.*

356b. **Commercial Law:** principles of contract law from the elements to the remedies for breach; agency, banking and bills of exchange, partnerships, corporations, foreign judgments.

3 hours a week: 1½ credits.

Text-books: Anson, *Contracts.*
Falconbridge, *Banking and Bills of Exchange.*

450. **Cost Accounting:** the collection of cost data for the control of manufacturing operations.

3 hours a week: 3 credits.

Text-book: Sanders, *Problems in Industrial Accounting.*

451. **Sales Management:** the manufacturer's viewpoint; actual cases; outside readings; a term report from each student on a sales problem of a Canadian manufacturer.

3 hours a week: 3 credits.

Text-book: Tosdal, *Problems in Sales Management.*

453. **Financial Management:** the financial administration and policy of business enterprises, financial budgeting: the analysis and management of investments and the formation of investment policies for different types of investors.

3 hours a week: 3 credits.

Text-book: *Current Case Material.*

454. **Manufacturing:** methods of controlling manufacturing operations. Business 450 must be taken concurrently. Factory inspections form part of the course.

3 hours a week: 3 credits.

Text-book: Barnes, *Industrial Engineering.*

458. **Executive Problems:** designed to co-ordinate the courses of the department and to emphasize problems of business policy. At frequent intervals business executives discuss specific problems of their businesses.

3 hours a week: 3 credits.

Text-book: *Current Case Material.*

459. **Research:** the investigation and report of a problem, chosen in consultation with the head of the department and the instructor under whose guidance the investigation is made.

1½ credits.

460. **Auditing:** duties and responsibilities of auditors: kinds of audits and audit programs, audit theory and practice.

3 hours a week: 3 credits.

Text-books: Hanson, *Problems in Auditing.*
Nelson, *Auditing Procedure.*

461. **Retailing:** retail accounting, merchandising problems and policies, pricing, control, advertising, personnel.

3 hours a week: 3 credits.

Text-book: McNair, Gragg and Teele, *Problems in Retailing.*

471. **Advertising:** the place and function of advertising in business; the relation of advertising to the other functions in business management. The course touches only incidentally on the technique of advertising.

3 hours a week: 3 credits.

Text-book: Borden, *Problems in Advertising.*

481b. **International Commercial Relations:** foreign trade, trends and factors (raw materials, manufactured goods, tariffs, invest-

ments); branch factories; exporting; credit financing and exchange; transportation; marine insurance. Taken with Economics 351a.

3 hours a week: 1½ credits.

Text-book: Roorbach, *Problems in Foreign Trade*.

One Year Intensive Course for Graduate Students

The purpose of this course (see page 63) is to emphasize a few fundamental principles in accounting, finance, production and distribution. The courses specified (Business Administration 250, 255, 351, 353, 454) will be supplemented by special lectures.

Courses Leading to the M.A. Degree

The Department of Business Administration offers graduate work in Accounting (550), Distribution (551), Finance (553), Production (554) leading to the degree of M.A. in Business Administration. The hours and credits to be assigned for these courses will be decided by the Department. Students desiring to take this work should consult the Head of the Department at as early a date as possible before the opening of the autumn term.

Students taking work in this department will be required to make a deposit of five dollars per laboratory course at the time of registration to cover breakages. Any remainder will be refunded through the office of the Bursar at the end of the college year.

10. **General Chemistry:** for Junior Group 1; lectures and laboratory work. The laboratory work consists of experiments covering the principles of General Chemistry and Qualitative Analysis. **To qualify for Honour Courses in Chemistry a student must obtain 60 per cent. in Chemistry 10.**

2 lectures, 2 laboratory hours a week: 3 credits.

Text-books: Deming, *General Chemistry* (Wiley).
Belcher and Williams, *Qualitative Analysis* (Houghton, Mifflin).
Dunbar, *General Chemistry* (Longmans).

11N. **General:** for students in the course for nurses and in home economics.

2 lectures, 2 laboratory hours a week: 3 credits.

Text-book: MacLeod and Nason, *Chemistry and Cookery* (McGraw-Hill).

22. **Qualitative and Quantitative Analysis:** a laboratory course.

1 lecture, 5 laboratory hours a week: 3 credits.

Prerequisite: Chemistry 10.

Text-book: G. McP. Smith, *Quantitative Analysis* (Macmillan).

22aN. **Analytical:** for second year students in the course for nurses and in home economics.

2 lectures, 3 laboratory hours a week: 1½ credits.

Prerequisite: Chemistry 11N.

Text-book: Burns and Stewart, *Quantitative Analysis for Medical Students.*

23b. **Chemistry of the Home:** organic chemistry; detergents, textiles, fuels; for second year students in home economics.

2 lectures, 3 laboratory hours a week: 1½ credits.

Prerequisite: Chemistry 11N, 22aN.

33. **Organic Chemistry:** lectures dealing with the aliphatic and aromatic hydrocarbons and their derivatives; the carbohydrates, proteins and alkaloids. The laboratory work parallels the lectures and consists of the preparation and identification of some of the more common carbon compounds.

2 lectures, 3 laboratory hours a week: 3½ credits.

Prerequisite: Chemistry 10.

Text-books: Burns, *Laboratory Manual in Organic Chemistry.*
Conant, *Organic Chemistry* (Macmillan).
Degering, *Manual of Organic Chemistry* (American).

36a. **Biochemistry and Food Analysis:** for third year students in home economics.

2 lectures and 3 laboratory hours a week: 1½ credits.

44. **Physical Chemistry:** a descriptive and non-mathematical treatment of the principles which govern reactions in chemical systems.

2 lectures, 3 laboratory hours a week: 3½ credits.

Prerequisites: Chemistry 10, 22, 33.

Honour Courses

The Honour student will be expected to write a comprehensive examination at the end of his fourth year. With seminar work, 458, it will be valued at 3 credits.

200. Second Course in Chemistry: for Honour Science students. Chemical principles from a quantitative viewpoint.

2 lectures, 4 laboratory hours a week: 4 credits.

Text-books: Chapin, *Exercises in Second Year Chemistry* (Wiley).
Meldrum and Gucker, *Introduction to Theoretical Chemistry* (American).

250. Second Course in Chemistry: for Honour Chemistry students. Chemical principles from a quantitative viewpoint; micro-qualitative analysis.

2 lectures, 11 laboratory hours a week, first term:

2 lectures, 4 laboratory hours a week, second term: 6 credits.

Text-books: Chapin, *Exercises in Second Year Chemistry* (Wiley).
Meldrum and Gucker, *Introduction to Theoretical Chemistry* (American).

252b. Quantitative Analysis.

1 lecture, 7 laboratory hours a week: 2½ credits.

