

Dear Friend.

It is about time that I should answer your very nice letter you wish to me some time ago. I was so glad to receive it. I was so proud of it. It how to my white Lady friends coming to our house and told them that it was written by an educated Indian Lady. They were surprised to see it written in such an excellent style.

When the Halpoh Camp meeting was over I came home and stayed at my house just one night and then started for Georgian Bay. There is an Island there called Michael Island. They held a Camp meeting there. We had a splendid one. Great many Indians came from north and east and I am happy to say that the showers of blessing poured upon

The people I saw - several persons
fell on the ground as if dead and
were carried to one side of the
prayer circle. - I understood they
were struck with holy great power
on the Camp ground. But I
am sorry to tell you that I have
to come home before it was over
on account of business.

I blame the rich food that I got at
Walpole Island C. M. - and it
is the same at Christian
Island. My food at home is
generally light. And I could
not stand eating so much fat
broth and beef. But I was con-
fined to the house for a long time
and I am not quite well at
the present time but I am in
hope that I shall recover and
have my usual good health.

Yours &c &c.

Wm Wells
