OBJECTIVES

The Arts and Science Faculty of the University is primarily concerned with undergraduate instruction leading to a first degree. The purpose of this instruction is to produce personalities of positive value in their environments. The ideas that should inform this process have been so strikingly stated by a leading educationist* that he may well be quoted:

"The chief needs of public service are five very simple ones: honesty, courage, common sense, knowledge and vision. The character-building forces of the nation—the home, the school, the church, the college—must be depended upon to provide the honesty and courage. Nature, and nature alone, can furnish the common sense. To honesty, courage and common sense, the University can and should add knowledge and vision.

"The task of the college is, or should be, reasonably definite and well understood. It is to take the youth at about the age when in ancient Rome he put on the *toga virilis* and offer him for three or four years opportunity for carefully directed and supervised study in some part or in many parts of the field of liberal arts and sciences. The purpose of this carefully supervised and directed training is to give him the benefit of his rich human inheritance, so far as that may be practicable, and thereby better to prepare him for such specific task as may await him in the years of mature life. The old days when the substance of this inheritance could be transmitted through a few carefully chosen and prescribed subjects of study have gone forever. They have gone, not because those studies were not excellent in their time, but rather because times have changed and the human inheritance has taken on a more many-sided and richer form than it once was known to have. Nature and its study have offered new and splendid vistas to both knowledge and imagination. The creative arts have unfolded themselves in striking fashion for a century past as educational instrumentalities of highest value. The structure and underlying principles of the social and political order, first examined and interpreted in classic fashion by Aristotle, have now taken on many new forms and guises, each with its own appeal and its own capacity for usefulness. It is for reasons such as these that the task of the college faculty has become more difficult than ever before, since it must within a limited time and for youths from all sorts and conditions of home, family and school background and environment, offer that opportunity to understand and grasp the rich human inheritance which it is the first business of the college to transmit."

*The late Nicholas Murray Butler, former President of Columbia University.

GENERAL INFORMATION

ORGANIZATION OF THE UNIVERSITY

The University of Western Ontario is composed of four units: the College of Arts and Science (University College), the Medical School, the School of Nursing and the School of Business Administration; affiliated with the University are three colleges teaching four-year Arts courses: viz., Ursuline College, London; St. Peter's Seminary College of Arts, London; Waterloo College, Waterloo; one Junior College teaching the first two years in Arts only, Alma College, St. Thomas; one theological college, Huron College, London. Also affiliated with the University are Music Teachers College, which offers a four-year course in Arts and Music, and the Western Ontario Conservatory of Music.

HISTORY

Western University, through the efforts of the Bishop of the Diocese of Huron of the Church of England in Canada, received its charter from the Legislature of the Province of Ontario in 1878. The first classes graduated in Arts and in Medicine in 1883.

The Medical School has maintained an unbroken existence since it was first opened. In 1912 control by a joint stock company ceased and the Medical School became a Faculty of the University, under the direct control of the same Board of Governors as the rest of the institution; in 1921 it occupied its present buildings.

The Faculty of Arts, for financial reasons, was forced to close from 1885 to 1895. Revived in the latter year, it was for some time compelled to struggle for existence, but in 1908 its charter was so amended that it became undenominational and was permitted to receive financial assistance from the London City Council. Later, when the student body had increased to such an extent that local finances could not possibly meet the demands, the Province assumed part of the load of current expense. The Kingsmill property, about 260 acres, north of the City of London, was bought in 1917; buildings were erected, and the Faculty of Arts was moved to the present location in 1924.

The Institute of Public Health was opened in 1912 in a building erected and equipped by the Government of the Province of Ontario and turned over to the University to "aid Medical Education and promote instructional and practical work in Public Health". In 1917 it became the Faculty of Public Health of the University, the first independent Faculty of Public Health in the British Empire; in 1946 one section of it became a Provincial Laboratory and the other section the University School of Nursing, which moved to the north campus in 1951.

The name of the University was changed from "Western" to "Western Ontario" by Act of the Provincial Legislature in 1923.

DEGREES

By its charter the University of Western Ontario may confer degrees in Arts, Medicine, Science, Dentistry, Agriculture, Law, Education, Music, and Theology, upon persons who, having complied with the requirements are admitted to such degrees by the Senate.

The degrees at present conferred by the University are:

1. Honorary Degrees: *Doctor of Divinity; Doctor of Science; Doctor of Laws; Doctor of Letters; Doctor of Music; Doctor of Civil Law.
2. Degrees by examination: Bachelor of Arts (B.A.) Bachelor of Science (B.Sc.); Bachelor of Science in Nursing (B.Sc.N.); *Bachelor of Divinity (B.D.); Bachelor of Laws (LL.B.); Master of Arts (M.A.); Master of Science (M.Sc.); Master of Clinical Science (M.Cl.Sc.); Master of Business Administration (M.B.A.); Doctor of Medicine (M.D.); *Doctor of Divinity (D.D.); Doctor of Philosophy (Ph.D.).

The diplomas and certificates awarded by the University are:

Diploma in Business Administration; Diploma in Journalism; Diploma in Home Economics; Certificate of Public Health Nurse (C.P.H.N.); Certificate of Instructor in Nursing (C.I.N.); Certificate in Hospital Administration (C.H.A.); Music Graduate in Paedagogy (Mus. G. Paed.).

THE LIBRARIES

Since sound learning is impossible without good books, the library is basic in a university. There are two libraries at the University of Western Ontario, the general library and the medical library, as well as two special reading rooms in the Science Building and the School of Business Administration, respectively. All divisions use the Library of Congress system of classification.

The main collection of books, amounting to 160,000 volumes, is housed in the Lawson Memorial Library building, erected in 1934. The Medical School library consists of approximately 40,000 volumes. Thus the combined libraries now contain 200,000 volumes.

Although this is a fairly large collection and compares favorably in point of numbers with other university libraries in Canada, number of volumes is not the best criterion of a library's value. It would be quite possible to have 200,000 volumes, few of which would be of value to undergraduate or graduate students; or to have the same number of valuable books made almost unusable because of lack of space in which to consult them. The books on the shelves, their accessibility and condition, the policy of selection, the number of current literary and scientific journals, and the reading room accommodation must also be taken into consideration when evaluating a library. In most of these particulars the University libraries rank high. Few volumes are on the shelves without a good reason. Book purchases are subject to a rigorous selection policy which takes into account both immediate and prospective use. In the general library there is reading room space for nearly three hundred students; there are also forty carrels in the stacks for advanced and graduate students, who may secure stack permits on the recommendations of their professors. In order to help undergraduates to make intelligent use of the collections, every student in his first year is required to secure credit in a course of instruction in the use of the Library, given by members of the library staff.

*The degrees so indicated are conferred by the University only on the recommendation of an affiliated theological college. The degree of Doctor of Divinity by examination is under the jurisdiction of the Board of Theological Colleges of the Church of England in Canada.

It is impossible for a university library to make exhaustive collections of all kinds of printed material. In some respects, however, the libraries of the University of Western Ontario are outstanding. The general library is conspicuously rich in Canadiana, Americana, and books relating to Shakespeare. The nucleus of this material came as a gift in 1918 from the late Dr. John Davis Barnett. There are also important newspaper files, and a large number of early agricultural journals, as well as printed and manuscript sources of the social and religious history of Canada. The Medical School library is particularly rich in medical journals and has an extensive collection in the field of medical history.

UNIVERSITY HEALTH SERVICES

(i) Physical Examinations

A physical examination by practising physicians under the supervision of the University Health Service is required of students, men and women, of all years. The medical examination will be free if taken on scheduled registration days, but a late fee of Two Dollars will be charged those students who do not take the examination at that time. An X-ray examination for all freshmen, Medical, Nursing, and post-graduate students will be arranged during January and is also free if taken during the period prescribed.

(ii) Student Health Insurance

The scheme of health insurance was designed for the benefit of students. Its first purpose is to protect any student whose academic year may be jeopardized financially by a serious accident or an acute illness requiring hospitalization. As a student body cannot make a legal contract, the University has made the contract with the Assurance Company. Copies of this contract are given to students at registration and may be obtained from the Health Service Office. Each student should study this contract carefully, as the responsibility for making claims for illness or injury rests entirely on him. All inquiries about insurance and the proper forms to be used for insurance claims should be made in the Health Service Office.

No insurance claims will be paid to any student who has not taken the physical examination for the current year.

(iii) University Health Service

The purpose of the University Health Service is to supplement the Student Health Insurance. It is a part-time service which operates during the afternoon and consists of a clinic where students may consult the University Physician for the diagnosis or treatment of sickness, or for advice. A V.O.N. nurse is present who carries out treatment and does dressings. The Health Service secretary deals with inquiries and assists students with insurance claims.

A student who is taken ill out of clinic hours should call the family physician of those with whom he is residing, or the University Physician for information and/or advice.

UNIVERSITY CONCERT SERIES

The cultural life of the Univerity is enhanced by the provision each year of a series of Sunday Nine O'Clock concerts by artists of high distinction in their several departments of music. The project is subject to the jurisdiction of the University Students' Commission. Each full-time student

in the four constituent divisions (Arts and Science, Medicine, Nursing and Business Administration) is entitled to admission to all concerts in this series.

REGULATIONS

Admission

Candidates seeking admission must present to the Registrar, before September first, an official statement of the marks on which their certificates were awarded. For the evaluation of non-Ontario certificates a fee of $2.00 is charged . This sum must accompany the certificates, and is not returnable.

A. In the affiliated Colleges and in a *few courses in University College a candidate may be admitted to the first year in Arts on presentation of a Secondary School Graduation Diploma (or the equivalent), showing satisfactory completion of the following Grade XII subjects:

(1) English and History.
(2) Latin or Mathematics.
(3) One of: Latin, French, German, Spanish or Italian, Greek.
(4) One of: Mathematics, Science or Agriculture, **Music, Geography, option from (3) not previously used.

No option may be counted more than once.

B. A candidate presenting Grade XIII certificates or the equivalent in at least four subjects (not papers), together with the full requirements of A, above, will receive sufficient credit thereon to enable him to reduce the normal length of his course by one year.

The Grade XIII subjects are:

English (Literature and Composition), Mathematics (Algebra, Geometry, Trigonometry and Statics), History, Latin, Greek, French, German, Spanish, Italian, Physical Science (Physics and Chemistry), Biology (Botany and Zoology), ***Music, ****Mathematics of Investment, Accountancy Practice, Secretarial Practice.

Examinations in these grade XIII subjects are conducted by the Department of Education at various centres in the Province of Ontario in June of each year.

A candidate is allowed to attempt one or more Grade XIII examinations at a time, in any order.

Percentages

In order to secure First Class Honors in a subject, a candidate must obtain at one examination at least seventy-five per cent. of the marks assigned to that subject, and at least fifty per cent. on each paper of that subject; the minimum for Second Class Honors is sixty-six per cent. and for Third Class Honors sixty per cent., other conditions being the same as for First Class.

A candidate who fails to obtain First, Second or Third Class Honors,

*Home Economics, Music and Theology. Even in these courses, a preference for admission is given to candidates with at least some Grade XIII standing.

**For the Music option, the following Certificates of the Western Ontario Conservatory of Music will be accepted.

Grade VII, Practical, and Grade II, Theory; or Grade III, Theory.

***For Music, the following Certificates of the Western Ontario Conservatory of Music will be accepted: Grade VIII, Practical, and Grade II, Theory; or Grade IV, Theory.

****An alternative for Algebra.

under the above regulations, may still secure *Credit in a subject by obtaining at least fifty per cent. on each paper of the subject, not necessarily at one examination.

Admission on Equivalent Examinations

Certificates of having passed Secondary School subjects parallel to Grade XII or Grade XIII subjects named above may be accepted *pro tanto*, provided always that the standards of these certificates meet the requirements of this University.

The local examinations formerly conducted by the English and Scottish universities for the School Certificate and the Higher School Certificate may be accepted instead of Grade XIII (Upper School) standing in some subjects, providing those subjects are passed "with Credit" or higher standing.

The General Certificate of Education of England and Wales is accepted in lieu of Grade XIII work, providing it shows standing in either five or six subjects, with at least two of these subjects at the Advanced level. English Literature, a language other than English, and either Mathematics or an approved Science must be included.

Admission With Advanced Standing

From Collegiates

Candidates presenting Grade XIII certificates or the recognized equivalents of such certificates, may be credited with the corresponding subjects in the Junior Groups.

From Universities

All applications for advanced standing must be accompanied by official certificates from the institution where work has been done, and be presented to the Registrar by August 1st if possible. These official documents must include a certificate of honorable dismissal from the institution last attended. No student may register in the University of Western Ontario if he may not re-register in the institution from which he wishes to transfer.

Admission of Adult Special Students

Students who are over twenty-one years of age, though they may not be able to present qualifications for admission to candidacy for degrees, may be admitted to a few courses in the Faculty of Arts and Science of the University, if, in the opinion of the professors in charge, they are qualified to pursue satisfactorily the courses chosen. These special students must satisfy the professors by regular attendance and attention to the work of their classes. They will not be allowed to advance from year to year in a department without taking the regular examinations.

An adult special student who has satisfactorily completed the work of a Junior Group in the General Course will be considered to have secured standing sufficient to permit his proceeding to a degree on the same terms as one who at entrance presented complete entrance requirements.

Registration

Junior Groups

All students in Arts must register each year in either University College or one of the affiliated Colleges. See page 5 for dates for registration.

Students presenting Grade XII, or Grade XII and Grade XIII, certificates will register in one of the Junior Groups (page 26) or one of the special

*In University College, all adult special applicants, all applicants at the Grade XII level and all Grade XIII applicants with averages below 60% are required to take an aptitude test to be held early in September and to have an interview with a member of the Admissions Committee before acceptance.

courses (page 26), subject to the admission requirements in each college for those courses.

Grade XIII standing in any subject will exempt a student from the first year of the general course in the same subject, except the sciences, if that subject is included in a Junior Group.

Senior Group or Honors

Students who have completed a Junior Group may register either in one of the Senior Groups (page 29) or in an Honors Course for which they have specific prerequisites. (See pages 33-48.)

Medical Examination

No registration of any student for any year is complete until the prescribed physical examination has been taken. (See page 11.)

A student on admission each year, by his registration subscribes to the regulations as stated from time to time in the University official announcements.

Length of Courses

In University College

The General Course with Home Economics or Music or Theological Options requires four years for those entering on Grade XII standing, but can be completed in three years of satisfactory work by a student who presents certificates obtained at the examinations of the Department of Education of Ontario in four Grade XIII subjects (usually eight papers) corresponding to subjects prescribed in the first year of each course (see pp. 26-33). The other General Courses (with Arts or Science or Secretarial Science or Teachers' Options) require three years from Grade XIII in four subjects. In the Nursing Course Grade XIII in four subjects precedes a five-year course. The Honors Courses, except as mentioned below, are four-year courses from Grade XIII standing in four subjects.