Text-books: Hall, *Quantitative Analysis* (Wiley).
Kolthoff and Sandell, *Text-book of Quantitative Inorganic Analysis* (Macmillan).

257a. History and Literature of Chemistry.

1 lecture a week: ½ credit.

Text-book: Partington, *Short History of Chemistry* (Macmillan).

303. Organic Chemistry: lectures and laboratory exercises dealing with carbon compounds. Prescribed for third year Honour Biology, B.A., M.D., and Honour Chemistry students.

2 lectures, 1 recitation, 3 laboratory hours a week: 4 credits.

Prerequisite: Chemistry 10, 200 or 250.

Text-books: Schmidt, *A Text-book of Organic Chemistry* (Gurney and Jackson).
Conant, *Organic Chemistry* (Macmillan).
Lucas, *Organic Chemistry* (American).
Morton, *Organic Chemistry Technique* (McGraw-Hill).
Degering, *Manual of Organic Chemistry* (American).

354. Elementary Physical Chemistry: a systematic derivation of the principles which govern reactions in chemical systems; for third year Honour Chemistry students.

2 lectures, 6 laboratory hours a week: 5 credits.

Prerequisite: Chemistry 250.

Text-books: Maass and Steacie, *Physical Chemistry* (Wiley) or
Getman and Daniels, *Principles of Theoretical Chemistry* (Wiley).
Partington and Tweedie, *Calculations in Physical Chemistry* (Blackie).

444. Physical Chemistry: a descriptive and non-mathematical treatment of the principles which govern reactions in chemical systems, with discussion of their application to the other branches of science and to the industries.

2 lectures, 3 laboratory hours a week: 3½ credits.

Prerequisites: Chemistry 200 or 250.

451a. Electrochemistry:

2 lectures, 4 laboratory hours a week: 2 credits.

Prerequisite: Chemistry 354 or 444.

Text-book: Creighton and Fink, *Electrochemistry* (Wiley).

452a. Advanced Analytical Chemistry: qualitative and quantitative analysis by micro and macro methods.

1 lecture, 7 laboratory hours a week: 2 credits.

Text-books: Emich and Schneider, *Micro-chemical Laboratory Manual* (Wiley).
Pregl, *Micro Organic Analysis.*
Chamot and Mason, *Handbook of Chemical Microscopy* (Wiley).
Benedetti-Pichler, Spikes, *Microtechnique of Inorganic Qualitative Analysis.*
Scott, *Standard Methods of Analysis* (Van Nostrand).
Griffin, *Technical Methods of Analysis* (McGraw-Hill).

453. Advanced Organic Chemistry.

2 lectures, 3 laboratory hours a week: 3½ credits.

Prerequisite: Chemistry 303.

Text-books: Thorpe and Whitely, *Organic Chemical Analysis* (Longmans, Green).
Schmidt, *Organic Chemistry.*
Whitmore, *Organic Chemistry* (Van Nostrand).

454. **Physical Chemistry:** Thermodynamics and Kinetic Theory of Matter.

2 lectures, 4 laboratory hours a week: 4 credits.

Prerequisite: Chemistry 354 or 444.

Text-books: Sivertz, *Outline of Thermodynamics.*
Getman and Daniels, *Outline of Theoretical Chemistry.*
MacDougall, *Physical Chemistry* (Macmillan).

455b. Colloid Chemistry.

2 lectures, 4 laboratory hours a week: 2 credits.

Prerequisite: Chemistry 200 or 250.

Text-books: Kruyt, *Colloids* (Wiley).
Holmes, *Laboratory Manual of Colloid Chemistry* (Wiley).

456b. **Biochemistry:** a survey.

2 lectures, 3 laboratory hours a week: 1½ credits.

Prerequisite: Chemistry 303.

Text-book: Bodansky, *Introduction to Physiological Chemistry* (Wiley).

458. **Seminar:** presentation of papers on topics selected from the current chemical journals, dealing with the more recent and fundamental developments of the science; prescribed for fourth year Honour Chemistry students and desirable for all students majoring in Chemistry. Comprehensive examination. 3 credits.

459. **Research:** special topics and laboratory methods in the field of the student's individual interest. The second term will be devoted to a research problem upon which a report will be required as a senior thesis.

9 hours a week: 3 credits.

Courses Leading to M.A.

550, 552, 553 or 554. Advanced work in Inorganic, Analytical, Organic or Physical Chemistry. Each 2 credits.

558. **Seminar and Comprehensive Examination:** 3 credits.

559. **Research:** to be arranged: 3 credits.

25. **History of England to 1713:** economic and social developments will be stressed; lectures, prescribed reading and essays. First term covers to 1485.

2 hours a week: 2 credits.

Text-book: Trevelyan, *History of England* (Longmans).

30a. **Medieval History:** lectures, prescribed reading and essays.

3 hours a week: 1½ credits.

Text-book: Stephenson, *Medieval History* (Harper).

30b. **The Renaissance and the Reformation:** lectures, prescribed reading and essays.

3 hours a week: 1½ credits.

Text-book: Lucas, *The Renaissance and the Reformation* (Harper).

31. **History of Canada:** lectures, prescribed reading and essays. A survey of the History of Canada from the beginning of the French Régime to the present time.

2 hours a week: 2 credits.

Text-book: Wittke, *History of Canada* (Longmans).

40a. **Modern History (1555-1830):** lectures, prescribed reading and essays. The period from 1555 to 1648 will be covered only to outline the proper background for the Treaties of Westphalia, which provides the setting for modern European History. The French Revolution and the era of Napoleon will be studied as a part of the revolution-

*On leave, C.A.S.F.

ary developments of the modern world which made the eighteenth century a sort of half-way house between mediaeval times and the present.

3 hours a week: 1½ credits.

Text-books: Hayes, *A Political and Cultural History of Modern Europe, 1500-1830, Vol. I* (Macmillan).
Robinson and Beard, *Readings in Modern European History, Vol. I* (Ginn).
Shepherd, *Atlas of Medieval and Modern History* (Holt).

40b. **Modern History (1830-1930):** lectures, prescribed reading and essays. The growth of nationalism and democracy in Europe; political and social reform; scientific, social and economic movements; the colonial and commercial expansion of the European nations as the background of the World War; the peace settlements; international conditions after the World War.

3 hours a week: 1½ credits.

Text-books: Schapiro, *Modern and Contemporary European History* (Houghton, Mifflin) or
Hayes, *A Political and Cultural History of Modern Europe, 1830-1936, Vol. II.*
Robinson and Beard, *Readings in Modern European History, Vol. II* (Ginn).
Shepherd, *Atlas of Medieval and Modern History* (Holt).

