Larnia, Oct. 7<sup>th</sup> 1866

Mrs Louise Roberts

Algonac, Mich.

My dear Louise:

Your letter dated  
5<sup>th</sup> inst. I received this morning  
much to my surprise & regret. Surely  
you could not have read my letter  
correctly or else misunderstood  
its contents. If you do not under-  
stand my letter, I would advise  
you to get some one to read the  
over for you and who is capable of  
explaining its contents, also  
one I am now writing, I am sure  
if you understood my letter cor-  
rectly, one with the knowledge  
& experience you have would

not write a letter such as your  
contains

You say I did not answer "The  
question." I did answer "The question"  
in my letter of last week, thinking  
I was doing as much as I possibly  
could for you; when I left that to  
your judgment, if you thought you  
had to stand all expenses, otherwise  
if it was a stranger to me, such  
as Mr. Rice is or anyone else, I  
would not hesitate in making out  
my bill, while I am speaking of  
the bill I must not forget what  
Dr. Henderson said to me, that I was  
to please mention his bill (Dr's bill)  
which is \$5.00 / five dollars he  
demands from you, when I would

write to you, of course you will understand that is separate from the Hospital bill, account.

as for Mr. Rice I did not know that you brought him up here, I thought it was visd versa, or in other words I thought Mr. Rice brought you here that is why I said to you and you only "That it was very strange & small of him to walk off as he did" But since you say that you have all expenses to pay why of course I still say what I have already said on former pages.

You are the last one Louise, I would expect such a letter from as I recd this morning. If this letter is not plain enough I don't know what is, I will await a reply yours respectfully Julia Sawler