In the Affiliated Colleges

Grade XII standing is the entrance requirement (p. 12) and the General Courses and the Honors Courses in Philosophy are four years in length; other Honors Courses are five years. A satisfactory year's work in four Grade XIII subjects corresponding to the subjects prescribed in the first year of any course will decrease by one year the length of that course in any college, except in the Diploma Course in Home Economics.

Attendance at Lectures

Freshmen and sophomore students are required to attend eighty per cent. of their lecture and laboratory classes.

Any student who, **in the opinion of his instructors,** is absenting himself too frequently from class or laboratory periods in a course will be reported to his Dean and, on recommendation of the Department concerned and with the permission of the Dean, after due warning has been given by the Dean, shall be debarred from taking the regular examinations in that course.

A candidate for a degree must attend intramural classes of this University for two academic years, or for one academic year and two summer sessions, or for five summer sessions. This requirement is reduced to a minimum of one winter session or three summer sessions by attendance at Extension classes held by this University or by the transfer of credit from an approved college or University.

Conduct

Students are required to conduct themselves in an orderly manner in all parts of the University premises at all times.

No student will be registered in any year, or be allowed to continue in attendance after registration, if his presence is considered prejudicial to the interests of the University. Registration in any year does not entitle a student to registration in a subsequent year.

The Dean may suspend any student until his case has been considered by the Advisory Committee.

Examinations and Grades

The regular examinations will be held in April and May.

General Course

Students in the General Courses will be ranked in order of merit in each course in six grades, A, B, C, D, E, F. The minimum for Grade A is 75 per cent. of the marks obtainable; for Grade B, 66 per cent.; for Grade C, 60 per cent.; for Grade D, the minimum passing grade, 50 per cent. A mark that falls in Grade E, 40 to 49 per cent., entitles the student to a supplemental, subject to the regulations governing supplementals (see page 16). Grade F, less than 40 per cent., indicates a total failure and the necessity of repeating the course in class.

No student will be admitted to the degree of Bachelor of Arts in the General, the General Science, the Home Economics, the Secretarial, the Music, the Theological or the Teachers' Course who has not obtained at least Grade D on all the prescribed and elective work of his course and who has not obtained at least Grade C in half the courses required in a Senior Group, or in the third and fourth years, and Grade C in half the courses of his senior year.

Honors Courses

Candidates in the Honors Courses in any department will be ranked in order of merit in that department in four classes; those who obtain 75 per cent., or over, of the total number of marks will be placed in Class I; those who obtain 66 per cent. to 74 per cent. will be placed in Class II; those who obtain 60 per cent. to 65 per cent. will be placed in Class III; those who obtain between 50 per cent., the minimum for pass, and 59 per cent., will be placed in Class IV; but an average of Class IV over all the Honors subjects of the fourth year (with no failure on any paper) will not entitle the candidate to an Honors degree (page 17).

Students in an Honors Course, who do not obtain at least second class standing in the major Honors subject of the second and third years, with an average of at least sixty per cent. in other subjects, are not permitted to continue in Honors.

Re-examinations

If a student writes more than one examination in a course, the last mark he obtains shall be the only one considered valid.

Comprehensive Examinations

Students entering Honors Courses should observe that the purpose of their college work is not simply the creditable passing of courses, term after term, but the gradual acquisition of a broad and deep knowledge of the chosen subjects and an intelligent appreciation of their bearing upon general knowledge and culture. Various departments of the University College of Arts and Science have introduced comprehensive examinations for Honors students. These examinations, partly oral and partly written, are given at the end of the senior year and cover the broad aspect of the student's Honors Course. They are additional to the course examinations.

Term work

In all subjects of the General and Honors Courses the ratio of term-work marks to examination marks is determined by the teaching staff in

each subject. To pass, a student must obtain 50 per cent. in a whole subject, with 50 per cent. in term work and 50 per cent. in examinations.

Term work in a course will not be credited to a student beyond the year in which the course is taken.

Supplementals

A supplemental examination is one set on work in which a student has been conditioned (40 to 49 per cent). This examination will be held in August for those who have been conditioned in any course. (See first paragraph under ***Failures,*** page 16.)

Students conditioned at the final examinations should attempt to remove their conditions at the supplemental examinations of the next August. If a condition is not removed the **whole course** must be repeated.

Supplemental examinations will not be allowed any student in more than the equivalent of two full courses.

Students whose grade is F (less than 40 per cent.) in any course may not write a supplemental. They must repeat the course.

No supplemental examination will be allowed in Honors subjects except those offered as options by General Course students.

Special Examinations

A special examination is any examination other than the regular examination in May or August. No special examination may be assigned except on the recommendation of the head of the department concerned, after consultation with the instructor involved. (Often students should be advised to adopt the alternative of repeating the lectures and taking the next regular examination without fee.)

A student who fails to appear for a paper at the time set in the examination timetable will not be allowed to write on the examination paper thus missed, but will be required to write a special examination at a time determined by the Registrar after consultation with the department involved.

No General Course student may write special examinations on more than the equivalent of one full course in one academic year. No Honors Course student may write a special examination in any academic year if he has failed in more than one Honors examination paper or has secured less than 35 per cent. on one Honors examination paper.

All special examinations will be held during the first full week in September. No special examination will be set within three months of failure.

A special examination may be written only at the college in which a student is registered.

Failures

A student who fails to obtain 50 per cent. in the regular or supplemental examinations in a course will not be eligible for re-examination without a further year's attendance at the lectures in the course in which he has failed. **The student must repeat that course, if it is prescribed, the year after failure no matter what subject or subjects must be postponed.**

A student may take no course more than twice.

Subjects which depend directly upon the work of a preceding year may not be taken by a student who has failed in the prerequisites.

A student shall be required to pass in two-thirds of his approved registration **at the Spring examinations;** if he fails to do so, he shall repeat and complete successfully, **at the Spring examinations,** the entire work of his year (not necessarily the same course); a student who fails to satisfy this requirement shall withdraw from his course.

A student who is required to repeat his year's work may petition his Dean or Principal to be allowed to substitute a subject of equivalent weight, at the same year-level and available without clash of timetable, for a subject in which he has obtained sixty-six per cent. or better.

A candidate in an Honors Course who, at the examination for the degree of Bachelor of Arts, fails to obtain the requisite average for honors (60), provided he has obtained 50 per cent. in each course of his final year, may, on the recommendation of the Committee on Academic Standing, be awarded a degree in the General Course. The candidate may write a subsequent examination for the Honors degree.

Any student of the third or fourth year who shows an unsatisfactory knowledge of spoken or written English must do additional assignments until his work satisfies his instructors.

Appeals

The Senate has made regulations governing appeals by students. A copy of these regulations may be seen in the Registrar's office.

General Regulations

When a student begins a foreign language in the University, no credit towards a degree will be given for the first year of that language unless that year is followed by a second year in the same language. No student may begin two foreign languages in the same year.

A course that is an optional course need not be given unless it is elected by at least five students.

A student may take one course more than the number normally required for the academic year in which he registered. Permission to take any further course must be obtained from the Committee on Academic Standing. For extra courses taken by permission of this Committee, an extra tuition and laboratory fee will be charged at the usual rate for special students.

The name of the University may not be used in any publication without the permission of the Advisory Committee. No class or group of students may engage in any public effort as a body representing the University or any organization within the University, without the permission of the Advisory Committee.

The constitution of any proposed club or society must be approved by the Advisory Committee before such organization can be recognized.

For information about Student Government and Organizations, see the Student Handbook.

Regulations Governing Teachers' Courses and Certificates

(i) General Course for Teachers

University College offers a course for those who for various reasons find it impossible to attend the winter sessions for all the work necessary for a degree in Arts. For outline of courses see page 31. It is completely available through the Extension and Summer School Department.

(ii) Public School Inspectors' Certificates

By agreement with the Minister of Education the work described below satisfies the academic requirements for a Public School Inspector's Certificate:

(1) An Honors Degree in Arts or Science in accordance with the present agreement prescribed for Type A qualifications (see section iii below); or

(2) A General Course Degree in Arts with a standard of 66 per cent. at the final examination for the degree, with standing in English for each of the four years.

A candidate shall extend his course over at least four years from Junior Matriculation and he shall attend the University classes (a) for at least two complete winter sessions approved by the University, or (b) for at least one complete winter session, and two complete sessions of the Summer School, or the equivalent thereof. His work must be supervised as prescribed in the agreement between the Department of Education and the University.

For the professional requirements candidates should consult the Department of Education, Toronto 5, Ontario.

(iii) High School Assistants' Certificates

I. Type B

The academic standing for admission to the course in the Ontario College of Education leading to a High School Assistant's Certificate, Type B, is a degree in Arts or in Science from a British University, based upon courses approved by the Minister of Education.

II. Type A

Subject to the conditions specified below, an Honors degree in Arts or in Science (66 per cent.) is the academic standing for admission to the courses leading to High School Assistant's Certificate, Type A, in Classics, Commercial Subjects, English, English and French, English and Latin, French and German or Spanish, Geography, History, Latin and French, Mathematics, Mathematics and Physics, Physical Education, Physics and Chemistry, Science.

For the University of Western Ontario, the courses in the departments specified above shall be the Honors Courses as defined in the Announcement of the Faculty of Arts and Science for 1953-1954.

The courses shall extend over at least five years from Grade XII or, as

NOTE: Graduates in general courses who wish to obtain Type A standing should consult the Registrar.

may be determined under the regulations of the University, over four years from Grade XIII standing in four subjects.

Candidates shall attend for at least two full academic years, the third and fourth.

The Minister shall have authority to deal with any case not already covered. The University shall submit to the Minister a recommendation on any case whose merits justify special consideration.

Regulations Governing the Extension and Summer School Department

A candidate for a degree must attend intramural classes of this University for two academic years, or for one academic year and two summer sessions, or for five summer sessions. This requirement is reduced to a minimum of one winter session or three summer sessions by attendance at Extension classes held by this University or by the transfer of credit from an approved college or University.

(i) CORRESPONDENCE WORK

A correspondence course is one which a student may pursue without attending classes (except as provided below), but in which he must write the examinations at the periods prescribed for resident students. The conditions for admission to such courses are the same as those required for admission to intramural courses.

Courses in the Sciences (including Psychology), in the elements of any foreign language, and honors courses not also available as general courses, are not given by correspondence. Students pursuing correspondence courses are subject to the same regulations about term work and examinations as those pursuing intramural courses.

For additional information consult the pamphlet on Correspondence Courses.

(ii) SUMMER SCHOOL

University College offers in London a summer session which opens in the first week of July and continues thereafter for six weeks.

The subjects offered in the Summer School are taken from the courses of the winter session for General Course students, or from the Teachers' Course. No Honors course will be offered in Summer School unless it is also part of the General Course.

Complete information about the Summer School and Extension work is contained in the Handbook of the Summer School and Extension Department. This may be obtained by applying to the Registrar or to the Director of the Summer School and Extension Department.

University College also conducts at Trois-Pistoles, Quebec, a seven weeks Summer School in French Conversation for English-speaking students and in English Conversation for French-speaking students. The session opens during the first week in July. Information may be obtained from the Registrar or from the Director of the French Summer School.

(iii) EXTENSION DEPARTMENT

During the winter session, the University conducts regular weekly credit classes in many centres in Ontario. These classes are usually taught by members of the University staff, and a student who satisfies the attendance requirement and passes the regular University examination will obtain credit for the courses. For further information write to the Director of the Summer School and Extension Department or to the University Registrar.

Regulations Governing Advanced Degrees

(i) THE MASTER'S DEGREE

Academic Qualifications

A candidate must be a graduate of the University of Western Ontario or of some other accredited university. Graduates of this or other accredited universities may be accepted as candidates for the degree after they have presented to the Dean of the Faculty of Graduate Studies official evidence of graduation and have satisfied the appropriate sub-committee on Graduate Studies as to their qualifications.

Period of Study

The duration of the course will be adjusted for each candidate. A minimum of one year in residence will be required of a graduate in Medicine or Business Administration or an Honors Course in Arts or Science. If more than six hours a week are spent in teaching or other departmental duties, at least two years in residence will be required. An additional year will be required of a candidate with a General Course degree.

Course of Study

The course of study shall comprise one major subject and one or more minor subjects. Minor subjects may be taken in the Faculty of Arts and Science or the Faculty of Medicine or in the School of Business Administration. If a minor subject is taken in the department in which the major is taken, a second minor may be required in another department. The major and minor subjects must be approved by the Head of the Department in which the student is majoring and by the Dean of the Faculty of Graduate Studies.

Committee

Within one month after a candidate's registration, the Head of his Department shall appoint his committee, to consist of his chief adviser, as chairman, and two others. The Head of the Department will then report to the Dean of the Faculty of Graduate Studies the composition of each candidate's committee.

If a candidate does not maintain a satisfactory standing in all his work, his committee may at any time recommend that he discontinue his course.

Foreign Language Requirements

It is essential that a candidate for the Master's degree have a reading knowledge of at least one language other than English, to be chosen in consultation with the Head of the Department in which he is majoring. He must furnish evidence of such reading knowledge either by presenting university credit or by passing an examination conducted by the language department concerned, normally at a level one year in advance of Senior Matriculation requirement. If the nature of a candidate's research makes it desirable, a department may require him to show reading knowledge of a second foreign language.

Thesis

A thesis, incorporating the results of an investigation in the field of the major subject, shall be required from all candidates in the Faculty of

Medicine, from all candidates in the departments of Natural Science, and normally from all other candidates. . . . . A candidate shall submit with his thesis three copies of an abstract of not more than three hundred words to be bound with three copies of the thesis.

Examinations

A department may require oral or written examinations or both, and may decide in the case of each candidate the type of examination required. A department may, at its discretion, require a comprehensive examination. Notice of the type of examination shall be given by the Head of the Department to the candidate at least two months before the date on which the examination is to be held. . . . An oral examination shall be taken on the thesis.

Honors Standing

The Master's degree with Honors may be granted to a candidate on the recommendation of the committee in charge of his research and with the approval of the appropriate subcommittee on Graduate Studies. It will be granted not on the basis of any specific percentage but only in recognition of outstanding achievement.

For additional specific regulations, refer to the pamphlet published by the Faculty of Graduate Studies.

(ii) THE LL.B. DEGREE

Academic Requirements

The academic requirements for permission to register for this degree are:

(a) An Honors degree from the University of Western Ontario or some other acceptable university or college.

(b) A certificate of graduation from Osgoode Hall and of admission to the practice of law in the Province of Ontario, or equivalent certificates.

The requirements for the degree consist of:

Courses and Examination

(a) Reading courses and examinations in each of the following subjects (see p. 77): Domestic Relations, Medical Jurisprudence, Comparative Constitutional Law and History, Comparative Civil Law.

(b) An approved thesis on an assigned subject.

Thesis

A typewritten or printed copy of the completed thesis bound in the form approved by the Librarian, must be in the hands of the Dean of the Faculty of Graduate Studies not later than May 1st or October 1st, for Spring or Fall graduation respectively. If the thesis is typewritten, the original and not a carbon copy must be submitted. Upon being approved the thesis shall become the property of the University.