43a. **The Development of Self-Government in the British Empire-Commonwealth:** lectures, prescribed reading and reports. The lectures will be grouped under the following heads: the breakdown of the old Colonial System and Policy; British Colonial Policy at the beginning of the Nineteenth Century; the Colonial Reformers and the application of their ideas to Canada and to Australasia; the evolution of self-government in Canada, Australasia, South Africa and India; the growth of colonial nationalism and autonomy, culminating in the achievement of Dominion status; the constitution of the Dominion of Canada, of the Australian Commonwealth, of the Union of South Africa, of the Irish Free State and of India.

3 hours a week: 1½ credits.

Text-books: Robinson, *Development of the British Empire.*
Egerton, *Federations and Unions in the British Empire.*
Egerton, *Short History of British Colonial Policy.*
Egerton, *British Colonial Policy in the 20th Century.*
Scott, *Short History of Australia.*
Fairbridge, *History of South Africa.*
Currey, *British Colonial Policy.*

44. **History of the United States:** the colonial period, the revolution, making of the constitution, westward development, the slavery struggle, the Civil War, reconstruction and later political history to the present day; the character of federal and state governments. The period to the Civil War will be covered in the first term and the period since the Civil War in the second term.

Lectures, prescribed reading and essays.

2 hours a week: 2 credits.

Text-book: Muzzey and Kraut, *American History for Colleges.*

45a. **Mediaeval, Renaissance and Reformation History, and The Wars of Religion:** a rapid survey of Continental Europe from 295-1648; lectures, essays and prescribed reading.

3 hours a week: 1½ credits.

Text-book: Ferguson and Brunn, *A Survey of European Civilization* (Houghton, Mifflin).

46b. **Modern History:** a rapid survey course of Continental Europe from the Wars of Religion to the Peace Settlement following the World War (1648-1925).

3 hours a week: 1½ credits.

Text-book: See History 45a.

Honour Courses

230a. **Mediaeval History:** lectures, prescribed reading and essays.

3 lectures, 1 seminar and conference hour a week: 1½ credits.

Prerequisite: Junior Group 3, see page 56.

Text-book: Stephenson, *Medieval History* (Harper).

230b. **The Renaissance and the Reformation:** lectures, prescribed reading and essays.

3 lectures, 1 seminar and conference hour a week: 1½ credits.

Prerequisite: Junior Group 3, see page 56.

Text-books: Hulme, *The Renaissance and the Reformation* (Century).
Lucas, *The Renaissance and the Reformation* (Harper).

257. **Ancient Civilizations:** the Near East, Greece and Rome.

3 lectures, 1 conference hour a week: 3 credits.

Text-book: Breasted, *Ancient Times* (Ginn).

340a. **Modern History (1555-1830):** for details, see History 40a. Honour students will be required to do special reading and reports in this course.

3 lectures, 1 seminar and conference hour a week: 1½ credits.

Prerequisites: History 230a, 230b.

Text-books: Hayes, *A Political and Cultural History of Modern Europe, 1500-1830, Vol. I* (Macmillan).
Robinson and Beard, *Readings in Modern European History, Vol. I* (Ginn).

340b. **Modern History (1830-1930):** for details of course see History 40b. Honour students will be required to do special reading and reports in this course.

3 lectures, 1 seminar and conference hour a week: 1½ credits.

Prerequisite: History 230a, 230b.

Text-books: Hayes, *A Political and Cultural History of Modern Europe, 1830-1935, Vol. II.*
Robinson and Beard, *Readings in Modern European History, Vol. II.*

344. **History of the United States:** see History 44; prescribed for students of the third year in the Honour Course in History; lectures, prescribed reading and essays.

2 lectures, 1 seminar and conference hour a week: 2 credits.

351. **History of Canada:** a survey of the History of Canada from the beginning of the French Régime to the present time; lectures, prescribed reading and essays.

Students in this course will be expected to do wide reading in *The Cambridge History of the British Empire, Vol. VI; The Chronicles of Canada; The Makers of Canada; Canada and its Provinces;* works on economic history, and standard biographies.

3 hours a week, lectures and seminars: 2 credits.

443a. **The Development of Self-Government in the British Empire-Commonwealth:** for details, see History 43a. Honour students will be required to do special reading and reports in this course.

3 lectures, 1 seminar and conference hour a week: 1½ credits.

452. **English Constitutional History to the end of the Seventeenth Century:** lectures, prescribed reading and essays or reports. The following are the more important topics to be dealt with: Anglo-Saxon and Norman institutions; the feudal background; Crown, Central Government, and Church, after 1066; development of the Common Law; origin and growth of Parliament, and its relation to the Crown; economic and social background of constitutional development.

2 lectures, 1 seminar and conference hour a week: 2 credits.

Text-book: Stephenson and Marcham, *Sources of English Constitutional History* (Harper).

453b. **Colonial and British Imperial History:** the Old Colonial System of Spain, Portugal, France, Holland and the First British Empire and some of its problems; the dependent British Empire of today, colonial possessions, crown colonies and mandates; modern Colonial Empires, development, policy and problems of administration.

3 lectures and 1 seminar hour a week: 1½ credits.

Text-book: Lucas, *The Historical Geography of the British Empire* (Oxford).

455 **British Political Parties:** readings, lectures and weekly seminars. Fourth year honour intramural students only are admitted to this course. Lectures and discussions will be grouped around the following topics: the rise of the Tory and Whig Parties; the Revolution of 1688; the Tory Reaction in the reign of Anne; the "Reign of the Whigs"; the experiment in personal government of George III; the disruption of the old Whig Party; the new Tory Party under Pitt; the growth of Parliamentary Reform and Free Trade; Peel and Liberal Conservatism; Disraeli and Democratic Toryism; Gladstone and Modern Liberalism; the Irish Parliamentary Party; the Unionist Party; the Labour-Socialist Party.

3 hours a week: 3 credits.

Text-books: Traill, *Shaftesbury.*
Morley, *Walpole.*
Williams, *Life of William Pitt, Earl of Chatham.*
Newman, *Edmund Burke.*
Drinkwater, *Charles James Fox.*
Rosebery, *Pitt.*
Thursfield, *Peel.*
Morley, *Cobden.*
Froude, *Beaconsfield.*
Morley, *Life of Gladstone.*

Courses Leading to the Degree of M.A.

The hours and credits to be assigned will be decided by the department. Students desiring to take these courses must notify the department of their intention not later than the June preceding the Fall Term in which the work will be begun.

553. **Colonial America and the Development of Independent Nations in the Americas:** a reading and seminar course for advanced students who have the necessary prerequisite courses, or for graduate students. Some of the following topics will be studied: the discovery of the Americas; the beginnings of Spanish,

Portuguese, Dutch and British Colonies in the New World; Colonial America; the American Revolution; the founding of the Hispanic-American Nations; Tropical and Carribean Spanish America; the international relations of Hispanic-America.

