Mr Sands,

Dear Friend:-

Your letter
received with photos for which
I thank you very much, but
as I have recd. one from
Ed. of the same print.
return the enclosed at
once. I thought possibly
there might be some of older
date still in your Aunt's
Album, as she had quite
a variety at one time.

Sorry to learn your daughter

P.S. It has just occurred to me that
your nephew may have come of himself &
also of sister. That he could lend me
for Cousin Egerton Young, he wants some
of that now taken in these youthful days
as well as of Latin date.

Tell your nephew I would be very glad
to receive such as well as to hear from him
now. Glad he is looking so well.

A. L. W.

is not strong. Let her take
plenty of milk and fresh
air.

I am very much better
here than at Parma, no
black north winds that chill
me through.

God bless you & your
daughter, Tell her for me
I hope she will be a great
comfort to you & then you
will live happily together
as my dear and now sainted
mother and I did.

Your sincere friend
& well wisher

H. F. Waldron.

As we look upon the
faces of our loved ones gone,
before may it stimulate
us to love Jesus more and
more & be ready when we
are called to meet in that
blessed world above when
we shall never part again
What a glorious meeting
that shall be.—