(iii) THE PH.D. DEGREE

Academic Requirements

The degree of Doctor of Philosophy will be granted only to a candidate who has exhibited a high aptitude and attainment in research and has presented, in a scholarly manner, a thesis containing an original contribution to knowledge.

A candidate must be a graduate of an accredited university. He must have either a Bachelor's degree with Honors (or its equivalent) or a Master's degree or a degree in Medicine. A student who wishes to work for the degree

of Doctor of Philosophy must first satisfy the Head of the Department concerned and the Chairman of the appropriate sub-committee on Graduate Studies that he has the necessary qualifications.

A student should first consult the Head of the Department in which he wishes to study. The Head of the Department will inform the appropriate subcommittee on Graduate Studies whether he considers the student a suitable candidate and is willing to allow him to work in his department. He will also recommend to the subcommittee a supervisor or supervisors.

Period of Study

The period of study and of required residence will be determined by the academic qualification of the candidate and by his previous experience in research. Usually three years will be required; the time may be reduced to two years if the candidate has a Master's degree. If more than six hours a week are spent in teaching or other departmental duties, the period of study will be extended.

With the consent of the Head of the Department and with the approval of the appropriate subcommittee on Graduate Studies, permission may be granted to a candidate to study elsewhere. A maximum period of one year of such studies may be credited towards the degree.

Applications for registration submitted later than three months after the date on which the course was begun will be approved only on the recommendation of the Head of the Department and of the appropriate subcommittee on Graduate Studies. A whole-time student may be granted retrospective registration for not more than one academic year.

Course of Study

The course of study to be followed by a candidate for the degree of Doctor of Philosophy shall be determined by the Head of the Department in which the candidate is working and shall be approved by the sub-committee on Graduate Studies.

Committee

Within one month after a candidate's registration, the Head of the Department shall appoint his committee, to consist of his chief adviser, as chairman, and two others. The Head of the Department will then report to the Dean of the Faculty of Graduate Studies the composition of each candidate's committee.

If a candidate does not maintain a satisfactory standing in all his work, his committee may at any time recommend that he discontinue his course.

Foreign Language Requirements

The candidate for the degree of Doctor of Philosophy must have a reading knowledge of at least one language other than English. If the nature of a candidate's research renders it desirable, the department concerned may require a reading knowledge of a second foreign language to be chosen in consultation with his chief adviser. The candidate must furnish evidence of such reading knowledge either by presenting university credit or by passing an examination conducted by the language department concerned, at a level at least one year in advance of Senior Matriculation requirements in the first language and at the level of at least a beginning course in the second language.

Thesis

A thesis is required of every candidate for the degree of Doctor of Philosophy. The thesis must consist of the candidate's own account of his research. It may describe work done in conjunction with his supervisor if the candidate clearly states his personal share in the investigation and this

statement is certified by his supervisor. The candidate must indicate in what respects his investigations have increased the knowledge of the subject.

A candidate will not be permitted to submit a thesis for which a degree has been previously conferred. Permission may be given to a candidate by the appropriate subcommittee on Graduate Studies to incorporate in his doctoral thesis work included in a previous thesis. . . . . The candidate will be required to submit four copies of an abstract of not more than five hundred words, to be bound with four copies of his thesis.

Examinations

A department may require oral or written examinations or both and may decide in the case of each candidate the type of examination required. A department, at its discretion, may require a comprehensive examination. Notice of the type of examination shall be given by the Head of the Department to the candidate at least two months before the date on which the examination is to be held. The examiners of the thesis and the oral shall be appointed by the appropriate subcommittee on Graduate Studies, on the recommendation of the Head of the Department. Three or more examiners will be appointed, of whom one at least must be external to the University.

The Doctor's degree with Honors may be granted to a candidate on the recommendation of the committee in charge of the candidate's research and with the approval of the appropriate subcommittee on Graduate Studies. It will be granted not on the basis of any specific percentage but only in recognition of outstanding achievement.

For additional specific regulations, refer to the pamphlet published by the Faculty of Graduate Studies.

FEES

Fees are paid in full on registration day, but if necessary they may be divided after consultation with the Comptroller, into two instalments payable on the first day of each term. The extra charge for this division is $5.00. Students must pay their fees as above before attending any lectures or examinations, except by permission of the Dean of the Faculty and the Comptroller. No student shall be recommended for any certificate, diploma or degree until his tuition fees and other accounts owed to the University are paid.

The Board of Governors reserves the right to amend fees after the printing of this list.

Tuition and Prescribed Accessory Fees

For FULL-TIME intramural undergraduate students

LL.B.	20.00
Ph.D.	50.00

Examination fees:

Ph.D.	50.00
LL.B. (each examination)	20.00

Degree fees and examination fees are payable in the final year of the course, by May 1st for Spring graduation or October 1st for Fall graduation.

*Payable in full during the 1st week in November; $1 extra is charged for each course if fees are divided into two instalments.

Graduate students in any Science department who are not candidates for any degree pay an inclusive laboratory fee of $50.00 per annum if they have the written permission of the Head of the Department and the Dean of the Faculty to pursue such courses. This fee may be waived by the Dean of the Faculty on the recommendation of the Head of the Department concerned.

STUDENT EXPENSES

A statement of annual expenses can at best be approximate; purely personal items (*e.g.*, laundry, clothes) are not included in the summary below and in other items individual tastes may vary. The following is a suggestion only:

Tuition, etc.	$310.00 to $380.00
Board (30 weeks)	360.00 to 540.00
Books and Supplies	55.00 to 80.00
	$725.00 to $1000.00

Explanation of Number System

A course whose number is lower than 10 is, in difficulty and weight, equal to a Secondary School Grade XII (Ontario) course in the same subject.

First year general courses are numbered between 10 and 19; they are, in difficulty and weight, equal to a Secondary School Grade XIII (Ontario) course in the same subject.

Second year general courses are numbered between 20 and 29; second year honors courses, between 200 and 299.

Third year general courses are numbered beween 30 and 39; third year honors courses between 300 and 399.

Fourth year general courses are numbered between 40 and 49; fourth year honors courses, between 400 and 499.

Graduate courses are numbered between 500 and 699.

A course whose number is followed by -a is given in the first term only; followed by -b, in the second term only; followed by -x is given in an affiliated college only.

A half course is one which meets less than two hours a week throughout the academic year, or less than four hours a week in one term.

REQUIREMENTS FOR B.A. AND B.Sc. DEGREES

UNIVERSITY COLLEGE

All students, on entering the Faculty of Arts and Science, will register in one of the following courses. In the affiliated colleges and in a few courses in University College a candidate may be admitted to the first year in Arts on presentation of a Secondary School Graduation Diploma or the equivalent (see p. 12). A candidate presenting also Grade XIII certificates or the equivalent in at least four subjects (not papers) will receive sufficient credit to enable him to reduce the normal length of his course by one year (to three years for a General Course degree or four years for one in an Honors Course).

I. GENERAL COURSE WITH JUNIOR AND SENIOR DIVISIONS

In University College, a Junior Group requires one year's work following Grade XIII standing in four relevant subjects. In the affiliated college, two years' work are required following Grade XII Secondary School Graduation Diploma (see page 12) or one year's work following Grade XIII standing.

If it is permitted by the admissions policy of the college concerned, deficiencies in Grade XIII work may be made up through completion of the appropriate University courses. A student will not be allowed, however, to make up more than one Grade XIII deficiency concurrently with the final year of a Junior Group program.

Grade XIII Courses	*Equivalent University Courses*
English	English 10
History	History 14
Algebra or Mathematics of Investment Geometry Trigonometry and Statics	Mathematics 11 or 10, 12, 18, respectively
Botany and Zoology (with 60% average)	Biological Science 11
Physics and Chemistry (with 60% average)	Physical Science 11
French	French 10
Latin	Latin 10
German	German 10 or 35
Greek	Greek 10
Spanish	Spanish 10
Music	Music 10

Notes: (1) Grade XIII Music may be substituted for one option in Junior Group 2, 3 or 4.

(2) At least one science course, with laboratory work, must be taken in the University.

(3) The Department of Education of Ontario accepts a degree in the General

Course as the academic qualification for a High School Assistant's Certificate, Type B.

Junior Group 1

Requirements for Admission: Grade XIII standing in English, Mathematics (three papers), French or German or Latin, Chemistry and Physics.

This group is a prerequisite for all the Honors Natural Science courses and for Honors Mathematics and Physics. It is one of the Junior Groups acceptable for Honors Geography and Honors Philosophy. In it, Geology 20 is prescribed for entrance to Honors Geology, and Mathematics 24 is required for Honors courses in Chemistry, Chemistry and Physics, and Mathematics and Physics. For Honors Biology, for Medicine, for Honors Geography and for Honors Philosophy, either Geology 20 or Mathematics 24 is acceptable.

III. PRE-THEOLOGICAL GENERAL COURSE

Requirements for Admission: Secondary School Graduation Diploma, and Grade XIII (or equivalent) standing in English; History; Latin or French; Science or Mathematics (any two) or Greek.

The following course is prescribed for all students under twenty-one years of age who are entering Huron College. It is open also to University College students who may be interested in training for religious and social work. The New Testament Greek parts of the course are available at Huron College only. At the end of the second year, Huron College students are encouraged to transfer to Honors courses in the social sciences and may do so with the consent of the Principal of Huron College, providing they meet the requirements for an Honors course.

Second Year

IV. GENERAL COURSE WITH HOME ECONOMICS OPTIONS

Requirements for Admission: Secondary School Graduation Diploma (page 12).

This four-year course leading to a Bachelor of Arts degree in Home Economics is offered jointly by University College and Ursuline College. University College students in the course will take all their classes at University College except in Home Economics; Ursuline College students will take all their science courses in University College.

After the completion of the course, students may take dietetic interne training in institutions approved by the Canadian Dietetic Association for professional standing.

Students who have obtained 60% or more in the work of the fourth year may, if they enter the High School Assistants' Course of the Ontario College of Education, elect the supplementary course offered for Intermediate Home Economics certificates.

Grade XIII standing in English, French, Latin, Mathematics will cancel English 10, French 10, Latin 10, Mathematics 10, 12, 18. Grade XIII Chemistry, Botany, Zoology with Second Class standing will cancel Chemistry 11N, Botany 11aN and Zoology 11bN, which are essential for graduation in three years.

Home Economics and Chemistry courses must be taken in the order and the year designated.

A two-year course leading to a Diploma in Home Economics is offered by Alma College (St. Thomas). For details see page 104.

On the completion of this program, those accepted by the Admissions Committee of the Faculty of Medicine must be prepared to register with the College of Physicians and Surgeons, and to submit a birth certificate for this purpose.

Any students who are not accepted for admission to Medicine proper may proceed, if their records are satisfactory, to one of the Honors Science courses, or to the General Course with Science options. On completion of the Honors third year or the General Course final year, they may again apply for admission to the Faculty of Medicine.

VIII. DEGREE COURSES IN NURSING

Leading to the degree of Bachelor of Science in Nursing (B. Sc. N.)

COURSE A

Requirements for Admission: Secondary School Graduation Diploma (page 12) and Grade XIII (or equivalent) standing in English, a foreign language (French preferred), Botany, Chemistry and Zoology (with 66% in the Science papers).

The length of this course is five calendar years. It is made up of three parts as follows:

Part A: One academic year in the Faculty of Arts and Science:

Subjects	*Subjects*
Botany 36b.	Health Lectures.
Chemistry 22a.	Library Science 10.
Economics 28.	Physical Education 10.
English 19, 20.	Psychology 20.
Language of Grade XIII continued.	Zoology 21.

Part B: Thirty-two continuous months in a hospital School of Nursing where there shall be a course that is in all its details approved by a Committee of which the Dean of the School of Nursing is Convener.

Part C: One academic year in the Graduate Division of the School of Nursing of this University. The student may choose the Public Health Nursing or the Instructor in Nursing option. She must inform the Dean of the School of Nursing by June 30th of the option she has chosen for her final year's work.

No conditions may be carried from Part A to Part B, or from Part B to Part C, of this course without the written permission of both the Dean of the School of Nursing and the University Registrar.

DEGREE COURSE IN NURSING

COURSE B

(For Graduate Nurses Only)

Requirements for Admission:

(1) Secondary School Graduation Diploma (page 12) and Grade XIII (or equivalent) standing in English, one language (preferably French), and any four additional papers. Equivalent standing includes first year college courses available for adult special students over twenty-one years of age.

(2) Proof of graduation from a hospital School of Nursing in which the program of education and clinical experience is approved by a committee of which the Dean of the School of Nursing is Convener.

(3) Proof of registration as a graduate nurse in good standing.

(4) The completion of one academic year in one of the specialized professional programs (Public Health Nursing or Instructor in Nursing) in this University's School of Nursing. Applicants who hold certificates or diplomas of specialized professional study at another University are required to complete one term (or semester) of study in this University's School of Nursing in addition to the Arts and Science subjects of the degree course.

This course is accepted by the Department of Education as academic qualification for the High School Assistant's Certificate, Type A, Mathematics and Physics. See page 18. Degree of B. A.

Third Year

For admission to the Third Year an average of 66% is required in the Honors courses of the second year, and an average of 60% in all other subjects.

Economics 20 or English 35 or Philosophy 30 or Psychology 30.
German 35.
Physics 350 or 353.
One of Groups I and II below.
Mathematics 354.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Mathematics and Physics of the Third Year, and an average of 60% in all other subjects.

French 45.
German 45.
Economics 32 or English 44 or History 30.
Mathematics 456.
Physics 456.
One of Groups I and II below.

Note: The following two groups are given in alternate years, Group II in 1954-55.

GROUP I

Subjects
Mathematics 351a, 355, 358, 359.

GROUP II

Subjects
Mathematics 450, 453, 467.
Mathematics 452 (for Math. Option) or 463 (for Act. Sc.)

(b) Actuarial Science Option

Note: This course is accepted by the Department of Education of Ontario as academic qualification for the High School Assistant's Certificate, Type A, Mathematics. See page 18. Degree of B. A.

This option is intended for students who wish to became actuaries. It will prepare students to write three preliminary examinations sponsored by the Society of Actuaries.

The first of these examinations, a Language Aptitude Examination, may be written at any time, the second at the end of the second year, and the third at the end of the third or fourth year. In order to become an Associate of the Society of Actuaries, a candidate must also pass Parts 4 and 5 of the actuarial examinations. The first three preliminary examinations are held about May 15 and may be written in London. Applications to write one or more of the first three examinations must be received by March 15th.

Students may elect this option only after consultation with the Head of the Department of Mathematics.

Third Year

For admission to the Third Year an average of 66% is required in the Mathematics of the Second Year.

Subjects
Business 250 (Accounting).
Economics 20.
English 35 or German 35.
Mathematics 354.
Group I or II (see Math. Option).

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Honors Courses of the Third Year, and an average of 60% in all other subjects.

Business 353 (Business Finance).
Economics 453.
English 44 or History 30.
Mathematics 456.
Group I or II (see Math. Option).

(c) General Physics Option

This course is accepted by the Department of Education of Ontario as the academic qualification for the High School Assistant's Certificate, Type A, Mathematics and Physics. See page 18. Degree of B.Sc.