554. **American History:** a seminar course in selected problems in Canadian and United States history for advanced students who have the necessary prerequisite courses, or for graduate students.

DEPARTMENT OF HOME ECONOMICS

Ursuline College

LORNA M. S. DAVIS, M.A., Professor
ELIZABETH INKSATER, B.A., Instructor

Alma College

MARION KERR, B.Sc., Instructor
NORA A. BRADLEY, B.A., Instructor

25bx. **Household Administration:** a study of the general principles of home construction, including discussions of such subjects as choice of sites, exterior and interior house designs, materials, cost of dwelling, etc. Systematic housekeeping, budgets, cost, efficiency and care of household equipment. Practical problems and scrapbook required.

2 hours a week: 1 credit.

26ax. **Physiology:** a lecture course dealing in an elementary way with the cells, tissues, organs and systems that make up the human organism; digestion and assimilation of food in the body; nutritional requirements of man in health and disease. Practical problems, papers, etc.

2 hours a week: 1 credit.

30x. **Clothing:** a brief outline of the history of textiles from their earliest known use. A study of each of the fibres used in the manufacture of our present-day fabrics, to include their structure, properties, spinning, weaving, and finishing processes. Examination of the various weaves and their wearing qualities. Adulteration of fabrics with tests for adulteration.

The practical work consists of the drafting of simple patterns, and the use of commercial patterns. Each student is required to make a book of sample seams, seam finishes, hems, facings, etc.; a slip, a white cotton uniform, wool skirt; a simple Christmas gift. Essays required and also one article of clothing without assistance.

1 lecture and 3 laboratory hours a week: 2½ credits.

32x. **Foods and Nutrition:** a study of the composition, manufacture, food value, and economic selection of various food materials. The general processes of cooking and the scientific principles underlying them. Food service, menu planning, attractive methods of preparation and arrangement of food. Essays and practical problems required.

1 lecture and 3 laboratory hours a week: 2½ credits.

40x. **Clothing:** principles and processes of household methods of laundering and of stain removal; practical guides to the intelligent choice and care of textiles for personal and home use; hygiene of clothing, clothing selection and clothing budgets; a brief outline of the history of costume.

The practical work consists of a wool dress; an evening dress; a spring coat or suit; a knitted or crocheted article. Essays required and also one article of clothing without assistance.

1 lecture and 3 laboratory hours a week: 2½ credits.

42x. **Foods and Nutrition:** a study of food materials continued. Food preservation, advanced cookery, preparation and serving of meals for special occasions, student demonstrations. Attention is given to the application of nutrition principles to the feeding of individuals and groups of various ages and conditions of health. Essays and problems required.

1 lecture and 3 laboratory hours a week: 2½ credits.

43ax. **Interior Decoration:** design and its application to the interior of the house. Colour theory and its application to ceiling, walls, floor, etc. Proportion, harmony, rhythm and balance as applied to pieces of furniture or assembled furniture. Part of this course is devoted to a study of period furniture. Scrap book and practical problems required.

2 hours a week: 1 credit.

44bx. **Home Nursing:** instruction is given in the location, ventilation, furnishing, temperature and care of the sick room, and simple home care of the sick with underlying reasons for necessary technique. Emergencies, first aid and simple bandaging.

Emphasis is placed on the laws of hygiene and the *importance* of bodily health. Essays and practical problems required.

2 hours a week: 1 credit.

DEPARTMENT OF LAW

C. C. CARROTHERS, B.A., LL.B., Lecturer

500. **Domestic Relations:** Eversley, substituting the Canadian Statutes for the English Statutes in the text-book. The parts to be read are: Parts I, II, and IV, to page 811; Part V, 875-9 inclusive, 884-94 inclusive and 919-34 inclusive.

Text-books: Eversley, *Domestic Relations, 1937.*
C. E. D. (Ontario) Vol. 5, pp. 588-693, and pp. 755-830, and supplements.

Statutes:
Infants' Act, R. S. O. 1937, c. 215.
Children's Maintenance Act. 1937, c. 213.
Children of Unmarried Parents Act, R. S. O. 1937, c. 217.
Children's Protection Act, R. S. O. 1937, c. 312.
Legitimation Act, R. S. O. 1937, c. 216.
Dependents' Relief Act, 1937, R. S. O., c. 214.
Marriage Act, R. S. O. 1937, c. 207.
Married Women's Property Act, R. S. O. 1937, c. 209.
Deserted Wives and Children's Maintenance Act, R.S.O., 1937, c. 211.
Matrimonial Causes Act, 1937, c. 208, including amendments thereto.

501. Corporations: the following of the text named below: Part I, ch. 1 to 4, inclusive; Part II, ch. 1 to 5, inclusive; Part III, ch. 2 to 3, page 198, ch. 4 to 13, inclusive; Part IV, ch. 1 and 2, sections 3 and 4; Part V, ch. 1 to 6, inclusive; Part VI, ch. 1 to 6, inclusive.

Text-book: Masten and Fraser, *Company Law of Canada.*
In addition to the statutes dealt with in the Text, the following should be read:
The Companies Information Act, 1937, c. 253.
The Securities Act, 1937, c. 265.

502. Medical Jurisprudence: the following portions will be read from the text named below: Volume I, sections 1, 2, 4, 5, 6, 10, 11, 13; Volume II, sections 1-13 inclusive, 15.

Text-book: Taylor, *Medical Jurisprudence* (edited Smith, 7th edition, 1920).

503. Theory of Obligation: Institutes of Justinian.
Book I: Titles 1, 2, 3.
Book III: Titles 13-29 inclusive.
Book IV: Title 1.

10a. **Introductory Mathematics:** a survey of the elements of algebra, geometry and trigonometry and their relations to the sciences, to the arts, to philosophy and to knowledge in general.

3 hours a week: 1½ credits.

Prerequisite: Middle School Mathematics.

12b. **Analytic Geometry:** the point, straight line, circle, parabola, ellipse, with an introduction to the hyperbola; application to curve of flight and to reflectors.

3 hours a week: 1½ credits.

Prerequisite: Middle School Mathematics.

Text-book: Durrant and Kingston, *A New Analytic Geometry* (Macmillan).

18a. **Plane Trigonometry:** the following sections in the text: 1-162, 169-173, 195-199, 207-212.

2 hours a week: 1 credit.

Prerequisite: Middle School Mathematics.

Text-book: Hall and Knight, *Elementary Trigonometry* (New Canadian Edition) (Macmillan).

20b. **Algebra:** mathematical induction, determinants of second and third orders and their application to the solution of systems of equations; methods of solving numerical equations; introduction to probability and statistics.

2 hours a week: 1 credit.

Prerequisite: Mathematics 10a, or Upper School Algebra.

Text-books: *Mimeographed Notes.*
Richardson, *An Introduction to Statistical Analysis* (Harcourt, Brace).

*On leave, R.C.A.F.

22a. **Analytic Geometry:** the Cartesian co-ordinate system, graphs, the straight line, circle, parabola, ellipse and introduction to hyperbola.

2 hours a week: 1 credit.

Prerequisite: Mathematics 10a and 12b or Upper School Algebra and Geometry.

Text-book: Lennes and Merrill, *Plane Analytic Geometry* (Harper).

24. **Calculus:** elements and practical applications.

2 hours a week: 2 credits.

Prerequisite: Mathematics 10a and 12b or Upper School Algebra and Geometry.

Text-book: Granville, Smith and Longley, *Elements of the Differential and Integral Calculus* (Ginn).

28b. **Spherical Trigonometry:** duality of theorems relating to spherical triangles, cosine, polar cosine, sine, cotangent, half-angle and half-side formulae; Delambre's and Napier's proportions; formulae for spherical excess; derivation of formulae for plane triangles from those of spherical triangles; Napier's rules of circular parts; solution of spherical triangles; applications to problems in navigation.

2 hours a week, half term: ½ credit.

Prerequisite: Mathematics 18a, or Upper School Algebra and Trigonometry.

Text-book: *Mimeographed Notes on Spherical Trigonometry.*

29. **Descriptive Astronomy:** a survey course: the constellations; systems of co-ordinates; shape, size and motions of the earth; the moon; eclipses; time; the solar system; the planets; comets and meteors; the sun; evolution of solar system; the stellar universe. Evening observations. The lectures will be illustrated with lantern slides and models. This course is not mathematical. Given in alternate years; offered in 1940-41.

It is expected that the new Hume Cronyn Memorial Observatory will be ready for use by the opening of the 1940-41 session.

2 hours a week: 2 credits.

Text-books: To be announced.
Kingston, *An Easy Pocket Star-Guide for Beginners.*

Honour Courses

250. **Algebra:** undetermined coefficients, partial fractions, recurring series, continued fractions, indeterminate equations of first degree, determinants and matrices, elementary theory of numbers, theory of equations.

2 hours a week: 2 credits.

Prerequisite: Mathematics of Junior Group 1, (page 55).

Text-books: Hall and Knight, *Higher Algebra* (Macmillan).
Lovitt, *Elementary Theory of Equations* (Prentice-Hall).

252a. **Analytic Geometry:** a continuation of Mathematics 22a, along with an introduction to plane analytic projective geometry.

3 hours a week: 1½ credits.

Prerequisite: Mathematics of Junior Group 1 (page 55).

Text-book: Magee, *A First Course in Plane Analytic Projective Geometry.*

254. **Differential Calculus.** First term: successive differentiation; maxima and minima of f(x); points of inflection; curve tracing; differentials; rates; change of dependent and independent variables; curvature; envelopes; evolutes; involutes; Mean Value Theorem; indeterminate forms; partial differentiation; convergency of series; Taylor's and Maclaurin's Series applied to expansion of functions; asymptotes; singular points. Second term: integration as inverse of differentiation and as the limit of summation; methods of integration; reduction formulae; applications.

3 hours a week: 3 credits.

Prerequisite: Mathematics of Junior Group 1 (page 55).

Text-book: Granville, Smith and Longley, *Elements of the Differential and Integral Calculus* (Ginn).

261b. **Synthetic Solid Geometry.**

2 hours a week: 1 credit.

Prerequisites: Mathematics of Junior Group 1 (page 55.)

262b. **Analytic Solid Geometry.**

3 hours a week: 1½ credits.

Prerequisite: Mathematics of Junior Group 1 (page 55).

351a. **Synthetic Plane Geometry:** geometry of the triangle and circle, forming a natural sequel to the classical plane geometry of the secondary schools. The course consists of a study of homothetic polygons and circles; similar figures in general; circle of similitude; coaxal systems of circles; circular inversion; Ptolemy's theorem; triangle and quadrangle theorems; Casey's power theorem; circles of antisimilitude; poles and polars; the polar circle; the Miquel theorem; pedal triangles and circles; the Simson line; theorems of Ceva and Menelaus, with applications; the nine-point circle; triangles in perspective.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-book: Johnson, *Modern Geometry* (Houghton, Mifflin).
Reference: Altshiller-Court, *College Geometry* (Johnson).

353a. **The Mathematics of Finance.**

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-book: Rietz, Crathorne and Rietz, *Mathematics of Finance* (Holt).
Reference: Todhunter (revised by Simmonds and Thompson), *Text-book on Compound Interest and Annuities-Certain* (Cambridge).

354. **Differential Equations.** First term: differential equations of first order; singular solutions; applications; linear equations with constant coefficients. Second term: linear equations with variable coef-

ficients; exact differential equations; integration in series; equations of second order; equations with more than two variables; partial differential equations.

2 hours a week: 2 credits.

Prerequisites: Mathematics 250-262b.

Text-book: Murray, *Differential Equations* (Longmans).

355a. Probability and Statistics.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-books: Hall and Knight, *Higher Algebra* (Macmillan).
Freeman, *Mathematics for Actuarial Students, Vol. II* (Cambridge).
Richardson, *An Introduction to Statistical Analysis* (Harcourt, Brace).

355b. **Advanced Statistics:** an extension of Mathematics 355a with special attention to methods of graduation (for actuarial option).

2 hours a week: 1 credit.

358b. **Mathematics of Air Navigation:** spherical trigonometry; astronomical navigation; map and chart projection; dead reckoning navigation.

2 hours a week: 1 credit.

Text-books: Bennett, *The Complete Air Navigator* (Pitman).
British Air Almanac (His Majesty's Stationery Office).
References: Weems, *Air Navigation* (McGraw-Hill).

359. **Descriptive Astronomy:** topics of Mathematics 29, treated in detail. Given in alternate years: offered in 1941-42.

2 hours a week: 2 credits.

Text-book: To be determined.

362b. **Metric Differential Geometry of Curves and Surfaces:** the fundamentals of differential geometry of curves in three-dimensional space, making use of the algebra of vectors; curves and surfaces associated with a space curve; an introduction to differential geometry of general surfaces.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

References: Graustein, *Differential Geometry* (Macmillan).
Eisenhart, *Differential Geometry* (Ginn).

450b. **Higher Algebra:** linear forms, matrices, linear transformations; bilinear forms; unified treatment of Hermitian and quadratic forms; theorems on rank of a symmetric or Hermitian matrix.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-book: Dickson, *Modern Algebraic Theories* (Sanborn).