Third Year

For admission to the Third Year an average of 66% is required in the Honors Courses of the Second Year, and an average of 60% in all other subjects.

Subjects
German 35.
Mathematics 456.
Physics 350, 351, 353, 356, 359.

Fourth Year

For admission to the Fourth Year, an average of 66% is required in the Mathematics and Physics of the Third Year, and an average of 60% in all other subjects.

Economics 20 or English 32 or 35 or Psychology 30.
French 45.
German 45.
Physics 454, 455, 456, 457, 458, 459.

(d) Radio Physics Option

This course is accepted by the Department of Education of Ontario as the academic qualification for the High School Assistant's Certificate, Type A, Mathematics and Physics. See page 18.

This option earns the B. Sc. degree.

The purpose of this course is to provide students with sufficient theoretical and practical background to enable them, as graduates, to occupy responsible technical positions in the various branches of the radio industry, including frequency modulation, television and radar; in communications generally; in the field of industrial electronics; and in development and research laboratories.

Third Year

For admission to the Third Year an average of 66% is required in the Honors courses of the Second Year.

Subjects	*Subjects*
Economics 20.	Mathematics 456.
German 35.	Physics 351, 376, 377, 379.

Fourth Year

For admission to the Fourth Year, an average of 66% is required in the Mathematics and Physics of the Third Year, and an average of 60% in all other subjects.

French 45.	Physics 455, 456, 457, 458, 476, 477, 479.
German 45.	

Modern Languages and Literatures

Requirements for Admission: Group 4, page 28, with at least 60% in French and in German or Spanish.

This course is accepted by the Department of Education of Ontario as the academic qualification for the High School Assistant's Certificate, Type A, French and German, or French and Spanish. See page 18.

Second Year

Subjects	*Subjects*
English 35.	Greek *29.
French 270, 271, 290.	At least one course in a foreign language not chosen as a major.
German 290, 291 or Spanish *230, 231, 260.	

Third Year

For admission to the Third Year an average of 66% is required in the French and in the German or Spanish of the Second Year, and an average of 60% in all other subjects.

French 380, 381.	History 30.
German 333, 390 ,391 or Spanish 340, 341, 360.	At least one course in the minor foreign language of the Second Year.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the French and in the German or Spanish of the Third Year, and an average of 60% in all other subjects.

French 450, 490, 491.	One course in the minor foreign language continued from the Third Year.
German 420, 480, 481 or Spanish 451, 460.	

Philosophy

(This course is offered in University College only)

Requirements for Admission: The completion of any Junior Group or of any of the pre-Theological General Courses (pp. 30, 105, 115) with at least 60% in English and 60% in each of five other subjects.

Second Year

Subjects	*Subjects*
English 32 or 38 or History 257.	Philosophy 230, 231.
Geography 20 or Physics 11 or Zoology 11.	At least two courses from options approved by the Department of Philosophy.

*Students who begin Spanish in the University and who wish to major in Spanish will take Spanish 20 in the Second Year and will defer Spanish 231 and Greek 29 until the Third Year.

Third Year

For admission to the Third Year an average of 66% is required in the Philosophy of the Second Year, and an average of 60% in all other subjects.

Philosophy 335, 336, 347, 350.
Psychology 49.
Two courses from options approved by the Department of Philosophy.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Philosophy of the Third Year, and an average of 60% in all other subjects.

Philosophy 443, 454, 456, 457, 458, 462.
Two course from options approved by the Department of Philosophy.

Physical, Health, and Recreation Education

Requirements for Admission: Group 2, page 27, with an average of at least 60% in the subjects taken in the University. The footnotes to Junior Group 2 specify the Junior Group options to be selected. The following information should be submitted along with the application for admission to the Honors Course:

1. **Personal Health Certificate** from the applicant's family physician, to include significant information regarding the health of the applicant and his medical fitness to take either of the Honors options.

2. **Sports Achievement and Leadership Assessment** from the applicant's secondary school Principal, in collaboration with his physical education director, to supply information regarding the applicant's sports achievements, his leadership ability, and his general personality development. Applicants for the Honors Recreation Option should be rated also on any previous experience in music, drama, crafts and hobbies, dancing and camping.

3. It is advisable but not essential to possess a Life Saving Certificate and to select as a Grade XII option either Business Practice or Music.

The Physical and Health Education Option is accepted by the Department of Education of Ontario as the academic qualification for the High School Assistant's Certificate, Type A, Physical Education.

The Recreation Option is accepted by the Department of Education of Ontario as the academic requirement for the High School Assistant's Certificate, Type B.

Both Options lead to the Honors B. A. degree.

Second Year

Subjects	*Subjects*
English 35.	English 29
Physical, Health, and Recreation Ed. 251, 258, 266.	Psychology 36.
	Zoology 21.

Note: Consult the Head of the Department before selecting either the Physical and Health Education Option or the Recreation Option.

(a) Physical and Health Education Option

Third Year

For admission to the Third Year an average of 66% is required in the Honors subjects of the second year, and an average of 60% in all other subjects.

Economics 28.
Geography 20.
Home Economics 31 (lectures only).
Mathematics 35.
Philosophy 32.
Physical, Health, and Recreation Ed. 351, 352, 353, 354, 356.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Honors subjects of the Third Year, and an average of 60% in all other subjects.

Subjects

Economics 42a, 42b.
Psychology 49.
One course in History or Geography (to be selected in consultation with the Head of the Department, in accordance with the aim of a connected course in Social Studies).
Physical, Health, and Recreation Ed. 382, 450, 451, 453, 454, 457.

(b) Recreation Option

Third Year

For admission to the Third Year an average of 66% is required in the Honors subject of the Second Year, and an average of 60% in all other subjects.

Economics 28.
English 36.
One course of options to be approved by the Head of the Department.
Philosophy 32.
Physical, Health, and Recreation Ed. 353, 371, 372, 375, 376, 382.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Honors subjects of the Third Year, and an average of 60% in all other subjects.

Economics 42a, 42b.
Psychology 49.
One course of options to be approved by the Head of the Department.
Physical, Health, and Recreation Ed. 450, 473, 476, 479, 483.

Physics

(See Chemistry and Physics, and Mathematics and Physics)

Psychology

(This course is offered in University College only)

Requirements for Admission: Group 2, page 27, with at least 60% in Economics and 60% in Psychology.

Second Year

Subjects

English 35 or 44.
Geology 21 or Physics 11 or Zoology 11 (one not chosen previously).
Philosophy 20 or 30.
Psychology 234, 235, 236.
One other course approved by the Dept. of Psychology.

Third Year

For admission to the Third Year an average of 66% is required in the Psychology of the Second Year, and an average of 60% in all other subjects.

Psychology 337, 338, 339, 349, 355.
Two optional courses approved by the Dept. of Psychology.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Psychology of the Third Year, and an average of 60% in all other subjects.

Philosophy 42
Psychology 444, 446, 448, 459.
Two optional courses approved by the Dept. of Psychology.

Social Science

Requirements for Admission: Junior Group 2, page 27, with 60% in Economics and Psychology, with History 14 or 20 in place of Business 20, and Zoology 11 chosen in preference to Physics 11.

Second Year

Subjects

Economics 228, 229, 233.
Philosophy 230.
Psychology 234, 235, 236.

Third Year

For admission to the Third Year an average of 66% is required in the Honors courses of the Second Year.

Ursuline College students may count one course in Religious Knowledge (other than 10x) in each of the Third and Fourth Years.

Economics 332, 346, 348.
History 30 (or History 36 if 20 has been chosen in Junior Group 2).
Psychology 339, 349, 355.
Economics 42b or Philosophy 336 or 347 or Psychology 337 or 338.

Fourth Year

For admission to the Fourth Year an average of 66% is required in the Economics and Psychology of the Third Year, and an average of 60% in all other subjects.

Economics 449, 450, 453, 478. .
Philosophy 443, 462.
Psychology 446, 448.

DIPLOMA COURSES

(i) Business Administration

Requirements for Admission: Graduation in some field other than Business Administration from a recognized college or engineering school, including The Royal Military College. Successful business experience, in lieu of academic training, may be considered.

An average of 60% in this one-year course is required for the diploma in Business Administration. Those who obtain 66% may proceed to an M.B.A. degree in one additional year's work.

Subjects

Business:
551 (Marketing).
553 (Finance).
554 (Production Policy).
558 (Administrative Practices).
557 (Control).
A staff-supervised field-trip to industrial plants.

For detailed information about Graduate Courses in the School of Business Administration, consult the Announcement published by that school.

(ii) Journalism

Requirements for Admission: Graduation from a recognized college, with a degree in some field other than Journalism.

Candidates for the Diploma in Journalism will take the prescribed courses and do special assignments in reporting, writing and editing.

An average of 60% in this course is required for the Diploma.

Subjects

Journalism 355, 360, 365, 400, 450, 460.
Two of: Journalism 370, 375, 455.

DESCRIPTION OF COURSES

BOTANY

University College

Professors: NELSON C. HART, M.A., F.A.A.A.S., F.A.G.S., Head of the Department; ANSON R. WALKER, M.A., F.A.A.A.S. (Professor of Plant Pathology.

Associate Professor: DUNCAN A. MCLARTY, Ph.D.

Honorary Lecturers: R. A. LUDWIG, B.S.A., M.Sc., Ph.D., W. H. MINSHALL, B.S.A., M.Sc., Ph.D.

Instructors: FRANKLAND S. COOK, B.A. *Plant Culture*: JOHN K. JOHANNESEN, Diploma (Copenhagen).

Demonstrators: MRS. ROY ALLIN, B.A., ELIZABETH PRESTON, B.Sc.

Waterloo College

Professor: B. W. KELLEY, M.Sc.

Assistant Professor: H. K. ELLENTON, M.A.

11aN. **Elementary Botany:** For students of the Home Economics Course; the basic principles of Botany, including a brief survey of the plant kingdom. 2 lectures, 3 laboratory hours a week, one term: half course.

20. **Introductory Botany:** For students of the General Course, Group 1; the general principles of Botany. **To qualify for the Honors Courses in Biology a student must obtain 60 per cent. in Botany 20.**
2 lectures, 3 laboratory hours a week.

22b. **Plant Culture:** The elementary principles of plant growth, propagation and care, with particular reference to plants of the garden and home. 3 lectures, 3 laboratory hours a week, one term.
Prerequisites: Botany 20 or Botany 11aN (60%) or Zoology 11 (60%).

23a. **Plant Ecology:** The relationship between plants and their surroundings, including the recognition and classification of common plants.
2 lectures, 4 laboratory hours a week, one term.
Prerequisites: same as for 22b.

31a. **Plant Diseases and Fungi:** The recognition of poisonous and edible fungi and the identification, cause and control of common plant diseases. 2 lectures, 4 laboratory hours a week, one term.
Prerequisites: Botany 23a and 22b, or Botany 20, or Botany 11aN (60%), or Zoology 11 (60%).

36b. **Elementary Bacteriology:** The common economic organisms in reference to: Water, food supplies, public health and civic problems. Prescribed for second year students in Home Economics: optional for others.
Prerequisites: as in 31a. 2 lectures, 4 laboratory hours a week.

43b. **Plant Taxonomy:** The recognition and classification of the common garden and field plants with special reference to adaptations to environment and distribution. 2 lectures, 4 laboratory hours a week, one term.
Prerequisite: Botany 23a.

Honors Courses

250. **The Vascular Plants:** The morphology, anatomy and development of the Pteridophyta and Spermatophyta, stressing the Seed Habit.
Prerequisite: Junior Group 1. 2 lectures, 3 laboratory hours a week.

347. **Historical Biology:** See Zoology 347. 2 hours a week.

352a. **Plant Physiology:** The function and reactions of plants and their organs. 2 lectures, 6 laboratory hours a week, one term.
Prerequisite: Botany 250.

354b. **Cytology:** A study of the structure and functions of cells and tissues, including the techniques of preparing materials for cytological studies. 2 lectures, 6 laboratory hours a week, one term.
Prerequisite: Botany 250.

361. **Mycology and Plant Pathology:** Plant diseases and classification, morphology and structure of the fungi.
Prerequisite: Botany 250. 1 lecture, 2 laboratory hours a week.

452. **Advanced Plant Physiology:** Special emphasis on biochemical and physical reactions in plants. Optional for fourth year Honors and graduate students. 2 lectures and 6 laboratory hours a week, one term.

453a. **Plant Ecology:** The structure of vegetation and its relation to the environment. 2 lectures, 6 laboratory hours a week, one term.
Prerequisite Botany 250.

453b. **Plant Geography and Taxonomy:** The principles of taxonomy and the identification and distribution of plants.
2 lectures, 6 laboratory hours a week, one term.
Prerequisite: Botany 453a.

454b. **Plant Anatomy:** The anatomy and histology of the Pteridophyta and Spermatophyta, including some Palaeobotany.
2 lectures, 6 laboratory hours a week, one term.
Prerequisite: Botany 352a.

455. **Genetics:** See Zoology 455. 2 hours a week.

460a. **Cryptogamic Botany, Algae:** The morphology, evolution and classifications of the Algae.
2 lectures, 6 laboratory hours a week, one term.

Prerequisite: Botany 352a.

460b. **Cryptogamic Botany, Origin of a Land Flora:** General consideration of the evolution of land plants based largely on the studies of the liverworts and mosses. 2 lectures, 6 laboratory hours a week, one term.

Prerequisite: Botany 460a.

461a. **Advanced Mycology and Plant Pathology:** A continuation of 361, with special emphasis on groups of economic importance.
2 lectures, 6 laboratory hours a week, one term.

Prerequisite: Botany 361 or 461a.

466b. **Bacteriology:** The culture classification and life histories of selected groups of bacteria. 2 lectures, 6 laboratory hours a week, one term.

Prerequisite: Botany 361 or 461a.

Graduate Courses

552. **Plant Physiology** (Cook).
553. **Plant Geography** (Hart).
554. **Advanced Plant Cytology** (McLarty).
555. **Plant Genetics** (McLarty).
556. **Applied and Economic Botany** (Hart).
559. **Research Problems** (Staff).
561. **Advanced Phytopathology** (Walker).

BUSINESS ADMINISTRATION

University College

(See the School of Business Administration Announcement.)

Waterloo College

Assistant Professor: H. O. J. OVERGAARD, B.A., M.S.
Lecturer: PAUL KRAUEL, C.A.

20. **Introduction to Business Organization:** 3 hours a week.

30. **Accounting and Bookkeeping:** Prescribed for Secretarial Science students. 2 hours a week.

36. **Business Mathematics.** 2 hours a week.

250. **Fundamentals of Accounting:** 3 hours a week.

Information concerning Graduate Courses in Business Administration and additional information concerning undergraduate courses will be found in the School of Business Administration Announcement. A copy may be obtained on request.

CHEMISTRY

University College

Professors: J. A. GUNTON, Ph.D., F.C.I.C., Head of the Department; JAMES W. BURNS, M.Sc., F.C.I.C., Professor of Organic Chemistry.

Associate Professors: K. W. HUNTEN, M.Sc., Ph.D., F.C.I.C.; F. L. M. PATTISON, Ph.D., A.R.I.C.; C. SIVERTZ, M.Sc., Ph.D.; J. K. WATSON, Ph.D. M.C.I.C.

Honorary Professor: HUBERT MARTIN, D.Sc., A.R.C.S., F.R.I.C.

Honorary Lecturers: CHARLES R. ENGEL, Chem. Ing., D.Sc.; ELVINS Y. SPENCER, Ph.D.

Senior Demonstrator: NORAH WILSON (MRS. J. C. A.), B.A.

Demonstrators: KEITH F. JENNINGS, B.Sc.; GEORGE JUST, Ing. Chem.; JAMES NORMAN, B.Sc., JAMES F. MILLINGTON, B.Sc.

Fellows and Scholars: J. RUSSELL ROBINSON, M.S.A. (C.I.L.); RICHARD D. O'BRIEN, B.Sc. (C.I.L.); WALTER C. HOWELL, M.Sc. (O.R.C.); ALEX. HARRISON, B.Sc. (O.R.C.)

Research Assistant: STUART B. D. HUNT, M.Sc. (D.R.B.)

Waterloo College

Professor: B. W. KELLEY, M.Sc.

Assistant Professor: H. K. ELLENTON, M.A.

11N. **General Chemistry for Home Economics and Nursing students.** 2 lectures, 3 laboratory hours a week.

20. **General Chemistry and Qualitative Analysis:** For Junior Group 1. 2 lectures, 3 laboratory hours a week.

22. **Analytical:** For Home Economics, Nursing and General Course students. 2 lectures, 3 laboratory hours a week.

Prerequisite: Chemistry 20 or 11N.

33. **Organic Chemistry:** For Home Economics and General Course students. 2 lectures, 3 laboratory hours a week.

Prerequisites: Chemistry 20 or 11N.

44. **Physical Chemistry:** For General Course students. 2 lectures, 3 laboratory hours a week.

Prerequisites: Chemistry 20 and 22.

46. **Biochemistry and Food Analysis:** For Home Economics and General Course students. 2 lectures, 3 laboratory hours a week.

Prerequisites: Chemistry 22 and 33.

Honors Courses

The student in both Honors Chemistry and Honors Chemistry and Physics may be required to write a comprehensive examination at the end of the fourth year.

200. **Second Course in Chemistry:** For students in Honors Chemistry, Chemistry and Physics, Biology, Geology; chemical principles.
2 lectures, 3 laboratory hours a week.

203M. **Organic Chemistry:** For prospective medical students.
2 lectures (both terms) and 3 laboratory hours (one term) a week.

204M. **Physical Chemistry:** For prospective medical students.
2 lectures (both terms) and 3 laboratory hours (one term) a week.

251. **Treatment of Experimental Data:** For students in Honors Chemistry. 1 lecture, 2 laboratory hours a week.

252. **Quantitative Analysis:** For students in Honors Chemistry and Honors Chemistry and Physics.
First term: 1 lecture, 3 laboratory hours a week;
Second term: 1 lecture, 6 laboratory hours a week.

303. **Organic Chemistry:** For Honors Biology students.
2 lectures, 3 laboratory hours a week.
Prerequisites: Chemistry 20.

353. **Organic Chemistry:** For students in Honors Chemistry and Honors Chemistry and Physics. Lectures and Laboratory exercises dealing with carbon compounds. 2 lectures, 4 laboratory hours a week.
Prerequisites: Chemistry 20 and 200.

354. **Elementary Physical Chemistry:** For students in Honors Chemistry and Physics. A systematic derivation of the principles which govern reactions in chemical systems. 3 lectures, 6 laboratory hours a week.
Prerequisites: Chemistry 200 and either Chemistry 251 or Physics 251.

406. **Biochemistry:** For Honors Biology students.
2 lectures, 3 laboratory hours a week.
Prerequisites: Chemistry 200, 303.

452. **Advanced Analytical Chemistry:** Instrumental analysis; microscopy and semi-micro Quantitative Analysis.
1 lecture, 3 laboratory hours a week.

453. **Advanced Organic Chemistry:**
3 lectures, 3 laboratory hours a week.
Prerequisite: Chemistry 353.

454. **Physical Chemistry:** Thermodynamics and Kinetic Theory of Matter. 3 lectures, 3 laboratory hours a week.
Prerequisite: Chemistry 354.

457. **Tutorial:** Technical report-writing; chemical literature and patents and modern topics. 1 hour a week: half course.

458. **Seminar:** Presentation of papers on topics selected from the current chemical journals, dealing with the more recent and fundamental developments of the science; prescribed for fourth year Honors Chemistry students and desirable for all students majoring in Chemistry. Half course.

459. **Research:** Special topics and laboratory methods in the field of the student's individual interest. The second term will be devoted to a research problem upon which a report will be required as a senior thesis. 6 hours a week.

Courses Leading to M.Sc. and Ph.D. Degrees

551. **Inorganic** (Gunton and Watson).

552. **Analytical** (Gunton and Sivertz).

553. **Organic** (Burns, Engel, Pattison and Spencer).

554. **Physical** (Sivertz and Hunten).

The courses above comprise the fundamental aspects of Chemistry on which major emphasis will be placed. Tutorial and lecture methods of study will be used.

550. **Colloid and Surface Chemistry** (Hunten).

556. **Biochemistry** (Watson).

557. **Electrochemistry** (Hunten).

558. **Seminar:** Staff.

559. **Research and Thesis Work:** Staff.

GREEK

1. **Elementary Greek:** A preparatory course leading up to the standard of Matriculation (omitting Homer) for those who wish to begin the study of Greek after entering the University.

In order that this course may count towards a degree, Greek must be studied for three years. Arts students, on completing this course, will take Greek 10 and 20. Theological students, on completing this course, will take Greek 25x and 35x. (See Huron College courses.) 3 hours a week.

10. Plato, Selected Dialogues; Colson's *Greek Reader Part VIII;* composition, sight translation. 3 hours a week.

Prerequisite: Grade XII Greek or Greek 1.

20. Plato, *Crito;* Euripides, *Alcestis;* Xenophon, *Oeconomicus;* Demosthenes, *In Cononem;* composition, sight translation. 3 hours a week.

Prerequisites: Greek 10 or Grade XIII Greek.

29. **Greek Literature in English Translation:** A survey of Greek literature for those without a reading knowledge of Greek.

1 hour a week: half course.

30. Plato, *Apology;* Aristophanes, *Clouds;* Homer, selections from the *Iliad* and the *Odyssey;* lectures on the social, religious and political life of Athens in the fifth century, B.C.; composition, sight translation.

Prerequisite: Greek 20. 3 hours a week.

40. Aeschylus, *Prometheus Vinctus;* Euripides, *Medea;* Sophocles, *Oedipus Tyrannus, Antigone;* lectures on the theatre and the development of the drama; composition, sight translation.

Prerequisite: Greek 30. 3 hours a week.

Honors Courses

Comprehensive examinations will be set for all Honors students at the end of the fourth year.

Sight translation is an integral part of each of the courses in Greek Authors.

230. Plato, *Apology;* Aristophanes, *Clouds, Wasps;* public, social and political life of Athens in the fifth century, B.C.
Prerequisite: Group 4, page 28. 2 hours a week.

250. **The Greek Epic:** Selections from the *Iliad and the Odyssey.*
Prerequisite: Group 4, page 28. 1 hour a week: half course.

251. **Syntax and Composition:**
Prerequisite: Group 4, page 28. 1 hour a week: half course.

257. **Ancient Civilizations:** The Near-East, Greece and Rome. Identical with Latin 257 and History 257. 3 lectures a week.

340. **Greek Tragedy:** Sophocles, *Oedipus Tyrannus, Antigone;* Aeschylus, *Prometheus Vinctus;* Euripides, *Medea.* Lectures on the theatre and the drama. 2 hours a week.
Prerequisite: Greek 230.

350. **I: Introduction to the Greek Historians:** Herodotus.
II: The Attic Orators: Lysias and Demosthenes.
Prerequisite: Greek 230. 2 hours a week.

351. **Syntax and Composition:** 1 hour a week: half course.
Prerequisite: Greek 251.

352. **Introduction to Greek Philosophy:** Plato, *Republic, I-IV.*
Prerequisite: Greek 230. 1 hour a week: half course.

450. **The Greek Historians:** Thucydides.
Prerequisites: Greek 340, 350. 2 hours a week.

GEOLOGY

University College

Professor: G. H. REAVELY, M.A., D.I.C., Head of the Department.
Associate Professor: G. G. SUFFEL, M.Sc., Ph.D.
Assistant Professor: A. DREIMANIS, M.Nat.Sc.
Lecturer: R. J. UFFEN, Ph.D., P.Eng.
Part-time Instructor: GEORGE THEOKRITOFF, M.Sc., A.R.S.C.

Waterloo College

Professor: B. W. KELLEY, M.Sc.
Assistant Professor: H. K. ELLENTON, M.A.

20. **Introductory Course in Geology:** Minerals and rocks; geological processes and their results; structure of the earth; practical application of geology; fossils and their use; an outline of the earth's history. Laboratory work will consist of the study of specimens of the more common rocks and minerals, typical fossil specimens, the interpretation of geological maps and topographical maps. Field trips.
2 lectures and 2 laboratory hours a week.

21. **Geological Science:** A survey of the Geological Sciences; the relation of Geology to the other sciences, and its economic significance, with emphasis on topics of local interest. 2 lectures and 1 demonstration a week.

Honors Courses

251. **Mineralogy:** Crystallography, physical and chemical properties of minerals. The description and study of about 150 common species, with considerable practice in identification, including blowpipe analysis.
1 lecture, 4 laboratory hours a week.

252. **Petrography:** Megascopic descriptions of the common, igneous, sedimentary and metamorphic rocks. Practice is given in identification through the study of numerous specimens. 2 hours a week: half course.

256. **Drafting:** The principles of elementary printing and drawing and the preparation of simple geologic plans and sections.
3 laboratory hours a week: half course.

263. **Invertebrate Palaeontology and Principles of Stratigraphy:** An introduction to the morphology and classification of fossil invertebrates; the principles of Stratigraphy illustrated by the Palaeozoic Section of Eastern Canada. 2 lectures, 2 laboratory hours a week.

351. **Optical and Descriptive Mineralogy:** The principles of optics as applied to the identification of minerals; the study of about 150 rock-forming mineral species, with practice in their identification in hand specimen and in thin section. 2 lectures, 3 laboratory hours a week.

354. **Origin and Formation of Mineral Deposits:** The origin of mineral deposits and a study of the principal processes involved in their formation, with a brief mention of prominent examples. Laboratory time will be devoted to readings on the theory of ore deposition as well as to the acquisition of the technique of polished section preparation and examination.
1 lecture, 2 laboratory hours a week.

356. **Surveying:** The principles of simple plane surveying. Stress is laid on the use of the plane-table. The principles of drafting are included and practice in map layout is given. Offered in alternate years, next in 1954-55. 1 lecture, 3 laboratory hours a week.

363. **Stratigraphical Palaeontology and Stratigraphy of North America:** The development of North America and a study of the successive faunas, including micro faunas. Laboratory work will include field trips.
2 lectures, 2 laboratory hours a week.

365. **Precambrian Geology of the Canadian Shield:** General geology of the sub-provinces and principal mining districts; particular attention is given to important productive areas.
1 lecture, 1 hour class-study a week: half course.

452. **Petrography and Petrology:** The principles and theories of igneous, sedimentary and metamorphic rock genesis; stress is laid on diversification in igneous magmas; the classification of rocks is discussed, with practice in rock identification, particularly in thin section.
2 lectures, 3 laboratory hours a week.

454. **Economic Mineral Deposits:** A study of examples of the principal types of economic mineral deposits, with special reference to Canadian occurrences; laboratory work will be divided between a study of ore suites

and selected reading from original sources; considerable emphasis will be placed on the study of ores with the ore microscope.
1 lecture, 5 laboratory hours a week.

455. **Structural Geology:** Primary and induced structures in igneous, sedimentary and metamorphic rocks; the physical properties of rocks and the effects of stress application; the interpretative value of various minor structures; relations between structure and topography; earth's structure and mountain building. Laboratory work will include the interpretation of geologic structures on maps. Offered in alternate years, next in 1953-4.
2 lectures and 2 laboratory hours a week.

457. **History of Geology:** Selected readings and discussions pertaining to the history and development of the various geological sciences. Essays will be required. Class will meet by arrangement. Half course.

458. **Senior Research and Field Report:** A report on geological field work carried on by the student, including the results of laboratory investigation and a study of available literature. Where summer field work has not been undertaken, a research problem will be arranged.

460. **Seminar:** Presentation and discussion of papers on various geological subjects, particularly those of current interest.
2 hours a week: half course.

463. **Advanced Morphological Palaeontology:** An advanced treatment of fossil invertebrates. 1 lecture, 3 laboratory hours a week.

465. **Geophysics:** An introductory course in the various geological problems associated with gravity, magnetism, seismology, radioactivity, and the internal constitution of the earth, with applications to geophysical exploration. 2 lectures and 2 laboratory hours a week.

467. **Glacial and Pleistocene Geology:** Glaciers and their geologic work; glacial and extraglacial deposits, their structure and texture and landscape forms; Pleistocene stratigraphy with emphasis on eastern North America and development of Glacial Lakes; economic aspect of Pleistocene deposits. Laboratory work will consist of field trips, studies of collected materials, map exercises, readings and discussion of reference papers.
1 lecture, 2 laboratory hours a week: half course.

Courses Leading to M.Sc. Degree

The following courses are designed to provide graduate study. Not all of them will necessarily be given in 1953-54.

532. **Sedimentation** (Dreimanis).
536. **Hydrogeology** (Dreimanis).
552. **Advanced Petrology** (Reavely).
554. **Economic Geology** (Suffel).
567. **Advanced Glacial and Pleistocene Geology** (Dreimanis).
569. **Research and Thesis** (Staff).
570. **Graduate Seminar** (Staff).

31. **Conversation, Dictation, Grammar.**
Prerequisite: German 20. 1 hour a week: half course.

35. **Intermediate Scientific German:** The reading of scientific works in German and a review of basic grammatical constructions as an aid to reading. Prescribed for third year honors science students. 2 hours a week.
Prerequisite: German 5 or Grade XII (Middle School) German.

40. **Outline of Classical German Literature.** 2 hours a week.
Prerequisite: German 30.

41. **Prose Composition, Conversation, Grammar.**
Prerequisite: German 31. 1 hour a week: half course.

45. **Advanced Scientific German:** The reading of scientific works in German. Prescribed for fourth year honors science students.
1 hour a week: half course.
Prerequisite: German 35 or Grade XIII (Upper School) German.

Honors Courses

All students in Honors Courses will take comprehensive examinations at the end of their final year.

290. **German Romanticism.** 3 hours a week.
Prerequisite: Junior Group 4, see page 28.

291. **Grammar, Conversation, Composition, Phonetics.**
Prerequisites: Junior Group 4, see page 28. 2 hours a week.