452a. **Analytic Projective Geometry:** a continuation of Mathematics 252a.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-book: *Mimeographed Notes.*
Reference: Graustein, *Introduction to Higher Geometry* (Macmillan).

453a. **Finite Differences:** fundamental difference forms; factorial expansions; interpolation formulae; divided differences; central differences; statistical applications; mechanical quadratures; integration; Euler-Maclaurin's, Woolhouse's and Lubbock's Formulae.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-book: Freeman, *Mathematics for Actuarial Students, Vol. II* (Cambridge).

454a. **Advanced Calculus:** selected topics.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Williamson, *Differential Calculus* (Appleton).

463a. **The Mathematics of Life Insurance:** the mortality table; probabilities of life; annuities; expectations of life; the law of mortality; life insurance premiums; policy reserves.

2 hours a week: 1 credit.

Prerequisites: Mathematics 250-262b.

Text-books: Rietz, Crathorne and Rietz, *Mathematics of Finance* (Holt).
Spurgeon, *Life Contingencies* (Macmillan).

466b. **Theory of Functions of a Complex Variable.**

3 hours a week: 1½ credits.

Prerequisites: Mathematics 250-262b.

Reference: Townsend, *Functions of a Complex Variable* (Holt).

473b. **Actuarial Science:** an extension of Mathematics 463a; for actuarial option.

2 hours a week: 1 credit.

Prerequisite: Mathematics 463a.

Text-book: Spurgeon, *Life Contingencies* (Macmillan).

Courses Leading to the Degree of M.A.

A selection from the following courses will be offered from time to time to suit the qualifications of candidates:

550. **Theory of Numbers.**
551. **Synthetic Projective Geometry.**
553. **Advanced Actuarial Science.**
554. **Elliptic Integrals.**
559. **Celestial Mechanics.**

Alma College

BEATRICE SHARP, B.A.,	Instructor

All students taking laboratory work in Physics must make a deposit of five dollars to the Bursar to cover breakage. Any surplus will be refunded at the end of the college year.

10. **Mechanics and Heat:** a survey prescribed for students intending to major in some branch of science: demonstrations and laboratory exercises covering the following principal topics: systems of measurement; laws of uniformly accelerated motion; elementary analytic statics; rotational motion; simple harmonic motion; hydrostatics and hydrodynamics; surface tension; viscosity; osmosis; thermometry; temperature and its effects; gas laws; calorimetry; change of state; vapor pressure; hygrometry; elementary kinetic theory; first and second laws of thermodynamics, reversible cycles.

2 lectures, 2 laboratory hours a week: 3 credits.

Text-book: Anderson, *Mechanics and Heat.*
References: Duncan and Starling, *Dynamics.*
Duncan and Starling, *Heat.*

11. **Physical Science:** lectures, demonstrations, laboratory exercises and tutorial groups, designed (1) to present an historical review of the development of the physical sciences, with emphasis on principles rather than facts; (2) to develop some of the practical applications of physical science in the modern world; (3) to outline the present trends

in science and to explain the point of view of science toward some of the problems of human existence. Optional in Junior Groups 2, 3, 4 and in the Senior Group.

4 class hours a week, allotted at the discretion of the staff: 3 credits.

Text-book: Richards, *The Universe Surveyed.*

21. **Advanced Survey Course:** supplementary to Physical Science 11.

2 lectures, 3 laboratory hours a week: 3½ credits.

Honour Courses

204b. **Sound and Light:** elementary geometrical optics; vibratory motion and wave motion; a very brief introduction to spectroscopy; radiation; interference; diffraction; polarization; the characteristics of musical sounds; methods of sound analysis. Prescribed for students in Biology, Geology, B.A., M.D. courses.

2 lectures, 3 laboratory hours a week: 1½ credits.

Text-books: Saunders, *A Survey of Physics.*
Valasek, *Light.*

205a. **Electricity and Magnetism:** an elementary treatment of the phenomena of electricity and magnetism and electron physics. Prescribed for students in Biology, Geology, B.A.,M.D. courses.

2 lectures, 3 laboratory hours a week: 1½ credits.

Text-book: Saunders, *A Survey of Physics.*

250. **Elements of Mechanics:** a mathematical treatment of the principles of statics and dynamics with numerous applications of physical principles.

2 lectures a week: 2 credits.

Text-book: Campbell, *An Introduction to Mechanics.*

251. **Physical Measurements:** lectures on laboratory methods and practical work with emphasis on precision. Training is given in contracted methods of calculation, and in graphical solution of problems, also in some of the simpler laboratory arts, such as glass-blowing.

3 laboratory hours a week: 1 credit.

Text-book: Goodwin, *Precision of Measurements.*

254. **Sound and Light:** elementary geometrical optics; vibratory motion; spectroscopy; interference; diffraction; polarization; the velocity of light; the propagation of sound; the characteristics of musical sounds; methods of sound analysis; the basis of architectural acoustics. Prescribed for students in Mathematics and Physics, Chemistry and Physics, Chemistry courses.

1½ lecture hours, 3 laboratory hours a week: 2½ credits.

Text-books: Robertson, *Introduction to Physical Optics.*
Valasek, *Light.*

255. **Electricity and Magnetism:** lectures on the principles of electricity and magnetism, including an introduction to electrical measurements. Prescribed for students in Mathematics and Physics, Chemistry and Physics and Chemistry courses.

1½ lecture hours, 3 laboratory hours a week: 2½ credits.

Text-book: Hutchinson, *Intermediate Text-book of Electricity and Magnetism.*

350. **Vector Mechanics:** an introduction to vectors and their applications to the dynamics of a particle.

3 lectures a week: 3 credits.

Text-book: Loney, *Dynamics of a Particle.*
Reference: Edwards, *Analytic and Vector Mechanics.*

352. **Properties of Matter and Heat:** a mathematical treatment of periodic motion, gravitation, elasticity, surface tension, osmosis, changes of state, laws of gases.

2 lectures, 3 laboratory hours a week: 3 credits.

Text-book: Newman and Searle, *The General Properties of Matter.*

354. **Geometrical and Physical Optics:** an advanced treatment of theoretical and applied optics.

2 lectures, 6 laboratory hours a week: 5 credits.

Text-books: Hardy and Perrin, *Principles of Optics.*
Jenkins and White, *Fundamentals of Physical Optics.*

355a. **Electrostatics and Magnetism:** a mathematical treatment of the phenomena of static electricity and magnetism.

2 lectures a week: 1 credit.

Text-book: Page and Adams, *Principles of Electricity.*

357b. **Alternating Current Electricity:** the elements of circuit analysis applied to A. C. networks. Offered under special circumstances as an option with 352b.