333. **Middle High German Language and Literature:** with an introduction to Germanic philology. 2 hours a week.

390. **German Realism.** 3 hours a week.

391. **Grammer, Conversation, Composition.**
Prerequisite: German 291. 2 hours a week.

420. **Contemporary German Literature.** 2 hours a week.

480. **German Classicism.** 3 hours a week.

481. **Grammar, Conversation, Composition.** 2 hours a week.
Prerequisite: German 391.

Graduate Courses

Note: Not more than one graduate course will be given by any instructor in any year.

513. **Gothic** (Weyl).

533. **Middle High German Literature** (Allen).

MUSIC

University College

Faculty: HARVEY ROBB, Head of the Department; G. E. COLE, Mus.M.; EDWARD DALY, B.A., Mus. Bac.; CLIFFORD POOLE; MARGARET PARSONS POOLE; ALFRED ROSÉ, B.A.

Waterloo College

THE REVEREND ULRICH LEUPOLD, Ph.D.

Music Options

Three courses in Music permit students of the University to expand their knowledge of music and improve their performance. Application should be made to the Principal of University College to ascertain where these options will be counted in Junior Group 2, 3 or 4, in Senior Group B, and in Honors and specialized courses. Substitution for a prescribed subject in any year of an Honors course must have the concurrence of the head of the Department concerned.

Through auditioning, the professor in charge of each course in Music will assess each condidate's prerequisite and outline the nature of the assignments for the year. The subjects presented are theory, history of music and applied music, i.e. lessons in piano, voice or violin, etc. Two of the three subjects must be chosen in order to obtain college credit. Whenever private lessons are involved, tuition fees will be the student's responsibility.

10. **History of Music:** Music in the ancient world, in the early Church, in the Middle Ages, in the Renaissance; the overture to the baroque; the 17th and 18th centuries; Bach and Handel.

Theory, first course: Elementary Rudiments and Harmony: knowledge of major and minor scales, time signatures, intervals, embellishments, primary triads, cadences, phrase and sentence structure as demarcated by cadence.

20. **History of Music:** Haydn, Mozart, Beethoven, Schubert, the early Romantic composers, Mendelssohn, Schumann, Berlioz, Chopin and piano music, Liszt, the predecessors and contemporaries of Wagner.

Theory, second course: Harmony, chord connection, primary and secondary triads, realization of figured bass, harmonization of melody, study of two and three-part song forms and sonatina.

30. **History of Music:** The later Romantics; Brahms, Wolf, Strauss; César Franck; Bruckner, Mahler; Nationalism in Music; the musical impressionists; Debussy, Ravel; the 20th century.

Theory, third course: Harmony: seventh chords, non-chord tones, simple modulation, study of Sonata-Allegro form.

For additional Music Courses, see page 109.

Note: In University College, Philosophy 230 is a prerequisite for all Honors Courses in Philosophy; Philosophy 20 or 30 is a prerequisite for all Pass courses in Philosophy except 31, 32, 42.

20. **Philosophy and Human Problems:** This course is concerned with ethical, logical, aesthetic, religious, educational and political types of problems. Its purpose is to help students to understand what is involved in these problems and to appreciate some of the solutions provided by the great thinkers of the past and present. This course is not to be selected by anyone who is taking or has taken another course in Philosophy. 3 hours a week.

30. **Basic Philosophical Literature:** A critical survey of a selected group of Philosophical classics, ancient and modern. 2 hours a week.

31. **Logic:** Semantics and the analysis of meaning; formal and symbolic logic and the analysis of validity; problems of scientific method. Emphasis is on the acquisition of logical skills. 2 hours a week.

32. **Philosophy and Science:** This course provides an opportunity to examine some of the basic implications of science and to study some of the fundamental ideas in fields other than the natural and the social sciences. This course was formerly Philosophy 21 and no student who has taken that course should select Philosophy 32. 2 hours a week.

35. **Aesthetics:** Lectures and seminars on the history of Aesthetics,

* On leave, 1952-53.

Aesthetic problems, and Aesthetics as the foundation of criticism.
2 hours a week.

36. **Ancient Philosophy:** A survey of the principal developments from the Presocratics (600 B.C.) to Plotinus (250 A.D.) and of their contributions to our cultural heritage. Primary emphasis will be placed on the critical reading of selected original sources. 2 hours a week.

42. **Introductory Ethics:** A critical inquiry into the possibility and nature of ethical standards, the methods by which they may be known, and their applications to concrete problems of personal and social morality.
2 hours a week.

43. **Philosophy of Religion:** The nature of religion; the growth of religious experience; important types of religious philosophy.
2 hours a week.

47. **Modern Philosophy:** A critical examination of basic philosophical literature from the 16th to the 19th centuries. 2 hours a week.

Honors Courses

The following courses are identical with the Pass courses indicated, except that additional assignments will be required: 231 (31), 335 (35), 336 (36), 347 (47), 443 (43).

230. **Basic Philosophical Literature:** An examination of the principal problems and issues, methods and attitudes, theories and solutions, terms and concepts, of philosophy, as exemplified in selected philosophical classics. For Honors students in any department. 2 hours a week.

350. **Philosophical Texts:** An examination of specified source materials in Greek and Modern Philosophy; critical works will also be studied. 2 hours a week.

454. **Principles and Problems of Philosophy:** Philosophical problems, related to the special interests of members of the class, will be discussed. 1 hour a week: half course.

456. **Seminar in Plato and Aristotle.** 2 hours a week.
Prerequisite: Philosophy 336.

457. **Seminar in Modern Philosophy.** 2 hours a week.
Prerequisite: Philosophy 347.

458. **Seminar in Contemporary Philosophy.** 2 hours a week.

462. **Ethics:** A critical study of moral problems and theories. The course will be based on readings selected from the classics of ethical literature from Aristotle to the present. 2 hours a week.

466. **Seminar in Post-Aristotelian and Mediaeval Philosophy.**
Prerequisite: Philosophy 336. 2 hours a week.

The Medical Examination (University Health Service)

The medical examination serves several very useful functions:

1. It provides a student with the opportunity to discover the strengths and limitations of his physical make-up and thereby aids in the guidance program.
2. Such guidance takes the form of determining an academic load for physically handicapped students which will depend on findings relative to their physical capabilities.
3. Such guidance will aid the physical education department in its efforts to provide an individualized program, whether it be one of correction

of remediable defects or of encouraging participation in sound recreation.

Health Education (Health Service)

This phase of the program is handled in specific classes by the University Health Service, in the freshman year.

Service Program

In 1950 the University inaugurated a one-year service program of physical education and recreation. An incoming student may be exempted from any activity in which he or she passes a test. Students must fulfill requirements in areas where they are deficient. All students are encouraged to elect Physical Education during each year at the University.

Five weeks of satisfactory work (or the passing of a test) will fulfill requirements in each of the following activities:

1. **Aquatics:** swimming, life saving, and water safety.
2. **The Individual Program and Physical Fitness:** body mechanics, corrective exercises for strength and endurance.
3. **Gymnastics:** shoulder girdle development; agility, strength and balance.
4. **Leisure Skills:** individual and dual games and sports.
5. (a) For men: **Combatives:** wrestling.
   (b) For women: **The Dance:** (folk, square and ballroom).

The Elective Program

The elective program, which starts for every student at some point in the freshman year, can be grouped into the following three categories:

Intramural Athletics: competitive athletics are recommended by the Department for every physically able student.

Intercollegiate Athletics: opportunity for physical, mental, and social development, for those with the ability and the interest to realize the benefits to be derived from the intercollegiate program under the leadership of skilled coaches possessing a sound educational background.

Individual Recreation Program: All students are encouraged to develop skills and interests in the many activities of the individual recreation program. "Recreation assists man to become an artist in living."

Regulations regarding Credit for Physical Education

All students may take Physical Education for credit each year. Although they do not have to elect an approved activity in the freshman year for each of the classification tests which they pass, they may do so in order to qualify for credit towards a degree. In the freshman year, as in later years, approved activities for Physical Education are life saving, first aid, the individual program, and intercollegiate sports:

(1) For Men—football, basketball, hockey, swimming, wrestling, soccer, track and field.

(2) For Women—swimming, basketball, badminton, archery, tennis, volleyball.

Courses Offered

10. Prescribed for all men and women in their first intramural year who cannot pass each of the five classification tests.

2 hours a week: prescribed course.

20, 30, 40. Elective for men and women in the second, third and fourth years, respectively. Hours scheduled by arrangement: half course.

(1) First Aid: Elementary course, second term: 2 hours a week, 8 weeks.

(2) Life Saving and Water Safety: second term, starting early in March. 4 hours a week, 5 weeks.

(3) Individual Physical Education: Classes will be conducted as possible for students who require individual corrective physical education, on recommendation of the University Physician.

(4) Intercollegiate Sports (for men and women): see the list previously printed. Team practices are generally held in the late afternoon, with contests scheduled on weekends, insofar as possible.

Honors Courses

For the convenience of readers, the following courses are listed numerically. According to subject-matter they are divided into the following categories:

Administration—352, 372, 375, 382;
Applied Science—354, 453, 454, 457;
Interpretation and History—258, 450, 479;
Leadership—266, 353, 356, 376, 476;
Program—251, 351, 371, 451, 473, 483.

251. **Team Games, Individual and Dual Activities:** for men—football, group games, basketball, aquatics, track and field, officiating, volleyball, gymnastics, badminton, handball, squash racquets; for women—archery, track and field, group games, volleyball or basketball, badminton, folk dancing, square and ballroom dancing, swimming, gymnastics.

2 lectures and 6 laboratory hours a week.

258. **History of (and Introduction to) Physical, Health, and Recreation Education.** 2 lectures a week.

266. **Teaching Methods in Physical, Health, and Recreation Education.** 2 lectures a week (laboratory as required).

351. **Team Games, Individual and Dual Activities:** for men—football, track and field, hockey, folk and square dancing, soccer, basketball, aquatics, gymnastics; for women—tennis, golf, group games (1952-53 only), volleyball or basketball, folk dancing, modern dancing, swimming, skating.

1 lecture and 4 laboratory hours a week.

352. **Organization and Administration of Physical and Health Education.** 2 lectures a week.

353. **School Health Education.** 2 lectures a week.

354. **Functional Anatomy.**
1 lecture and 1 laboratory hour a week: half course.

356. **Student Teaching and Seminar:** group discussion; supervised observation; supervised participation in secondary schools.
1 lecture a week; 2 laboratory hours a week in the second term: half course.

371. **Social and Recreational Games.**
1 lecture and 1 laboratory hour a week: half course.

372. **Planning, Construction, and Maintenance of Recreational Facilities.** 2 lectures a week.

375. **Organization and Supervision of Crafts and Hobbies.**
1 lecture a week, field laboratory work.

376. **Supervised Field Work in Recreation.**
After-hour work: half course.

382. **Organization and Administration of Recreation.**
2 lectures a week.

450. **Principles of Physical, Health, and Recreation Education.**
2 lectures a week.

451. **Team Games, Individual and Dual Activities:** for men—Football, track and field, sports development exercises, gymnastics, aquatics, basketball, wrestling, baseball, stunts and tumbling; for women—two team sports, specialized training and experience in coaching, two individual or dual sports, and electives. 1 lecture and 4 laboratory hours a week.

453. **Corrective Physical Education, including Care and Prevention of Athletic Injuries.** 1 lecture and 2 laboratory hours a week.

454. **Physiology of Exercise and Kinesiology.**
2 lectures a week (laboratory as necessary).

457. **Tests and Measurements in Physical and Health Education.**
2 lectures a week (demonstrations and laboratory work as necessary).

473. **Activities for Special Groups:** pre-school children, adults, the handicapped, the aged, the various aspects of recreation in industry.
2 lectures a week (laboratory experience as required).

476. **Supervised Field Work in Recreation.**
After-hour work: half course.

479. **Seminar in Current Problems in Recreation.** 2 hours a week.

483. **Camping and Oudoor Education.**
2 lectures a week (laboratory as necessary).

Demonstrator: LOUISE ALLEN, B.Sc.

Waterloo College

Professor: B. W. KELLEY, M.Sc.

Assistant Professor: H. K. ELLENTON, M.A.

11. **Physical Science:** Lectures and lecture demonstrations designed (1) to present an historical review of the development of the physical sciences, with emphasis on principles rather than facts; (2) to develop some of the practical applications of physical science in the modern world; (3) to outline the present trends in science. Optional in Junior Groups 2, 3, 4 and in Senor Group B. 2 lectures, 2 laboratory hours a week.

12. **Basic Physics:** Selected topics from the field of Mechanics, Heat, Light, Electricity and Magnetism combined with lecture demonstrations and laboratory work presenting the fundamental basis of the science to students not intending to proceed to honors science courses. Not offered, 1953-4.

2 lectures, 3 laboratory hours a week.

20. **Mechanics and Heat:** A survey prescribed for students intending to major in some branch of science: demonstrations and laboratory exercises covering the following principal topics: systems of measurement; laws of uniformly accelerated motion; elementary analytic statics; rotational motion; simple harmonic motion; hydrostatics and hydrodynamics; surface tension; viscosity; osmosis; thermometry; temperature and its effects; gas laws; calorimetry; change of state; vapor pressure; hygrometry; elementary kinetic theory; first and second laws of thermodynamics, reversible cycles.

2 lectures, 3 laboratory hours a week.

Honors Courses

204. **General Physics:** Elementary Electricity and Optics including Elementary Geometrical and Physical Optics, current electricity, static electricity, magnetism and electro magnetism.
2 lectures, 3 laboratory hours a week.

204M. **General Physics:** An extension of Physics 20, prescribed for the students who have been selected by the Admissions Committee of the Faculty of Medicine for admission to the third year premedical course, and optional for those registered in Senior Group A. The course will include lectures, demonstrations, and laboratory work to illustrate the laws and principles of light, sound, electricity, magnetism and thermionics.
2 lectures, 3 laboratory hours a week, first term:
2 lectures a week, second term.

250. **Theoretical Physics I:** An introduction to vector calculus, with applications to mechanics; the theory of vibrations and waves; dimensional analysis. 2 lectures a week.

251. **Theory of Measurements:** Lectures and practical work on methods of treating data obtained in the laboratory, so as to obtain the greatest amount of useful information. The course includes a discussion of the basic ideas of probability, of chance distributions, and of precision indexes. 3 lectures and laboratory hours a week: half course.

254. **Light and Sound:** Lectures and practical work on elementary geometrical and physical optics, and on elementary sound.
2 lectures, 3 laboratory hours a week.

255. **Electricity and Magnetism:** Lectures on the principles of electricity and magnetism, including an introduction to electrical measurements.
2 lectures, 3 laboratory hours a week.

350. **Dynamics and Properties of Matter:** The lectures cover some aspects of properties of matter, damped and perturbed harmonic motion, central orbits, and the theory and application of the Lagrangian and Hamiltonian equations of motion. 3 lectures a week.