2 lectures, 6 laboratory hours a week: 2½ credits.

360. **Vector Mechanics:** similar to Physics 350, but with the addition of laboratory work in the first term.

3 lectures a week throughout the year, 3 laboratory hours a week in the first term: 3½ credits.

Reference: Starling, *Mechanical Properties of Matter.*

364. **Geometrical and Physical Optics:** similar to Physics 354, but with less laboratory work.

2 lectures, 3 laboratory hours a week: 4 credits.

451b. **Fourier Series:** an introduction to Fourier's analysis of wave-motion, with applications to the theory of heat conduction, and to the vibrations of plucked strings.

2 lectures a week: 1 credit.

453. **Thermodynamics:** a treatment of the laws of thermodynamics, heat engines, reversible cycles, radiation, energy distribution.

2 lectures a week: 2 credits.

Text-book: Birtwistle, *Thermodynamics.*

455. **Electricity and Magnetism:** a continuation of course 355; current electricity, electromagnetic induction, the development of Maxwell's equations for the electromagnetic field.

2 lectures a week: 2 credits.

Text-book: Page and Adams, *Principles of Electricity.*

456. **Recent Advances in Physics:** selected topics, with outside reading, including conduction through gases, measurement of electronic charge, radioactivity, positive ray analysis, atomic theory.

2 lectures a week: 2 credits.

458. **Seminar:** preparation and reading of articles from current magazines as well as historical essays. Prescribed for fourth year students and optional for all students in the Mathematics and Physics course.

1 hour a week: 1 credit.

459. **Laboratory Course:** designed as an accompaniment to the lecture work of the fourth year. Emphasis is laid upon individuality of work and resourcefulness. As far as possible, training is given in research methods.

9 laboratory hours a week: 3 credits.

Courses Leading to the Degree of M.A.

505. **Vacuum Tube Theory and Practice:** offered as a minor option to graduate students in other branches of science.

1 lecture, 3 laboratory hours a week: 2 credits.

506. **Atomic Physics:** offered as a minor option to graduate students in other branches of science.

2 lectures a week: 2 credits.

551. **Theory of Relativity:** 2 lectures a week.

553. **Theory of Thermal Radiation:** 2 lectures a week.

554. **Quantum Theory of Line Spectra:** 2 lectures a week.

555. **Electrodynamics:** 4 lectures a week.

556. **X-Rays and Crystal Structure:** 2 lectures a week.

557. **Atomic and Molecular Structure.**

558. **Seminar.**

559. **Research.**

For courses offered in Huron College, see pages 157-159.

Offered at Assumption College only.

11x. **Religious Knowledge:** lectures, prescribed reading. Revelation in general; pre-Christian revelation; Christian revelation; foundation and marks of the Church; nature of God; the Trinity; creation; redemption.

2 hours a week: 2 credits.

Text-book: St. Thomas, *Compendium Theologiae.*

21x. **Religious Knowledge:** the dogmatic and moral teachings of the Catholic Church: Grace, the Sacraments, Christian morality, basis of morality, duties towards God, duties towards our neighbour, capital and labour. Lectures and prescribed reading.

2 hours a week: 2 credits.

Text-book: Knox, *The Belief of Catholics.*

30x. **Apologetics:** lectures and prescribed reading. De vera religione; religion in general; revealed religion; Divinity of the Christian religion.

2 hours a week: 2 credits.

Text-book: Tanquerey, *Synopsis Theologiae Dogmaticae, Vol. I.*

31x. An Introductory Course on the Bible: inspiration; methods of interpretation; canonics; Biblical history.

1 hour a week: 1 credit.

References: Gigot, *General Introduction to the Study of Scripture.*
Seisenberger, *Practical Handbook of the Study of the Bible.*

40x. Apologetics: lectures and prescribed reading. De Ecclesia Christi; Divine institution; constitution: De Fontibus Revelationibus; scripture, tradition; modernism; present-day religious conditions.

2 hours a week: 2 credits.

Text-book: St. Thomas, *Summa Theologiae, Vol. I.*

41x. Church History: the broad outlines of Church History; conversion of the Empire; Genius of the Middle Ages; the Renaissance and the Reformation; the Church and Nationalism.

1 hour a week: 1 credit.

References: Kurth, *The Church at the Turning Points of History.*
Birkhaeuser, *History of the Church.*
Belloc, *Europe and the Faith.*
Pastor, *History of the Popes.*

Offered at Ursuline and St. Peter's Colleges.

10x. Christian Doctrine: Faith, Grace; the Divine Essence; the Blessed Trinity; the creation; the Incarnation; the Redemption; the sacramental system; Eschatology. Lectures, prescribed New Testament readings and essays.

2 hours a week: 2 credits.

Text-books: *The New Testament.*
Sheehan, *Catholic Doctrine.*

20x. Apologetics: Existence and Nature of God; liberty, spirituality and immortality of the Human Soul; the Pentateuch and Science; historical value of the Gospels; the Divinity of Christ. Lectures, essays and prescribed readings.

2 hours a week: 2 credits.

Text-book: Devivier-Sasia, *Christian Apologetics, Vol. I.*

30x. Apologetics: the Christian Church; Christ's Kingdom on earth; marks of the True Church; prerogatives of the True Church; accusations against the Church; recent sects; the Church and civilization. Lectures, essays and prescribed readings.

2 hours a week: 2 credits.

Text-book: Devivier-Sasia, *Christian Apologetics, Vol. II.*

40x. Christian Morals and Catechetics: the foundation of Christian morality; the Ten Commandments of God; the commandments of the Church; modern problems; methods of teaching religion; the Munich method. Lectures, prescribed readings and essays.

2 hours a week: 2 credits.

Text-book: Wilmers, *Handbook of the Christian Religion.*

100x. **Christian Doctrine:** lectures, prescribed reading and essays. The Authority of the Church; Faith; the Divine Essence; the Blessed Trinity; the Creation; the Incarnation; the Redemption.

1 hour a week: 1 credit.

Text-book: Sheehan, *Apologetics and Catholic Doctrine.*

101x. **Church History:** lectures, prescribed reading and essays. Christian Antiquity and Mediaeval Church History, from the Birth of Christ to the year 1500 A.D.

2 hours a week: 2 credits.

Text-books: Birkhaeuser, *History of the Church.*
Poulet, *A History of the Catholic Church, Vols. I and II.*

200x. **Christian Doctrine:** lectures, prescribed reading and essays. God, the Sanctifier; the Sacramental System; the Last Things.

1 hour a week: 1 credit.

Text-book: Sheehan, *Apologetics and Catholic Doctrine.*

201x. **Church History:** lectures, prescribed reading and essays. The Reformation Period and Modern Church History.

2 hours a week: 2 credits.

Text-books: Birkhaeuser, *History of the Church.*
Poulet, *A History of the Catholic Church, Vols. I and II.*

Offered at Waterloo College only.

19x. **Biblical Literature:** the life of Jesus based on the Gospels.

1 hour a week: 1 credit.

Text-book: Robertson, *A Harmony of the Gospels.*

29x. **Biblical Literature:** the Book of Acts, with special attention to the life and epistles of St. Paul.

1 hour a week: 1 credit.

Text-book: *The Bible.*

39x. **Biblical Literature:** the history and literature of the Prophets.

2 hours a week: 2 credits.

Text-book: *The Bible.*

47x. **Christian Doctrine:** a Summary of the Christian Faith, setting forth the fundamental doctrines of the Sacred Scriptures from the standpoint of Evangelical Christianity.

2 hours a week: 2 credits.

Text-books: Jacobs, *A Summary of Christian Faith.*
Jacobs, *Elements of Religion.*

48x. **Church History:** lectures, prescribed reading and essays. The following parts will be given in alternate years, Part 1 in 1940-41.

1. Ancient and Mediaeval Church History.

2. The Reformation Period and Modern Church History.

2 hours a week: 2 credits.

FRENCH

General course students may, with the consent of the Head of the Department, elect French 381 and 491 as optional credits towards graduation.

10. Intermediate French: grammar, dictation and translation.

3 hours a week: 3 credits.

Text-books: Fundenburg, *A First Review of French Grammar* (Appleton-Century).
Rosmer, *L'Anneau Vert* (Longmans).
Pagnol, *Merlusse* (Holt).
Foley, *Kowa, la Mystérieuse* (Macmillan).
Miller, *First Readings in French Literature* (Appleton-Century).

20. Advanced French: grammar, dictation, translation, and some training in literary appreciation.

3 hours a week: 3 credits.

Prerequisite: French 10.

Text-books: Wordsworth, *Modern French Syntax and Composition* (Macmillan).
Joseph Renaud, *Les Deux Idoles* (Heath).
Goddard and Rosselet, *Introduction to Molière* (Heath).
Turgeon, *French One-Act Plays of Today* (Holt).
Gauss and Stubbs, *First Readings in French Masterpieces* (Crofts).
Leblanc, *Arsène Lupin, Gentleman-Cambrioleur* (Ginn).
Chinard, *Scènes de la Vie Française* (Ginn).

30. **Outline of French Literature** (origins to 1700 A.D.).

The students registered in Secretarial Science and Business Administration will take Commercial French.

3 hours a week: 3 credits.

Prerequisite: French 20.

Text-books: Salvan and Parker, *Premières Lectures Littéraires* (Heath).
Bagley, *An Introduction to French Literature of the Seventeenth Century* (Appleton-Century).
Molière, *Le Bourgeois Gentilhomme.*
Racine, *Phèdre* or *Andromaque.*
Storer, *Campagne* (Harper).

39. **Outline of French Literature in English.** For students in the Honour English Course who have no reading knowledge of French. Elective also in the General Course, Senior Group.

1 hour a week: 1 credit.

Text-books: Guyer, *The Main Stream of French Literature* (Heath).
Strachey, *Landmarks of French Literature* (Home Univ. Library).
Plays by Molière(Modern Library No. 78).
Six Plays by Corneille and Racine (Modern Library No. 194).
Voltaire, *Candide* (Modern Library No. 47).
Daudet, *Tartarin de Tarascon* (Everyman's Library No. 423).
Flaubert, *Madame Bovary* (Modern Library No. 28).
Hugo, *Ninety-Three* (Collins' Pocket Classics No. 202).
Rostand, *Cyrano de Bergerac* (Modern Library No. 154).

40. **Outline of French Literature** (1700 A.D. to the present time): students in Secretarial Science and Business Administration will take Commercial French.

3 hours a week: 3 credits.

Prerequisite: French 30.

Text-books: Skinner and Brady, *Gil Blas* (Holt).
Voltaire, *Zadig and Other Stories* (Heath).
Rousseau, *Confessions* (Holt).
Beaumarchais, *Le Barbier de Séville.*
Chateaubriand, *Atala* (Heath).
Hugo, *Hernani* or *Ruy Blas.*
Rostand, *Cyrano de Bergerac.*
Grant, *French Poetry of the Nineteenth Century* (Macmillan).
Storer, *Campagne* (Harper).
Saint Exupéry, *Vol de Nuit* (Harper).
Guyer, *The Main Stream of French Literature* (Heath).

45. **Scientific French:** the reading of scientific French, from text-books and journals, supplemented by reading in the special field of research of each student.

1 hour a week: ½ credit.

Prerequisite: French 10.

Honour Courses

All students in Honour Courses will take a comprehensive examination at the end of their final year, as indicated on page 36 of this Announcement.

270. **The Literature of the Seventeenth Century:** lectures, reading, discussion and reports. Prescribed for Honour Modern Languages and Romance Languages.

3 hours a week: 3 credits.

Prerequisite: Junior Group 4 (page 56).

271. **Prose Composition, Grammar and Phonetics.**
2 hours a week: 2 credits.
Prerequisite: Junior Group 4 (page 56).

380. **The Literature of the Eighteenth Century:** lectures, reading, discussion, reports in French. Prescribed for Honour Modern Languages and Romance Languages.
3 hours a week: 3 credits.
Prerequisite: French 270.

381. **Grammar, Phonetics and Conversation.**
3 hours a week: 3 credits.
Prerequisite: French 271.

An equivalent course is given also at Trois Pistoles, P.Q., during July and August.

460. **Pre-Classical Period:** Historical grammar; Mediaeval and Renaissance literature.
2 hours a week: 2 credits.
Prerequisite: French 380.

490. **The Literature of the Nineteenth Century:** lectures, reading and essays in French; prescribed for Honour Modern Languages and Romance Languages.
3 hours a week: 3 credits.
Prerequisite: French 380.

491. **Advanced Composition, Grammar and Phonetics.**
3 hours a week, 3 credits.
Prerequisite: French 381.

Courses Leading to the Degree of M.A.

550. **Contemporary French Poetry.**

551. **Advanced French Composition.**

553. **Old French and Philology.**

560. **The Literature of French Canada.**

ITALIAN

20. **Introductory Course:** grammar, pronunciation, translation of simple texts.
3 hours a week: 3 credits.

Text-books: Russo, *Elementary Italian Grammar* (Heath).
Covello and Giacobbe, *First Reader in Italian* (Macmillan).
Cantarella and Richards, *Dieci Novelle Contemporanee* (Holt).
Marinoni, *Vita Italiana* (Holt).
Goggio, *Six Easy Italian Plays* (Heath).