351. **Theoretical Physics II:** The Harmonic Analysis of Waveforms. The techniques of solution in various coordinate systems, of the partial differential equations commonly met in mathematical physics, together with an introduction to the eigenvalue approach to boundary value problems.
3 lectures a week.

353. **Advanced Heat and Thermodynamics:** A treatment of the laws of thermodynamics, heat engines, reversible cycles, change of state, radiation, kinetic theory of gases, with applications to various fields of physics, including surface tension and elasticity. 2 lectures a week.

356. **Electronics:** Similar to 376, with the addition of laboratory work throughout the year. 2 lectures and 3 laboratory hours a week: 3½ credits.

359. **Modern Experimental Physics:** Laboratory work designed to give training in the techniques of the advanced physics laboratory.
6 hours a week.

366. **Electronics:** Similar to 376 but with the addition of one term of laboratory work. 2 lectures a week throughout the year, 3 laboratory hours a week in the second term.

376. **Electronics:** A treatment of the underlying principles of the emission of electrons and of their behaviour in high vacuum tubes, gaseous tubes, cathode ray tubes and other devices; an analysis of rectifier circuits and of amplifiers. 2 lectures a week.

377. **Circuit Analysis:** An introduction to electric circuit analysis commencing with simple transient problems but chiefly concerned with the steady-state A.C. method. Impedance and admittance concepts, vector diagrams, resonance, systematic analysis of multi-branch networks and the specialised results of linear 4-terminal systems are considered in detail. Emphasis throughout is placed on communications rather than power aspects. 3 lectures a week.

379. **Laboratory:** Experiments on the elementary theory of vacuum tubes, the transient analysis of simple circuits, and elementary A.C. phenomena. Electrical measurements at audio and radio-frequencies. Design, and construction of power-supplies, audio amplifiers, attenuators and filters. Solution, by students in class, of problems arising from Physics 376 and 377. 9 laboratory hours a week.

454. **Advanced Optics:** An advanced treatment of theoretical and applied optics. 2 lectures a week.

455. **Theoretical Physics III:** A mathematical treatment of electrostatics and electromagnetism, with special emphasis on field theory and electromagnetic waves. 2 lectures a week.

456. **Atomic Physics.** A course designed to give a thorough knowledge of the fundamental particles and of the experimental basis for modern concepts of atomic and nuclear structure. 2 lectures a week.

457. **Introductory Quantum Mechanics:** The course stresses the physical ideas behind the wave-particle duality and probability interpretation, thus leading to Schroedinger's wave equation and its solution for tunnelling phenomenon, Hydrogen atom, and other problems. 2 lectures a week.

458. **Seminar:** Preparation of papers and reports: reading of historical essays and of articles from current magazines. Prescribed for fourth year students and optional for all students in the Mathematics and Physics course. 1 hour a week: half course.

459. **Laboratory:** Designed as an accompaniment to the lecture work of the fourth year. Emphasis is laid upon individuality of work and resourcefulness. As far as possible, training is given in research methods. 12 laboratory hours a week.

476. **Circuit Analysis and Applied Electronics:** (1) Use of operational methods of obtaining the complete (including transient) solution to electrical and analogous mechanical circuit problems, with emphasis on the direct and inverse Laplace Transformations; (2) a study of the motion

of electrons in electric and magnetic fields, with applications to devices such as the klystron, magnetron, ion accelerator, electron microscope.
2 lectures a week.

477. **Communication Circuits:** A study of the principles and applications of oscillatory circuits, modulators, detectors, etc., together with an analysis of transmission line and antenna design. 2 lectures a week.

479. **Laboratory:** Designed as an accompaniment to the lecture work of the fourth year Radio Physics Option. 12 hours a week.

Graduate Courses

502. **Physics of the Earth and Exploration Geophysics.** (Uffen).

504. **Theoretical and Applied Spectroscopy** (Nicholls).

550. **Quantum Mechanics** (Blackwell).

551. **Theory of Measurements** (Dearle).

552. **The Foundations of Physics** (Dearle).

554. **Generalized Coordinates** (Durnford).

556. **Nuclear Physics** (Brannen).

557. **Operational Methods in Physics** (Blackwell).

558. **Seminar** (Staff).

561. **Tensor Calculus and Relativity Theory** (Brannen).

562. **The Solid State** (Misener).

564. **Astrophysics** (Nicholls).

571. **Theory of Noise** (Dearle and Tull).

575. **Applied Electromagnetic Theory** (Blackwell).

The following courses are offered to graduate students who have already completed at least one year of graduate work:

650. **Theory of Atomic Collisions** (Nicholls).

655. **Electrodynamics** (Allen).

660. **Statistical Mechanics** (Blackwell and Brannen).

661. **Introduction to Group Theory** (Brannen).

672. **Theory and Applicaions of Semiconductors** (Tull).

Lecturers: F. C. PETERS, M.Sc., B.D.; H. W. WRIGHT, Ph.D., LL.D.

In University College, Psychology 20 or 30 is prerequisite to all other courses in psychology.

20. **Introduction to Psychology**: Contemporary psychological methods and tendencies; intelligence and intelligence testing; memory and the learning process; motivation; feeling and emotion; sensation and perception; types of thinking; personality. 3 hours a week.

30. **Principles and Methods**: A discussion of the motives, emotions, and intellectual abilities of human beings; special emphasis on the effective use of these factors in private and social activities. Open only to students who have neither had nor are taking Psychology 20 or Philosophy 31. 3 hours a week.

35. **Experimental Psychology I**: An elementary course designed to introduce the student to standard laboratory techniques in psychology; emphasis is placed upon learning, aesthetic judgment, motor aptitudes; a brief introduction to statistics. 2 lectures, 2 laboratory hours a week.

35S. Similar to Psychology 35, but abbreviated and condensed. Half course.

36. **Genetic Psychology**: Child development; native equipment; learning; character and personality development; child management and family relationships. 2 hours a week.

38. **Experimental Psychology II**: A laboratory study of such processes as sensation, perception, reaction times, emotions and the higher thought processes. 2 lectures, 2 laboratory hours a week.

* On leave, 1952-53.

39. **Problems in Clinical Psychology:** The clinical approach to mental hygiene; the development of Mental Health Clinics; mental testing; behavioral problems; factors promoting mental health. 2 hours a week.

46. **Applied Psychology:** The applications of psychological principles to problems in education and industry. 2 hours a week.

48. **Abnormal Psychology:** A consideration of abnormal activities in sensation, perception, memory, emotion, thought and behavior; mental deficiency; the causes and symptoms of the psychoneurotic disorders; some reference to major mental disorders; psychotherapeutic techniques including hypnosis and psychoanalysis; spiritism and extrasensory perception. 2 hours a week.

49. **Social Psychology:** The activities of living beings in response to their social environment. The conditioning of personality by the family and other groups; types of prejudice; leadership and prestige in social life; the mob; mental epidemics; propaganda; public opinion. 2 hours a week.

Honors Courses

Offered in University College only.

The following courses are identical with the Pass courses indicated, except that additional assignments will be required: 235 (35), 236 (36), 338 (38), 339 (39), 349 (49), 446 (46), 448 (48).

234. **Basic Problems in Psychology:** A critical examination of the more persistent problems in the history of psychology. 2 hours a week.

337. **Theory and Construction of Mental Tests:** Discussion of basic considerations in mental measurement; description and evaluation of typical measuring instruments and their uses; consideration of persistent problems in the field of mental measurement. 2 hours a week.

355. **Statistics:** The application of common statistical procedures to psychological data. 2 hours a week.

444. **Modern Systems of Psychology:** A critical examination of some modern systems of psychology: Structuralism, Functionalism, Behaviorism, Purposivism, Gestalt Psychology, Psychoanalysis. 2 hours a week.

459. **Research Problems:** A seminar course in which students will select topics for special investigation. 3 hours a week.

Courses Leading to the Degree of M.A.

550. **Personality and Personality Problems.**
552. **Advanced Genetic Psychology** (Wright).
555. **Advanced Clinical Methods** (Neal).
556. **Problems in Industrial Psychology** (Turner).
558. **Advanced Abnormal Psychology** (Liddy).
559. **Dissertation Seminar.**

For **RELIGIOUS KNOWLEDGE** courses, see the affiliated colleges, pp. 105-116.

French

General course students may, with the consent of the Head of the Department, elect French 381 and 491 as optional credits toward graduation.

10. **Intermediate French:** Grammar, dictation, translation, oral practice. 3 hours a week.

Prerequisite: Grade XII French.

20. **Advanced French:** Grammar, translation, free composition, oral practice. 3 hours a week.

Prerequisite: French 10 or Grade XIII French.

22. **French Conversation:** Systematic oral practice for those students who wish to develop fluency in speaking French.

Prerequisite: French 20. 2 hours a week: half course.

30. **Outline of French Literature:** Origins to 1700 A.D.

Prerequisite: French 20. 3 hours a week.

* On leave, 1952-53.

33. **Commercial French:** Business correspondence, simple transactions, selected reading. For students in Secretarial Science, optional in Business Administration. Given in University College only.
Prerequsite: French 20. 3 hours a week.

40. **Outline of French Literature:** From 1700 A.D. to the present time. 3 hours a week.
Prerequisite: French 30.

43. **Commercial French:** Advanced transactions, reading. For students in Secretarial Science. Given in University College only.
Prerequisite: French 33. 3 hours a week.

45. **Scientific French:** The reading of Scientific French, from textbooks and journals, supplemented by reading in the special field of study of each student. 1 hour a week: half course.
Prerequisite: French 10 or Grade XIII French.

48. **French-Canadian Literature:** Lectures and reading on the historical and cultural background and the philosophical and literary contributions of French Canada. Not offered in 1953-54. 3 hours a week.
Prerequisite: French 20.

Honors Courses

All students in Honors Courses will take a comprehensive examination at the end of their final year. (See page 15.)

270. **French Literature of the Renaissance and Classical Periods:** Study of representative literature of the sixteenth and seventeenth centuries; reading, lectures, discussion and reports. 3 hours a week.
Prerequisite: Junior Group 4.

271. **Prose Composition, Phonetics.**
Prerequisite: Junior Group 4. 1 hour a week: half course.

290. **French Civilization and Culture:** (Origins to 1789); survey of the most significant French cultural achievements and a study of the background which produced them; lectures, reading, reports.
Prerequisite: Junior Group 4. 2 hours a week.

380. **The Literature of the Eighteenth Century and French Civilization and Culture:** The second part of the course will complete French 290, covering the period 1789 to the present; lectures, reading, discussion, reports in French. 3 hours a week.
Prerequisite: French 270.

381. **Prose Composition, Phonetics and Conversation.**
Prerequisite: French 271. 3 hours a week.

An equivalent course is given also at Trois-Pistoles, P.Q., during July and August. For full details see special bulletin.

450a. **Contemporary French Literature:** Study of some typical examples of the novel and drama of the twentieth century; reading, lectures, reports. 3 hours a week: half course.

Prerequisite: French 380.

450b. **Mediaeval French:** Reading of Old French, historical grammar, history of mediaeval literature; reading, lectures.

Prerequisite: French 380. 3 hours a week: half course.

490. **The Literature of the Nineteenth Century:** Lectures, reading and reports. 3 hours a week.

Prerequisite: French 380.

491. **Advanced Composition, Grammar and Phonetics.**

Prerequisite: French 381. 3 hours a week.

An equivalent course is given also at Trois-Pistoles, P.Q., during July and August. For full details see special bulletin.

ITALIAN

1. **Elementary Italian:** Grammar, oral practice, translation of simple texts. 3 hours a week.

10. **Intermediate Italian:** Review of grammar, translation of modern Italian, oral practice. 3 hours a week.

Prerequisite: Italian 1 or its equivalent.

20. **Outline of Italian Literature and Civilization:** Composition, translation, history of literature. Not offered in 1953-54. 3 hours a week.

Prerequisite: Italian 10.

SPANISH

1-10. **Elementary Spanish:** Grammar, translation, dictation, oral practice. 5 hours a week.

10. **Intermediate Spanish:** Grammar, translation, composition, oral oral practice. 3 hours a week.

Prerequisite: Spanish 1 or its equivalent.

20. **Advanced Spanish:** Grammar review, composition, translation, oral practice. Not offered in 1953-54. 3 hours a week.

Prerequisite: Spanish 10 or its equivalent.

22. **Conversation:** Systematic oral practice for developing fluency in speaking Spanish. 2 hours a week: half course.

Prerequisite: Spanish 10.

45. **Scientific Spanish:** The reading of Scientific Spanish from journals, supplemented by reading in the special field of study of each student. Not offered, 1953-54. 1 hour a week: half course.

Prerequisite: Spanish 10 or Grade XIII Spanish.

Note: Spanish 30, 31, 40, 41 are identical with 230, 231, 340, 341 respectively.

Honors Courses

All students in Honors Courses will take a comprehensive examination at the end of the final year. See page 15.

230. **Spanish Drama** since the 17th Century; lectures, reading, discussion, reports. 2 hours a week.
Prerequisite: Spanish 20.

231. **Phonetics, Prose Composition, Conversation.**
Prerequisite: Spanish 20. 2 hours a week.

260. **Spanish Lyric Poetry:** Lectures, reading, discussion.
Prerequisite: Spanish 20. 1 hour a week: half course.

340. **Modern and Contemporary Spanish Novel:** Lectures, reading, discussion, reports. 2 hours a week.
Prerequisite: Spanish 230.

341. **Commercial and Industrial Spanish:** Grammar, advanced composition, reading. 2 hours a week.
Prerequisite: Spanish 231.

360. **Spanish Civilization:** An historical survey of Spanish and Spanish-American culture; the modern Spanish-American novel; lectures, reading, reports. 3 hours a week.
Prerequisites: Spanish 230 and 260.

451. **Mediaeval Spanish:** Study of phonology, morphology, reading of Old Spanish, history of mediaeval literature; reading, lectures, reports.
Prerequisite: Spanish 341. 3 hours a week.

460. **Spanish Ballad, Picaresque Novel, Cervantes, Drama of the Golden Age:** Lectures, reading, reports. 3 hours a week.
Prerequisites: Spanish 340 and 360.

Graduate Courses

503. **Old French and Philology** (Turville).

550. **Contemporary French Poetry** (Collin).

551. **Advanced French Composition** (Torrens).

560. **The Literature of French Canada** (Collin).

570. **Seminar in Seventeenth Century French Literature** (Montgomery).

580. **Seminar in Eighteenth Century French Literature** (Montgomery).

RUSSIAN STUDIES

University College

Associate Professor: LEONID IGNATIEFF, M.A., Head of the Department.

1. **Elementary Russian:** A beginning course; pronunciation, grammar, dictation, translation, oral practice. 3 hours a week.

10. **Intermediate Russian:** Grammar, dictation, translation, composition and conversation. 3 hours a week.

Prerequisite: Russian 1.

20. **Advanced Russian:** Special problems of grammar, translation, conversation, composition. 3 hours a week.

Prerequisite: Russian 10.

29. **A Survey of Russian Literature:** for those without a reading knowledge of Russian. 1 hour a week: half course.

30. **Outline of Russian Literature:** Nineteenth and Twentieth centuries. 3 hours a week.

Prerequisite: Russian 20.

37. **Russia—U.S.S.R.**

(i) Economic, political and social developments from the Kiev period until 1905.

(ii) Russia in revolution; economic, political and social change in the U.S.S.R. 3 hours a week.

45. **Scientific Russian:** The reading of scientific texts and articles in Russian. For Honors Science Students. 1 hour a week: half course.

Prerequisite: Russian 10.

SECRETARIAL SCIENCE

Professor: MARY H. GILLESPIE, M.A., Head of the Department.

Assistant Professor: MRS. C. B. CHAPMAN, B.A.

Instructor: MRS. FRANK REEVES, B.A.

Assistant: MABEL A. HYND.

Students are warned that the difficulty of adjusting timetables makes it impossible for those who are unable to pass the final tests of each year to take general Arts subjects of a succeeding year in conjunction with their Shorthand and Typewriting. Therefore, students who fail to pass in one or more of their subjects are faced with the possibility of having to lose an entire year.

28-29. **Shorthand and Typewriting**: Pitman's Shorthand: theory; speed up to 60 words a minute, and typed transcription of notes. Touch system of typewriting; care of machine; letter styles; copying from manuscript and printed matter; centering; accuracy and time tests. 12 hours a week.

37. **Office Practice:** The foundation of the work in Office Practice is laid in the third year. Lectures are given on office methods, and actual

duties are undertaken in the Secretarial Science Office.

Prerequisites: Secretarial Science 28-29. 3 hours a week: half course.

38-39. **Shorthand and Typewriting:** Shorthand speed up to 100 words a minute; typed transcription of notes; typewriting from manuscript; tabulation; carbon copies; telegrams; financial statements; methods of duplicating; accuracy and time tests. 12 hours a week.

Prerequisites: Secretarial Science 28-29.

47. **Office Practice:** The responsible duties of the various members of an office staff and the operation of modern office equipment are undertaken by the fourth year students. Units of work are assigned in rotation. Lectures are given on secretarial duties, office organization, the administration of services, the problem of office personnel. 15 hours a week.

Prerequisites: Secretarial Sciences 37, 38, 39.

48-49. **Shorthand and Typewriting:** Shorthand speed up to 130 words a minute; typed transcription of notes; typewriting speed up to 60 words a minute; typing from advanced copy (technical matter, foreign languages) and from dictation. 10 hours a week.

Prerequisites: Secretarial Science 38, 39.

11. **Biological Science:** The fundamental principles of biology with stress on the cell as a unit, the origin and preservation of the individual and the race, the mode of inheritance, and the applications of biology to

social and economic problems. This course is illustrated by examples from the botanical as well as the zoological field.

Open to Junior and Senior Groups.

2 lectures and 2 laboratory hours a week.

Students obtaining 60 per cent. in this course may select options for further study in Botany and Zoology.

11N. **Introductory Zoology:** The principles of animal biology as illustrated by the study of certain typical forms; for students in Nursing and Home Economics.

2 lectures, 3 laboratory hours a week, one term: half course.

20. **Introductory Zoology:** The principles of animal biology as illustrated by a study of the structure and physiology of particular forms. To qualify for the Honors Courses in Biology a student must obtain at least 60% in this course. 2 lectures, 3 laboratory hours a week.

21. **Mammalian Zoology:** The anatomy (first term) and physiology (second term) of the mammals, with special reference to man. For students in Senior Group A and the Nursing, Home Economics (first term only), and Physical Education courses. 2 lectures and 2 laboratory hours a week.

Prerequisite: Grade XIII Zoology (66%) or Zoology 11N or 20.

22a. **Vertebrate Natural History:** The habits, adaptations, and distribution of vertebrates. Common Ontario vertebrates will be studied in the laboratory. To be given in alternate years, next in 1954-55.

2 lectures, 2 laboratory hours a week, first term: half course.

Prerequisite: Zoology 20 or 11.

23S. **Biological Field-Studies:** Ontario trees, shrubs, birds, water life, insects, from the point of view of economic importance, conservation, scientific identification. Summer School only. 11 hours a week: half course.

25. **Principles of Genetics:** An introduction to Mendelian inheritance, chromosome and gene theory, and the genetic conception of species.

2 lectures a week.

Prerequisite: Zoology 20, or Biological Science 11 (60%).

41. **Entomology:** The biology and economic importance of the insects, and in addition the spiders, mites, crustacea and other arthropods.

Prerequisite: Zoology 20. 1 lecture and 2 laboratory hours a week.

Honors Courses

200M. **Comparative Vertebrate Zoology and Introductory Embryology:** Comparative structure and function of vertebrate organ systems; introductory embryology. For prospective Medical students.

2 lectures, 3 laboratory hours a week.

250. **Invertebrate Zoology:** The anatomy and biology of representative invertebrate animals and the general classification of the group. *(From 1951-53, this course was Zoology 350.)*

Prerequisite: Zoology 20. 1 lecture, 3 laboratory hours a week.

347. **History of Biology:** The history of discoveries in biology and the development of biological thought. 2 lectures a week.

350. **Comparative Vertebrate Zoology:** The biology, origin, and evolution of the classes of vertebrates; an introduction to some principles of evolution. (From 1951-53, this course was Zoology 250.)
Prerequisite: Zoology 250. 2 lectures, 3 laboratory hours a week.

354. **Vertebrate Histology:** An introduction to the miscroscopic structure and development of vertebrate tissues and organs.
1 lecture and 3 laboratory hours a week.

360. **Entomology:** The biology and economic importance of the insects, and in addition the spiders, mites, crustacea and other arthropods.
1 lecture and 2 laboratory hours a week.

452. **Comparative Physiology:** A comparison of the function of the organs and organ systems in selected invertebrate and vertebrate types.
Prerequisite: Zoology 250. 1 lecture and 2 laboratory hours a week.

453. **Animal Ecology:** Effects of environmental factors; distribution of animals; animal communities; population dynamics; variation, adaptation, and evolution. 2 lectures a week.

454. **Embryology:** Principles of development as illustrated by selected invertebrate and vertebrate types.
Prerequisite: Zoology 354. 1 lecture and 3 laboratory hours a week.

455. **Principles of Genetics:** The principles of Mendelian genetics and the chromosome theory, illustrated by lectures and the practical performance of simple breeding experiments. 2 lectures a week.
Prerequisite: Zoology 350.

456. **Laboratory Technique:** A practical course in standard laboratory procedures, including microtechnique, photomicrography, and preparation of illustrations. 3 laboratory hours a week: half course.

460. **Insect Taxonomy:** The principles and historical development of insect taxonomy, and the classification of specimens by means of keys and monographs. 3 laboratory hours a week: half course.

461. **Economic Entomology:** Biology of insects and acarines of economic importance. 1 lecture and 2 laboratory hours a week.

462. **Cellular Physiology:** A study of general physical and chemical principles involved in the function of the animal cell.
Prerequisite: Zoology 354. 1 lecture and 2 laboratory hours a week.

463. **Biological Field Studies:** An obligatory course of study of living organisms in their field environment. The student should be prepared to report in September one week in advance of registration, and to meet part of his expenses for travel and subsistence.

470. **Vertebrate Taxonomy:** Classification and distribution of vertebrates, and the study of Canadian vertebrates in the laboratory.
1 lecture and 2 laboratory hours a week.

Graduate Courses

A selection from the following courses will be offered:

544. **Embryology** (Battle).
551. **Terrestrial Ecology** (Stinson).
552. **Aquatic Biology** (Scott).
554. **Histology** (Battle).
555. **Vertebrate Systematics** (Scott and Stinson).
556. **Economic Entomology** (Brown).
560. **Insect Morphology** (Judd).
561. **Medical Entomology** (Brown and Judd).
562. **Insect Physiology and Toxicology** (Brown).
564. **Insect Histology** (Judd).

OPTIONS IN COURSE FOR TEACHERS

A "T" course is available only in, and counts for graduation only in, the Course for Teachers. An "S" course is offered only in the Summer Session, and is acceptable in either the General or the Teachers' Course.

REV. M. B. PARKER, M.A., B.D.

For Officers of Instruction, see pp. 132-146.

For the Pre-Theological General Course for students under 21 years of age, see p. 30. The following course is offered jointly by Huron and University Colleges for those students over 21 years old.

GENERAL COURSE WITH THEOLOGICAL OPTIONS

Requirements for Admission: Secondary School Graduation Diploma (page 12).

The following course, the Theological Options of which are available at Huron College only, is accepted by the University for all Protestant students who have been officially approved as candidates for the ministry by the governing authorities of their respective denominations. This course, however, is open to any man or woman over 21 years of age who may be interested in training for religious work as a profession or as an avocation. To meet the individual needs of this latter group, adjustments, especially in Greek and Hebrew, will be arranged as the timetable permits.

Any student entering this course with Grade XIII standing in English, History and Latin, and Grade XII standing in Greek may reasonably expect to complete the course in three years.

Greek and Hebrew may not be begun in the same academic year.

After the completion of this B.A. course it is necessary for Church of England Theological students to pass the work of two additional years at Huron College to secure the Licentiate in Theology (L.Th.).

Registrar
MARJORIE THOMAS, B.A.

For Officers of Instruction, see pp. 132-146.

GENERAL COURSE WITH MUSIC OPTIONS

(leading to the degree B.A.)

Requirements for Admission: Grade XII (Secondary School Graduation, General Course with three options, see p. 12 of the Arts and Science Announcements), and satisfactory results in audition tests.

Notes:

(1) This course offers two options: Music C or Music T. Music C is a performer's course, while Music T is a pedagogy course for private teachers and for teachers of music in the elementary and secondary schools. Students in Music T will major in instrumental or vocal performance or theory and will take, in addition, a secondary applied music subject. Music T will consist also of lectures in pedagogy, repertoire, choral conducting, teaching materials and methods. Students in Music C will stress performance and will have more practice periods and correspondingly less work in pedagogy than students in Music T.

(2) The students who specialize in instrumental music will take at least two foreign languages; those who specialize in vocal music will take three foreign languages.

(3) As this course is a combination of Arts subjects and Music, it is conceivable that a student might have finished the required Arts subjects without reaching the required standard in the Music courses. In such case, the required standard in music may be attained extramurally under the guidance of the College.

(4) Both courses satisfy the academic requirements for admission to the Type B (High School Assistant) Certificate of the Department of Education of Ontario. Those students who hold, in addition to the degree of Bachelor of Arts, the diploma of Music Graduate in Pedagogy (Mus. G. Paed.) will be admitted to the High School Assistants' Course, Type A, in Vocal Music, at the Ontario College of Education. Those students who do not hold this diploma will be admitted if they make application to take the Supplementary Music Option at the Ontario College of Education, to the Elementary Vocal Option, the Elementary Instrumental Option, or both, if the instructor deems them qualified for such admission.

Dafoe Foundation, the Defence Research Board, the Humanities Research Council, the Hudson's Bay Company, Imperial Oil Limited, the Imperial Order Daughters of the Empire

(Overseas Scholarship), the National Research Council of Canada, the Princess Alice Foundation, the Research Council of Ontario, the Rhodes Scholarship Trust, the Royal Society of Canada, and the Social Science Research Council, in addition to those offered by the Universities of Canada.

Among the most renowned awards offered in Great Britain and open to graduates of Canadian Universities are The 1851 Exhibition (Science Research Scholarship); the Beit Fellowships for Medical and Scientific Research; the British Council Scholarships; the Nuffield Foundation Fellowships, Scholarships and Bursaries; and the Royal Society Smithson Research Fellowship.

The UNESCO Handbook gives comprehensive lists of fellowships and scholarships available in the United States and abroad.

Detailed information about all these awards is always available in the Registrar's Office and is posted on the bulletin boards from time to time as announcements concerning them reach the University.

Military Studies

Students may offer themselves for training in one of the three Armed Services, the University Naval Training Divisions, the Canadian Officers' Training Corps, and the RCAF University Squadron. Suitable candidates in each Service may be selected and trained for commissioned rank.

Military Studies count as a half course towards a degree in Senior Group B of the General Course in Arts.

Regular Officer Training Plan (ROTP)

Under the ROTP, undergraduates who are successful applicants are enrolled in the service of their choice, as Naval Cadets in the Royal Canadian Navy, Officer Cadets in the Canadian Army, and Flight Cadets in the Royal Canadian Air Force.

Applicants must be Canadian citizens or British subjects, single and under 21 at commencement of university or college training. If application is made prior to entry at university or college, it should be sent in writing to ROTP Selection Board, National Defence Headquarters, Ottawa, Ontario. If it is delayed until after admission to a university, apply to the representative of your preferred service, in his office in Thames Hall.

For successful applicants the cost of books, instruments, tuition and other essential fees will be borne by the Department of National Defence. The scale of pay and allowances under this plan is:

(a) First year at college or university, $95 a month; subsequent years, $65 a month.

(b) During the period of practical summer training, $170 a month, with food and lodgings provided.

Cadets will be issued with standard service uniforms and equipment.

Free medical and dental care and annual leave with full pay will be received throughout the entire training period.

On successful completion of academic and military training, cadets will be promoted to Commissioned Officer rank in the Regular Force. The privilege of release, if desired, will be honored after three years service as a commissioned officer.

University Naval Training Division

The Royal Canadian Navy hopes to secure the majority of its officers from the Universities. Undergraduates with or without previous experience may receive Naval Training through the University Naval Training Divisions (U.N.T.D.) After the successful completion of their courses they may obtain commissions in the R.C.N. or the R.C.N.(R).

Applicants for training under the R.O.T.P. for service with the Royal Canadian Navy will train with the U.N.T.D. For further particulars regarding the R.O.T.P., see the details included in the above plan which is applicable to all Services.

The course consists of sixty hours training during the academic year, for three years, and fourteen weeks training ashore and afloat for two summers. Cadets may volunteer for additional service. Students enter as Probationary Cadets and in their first year appear before a Cadet Selection Board for promotion to the rank of Cadet.

Pay is at the rate of $170.00 a month. For training during the academic year Cadets are paid one half day's pay for each training period up to a maximum of sixteen days' pay. On entry, uniforms are issued; and for summer training, board, lodging, medical care, dental care, and travelling expenses are provided.

The R.C.N. is hoping to build up a body of well-trained personnel who will be available for special services in cases of emergency. The U.N.T.D. provides the opportunity for obtaining valuable training and instruction useful in peace or war.

Information and application forms are available in the U.N.T.D. office, 113 Thames Hall, University of Western Ontario.

Canadian Officers' Training Corps

1. Canadian Officers' Training Corps offers undergraduates an opportunity to qualify for commissions in the Canadian Army, either Active or Reserve, through a training program especially designed to meet their requirements.
2. Students are eligible who are:
   (a) British subjects or Canadian citizens between the ages of 17 and 25; these requirements may be varied to allow a higher age of entry for men who were on active service during the war, 1939-45, and those entering special Corps.
   (b) Of a physical standard suitable for the Canadian Army Active Force.
   (c) Following a course of study leading to a recognized degree.

3. Training provided is in two parts:
   (a) Two hours a week of theoretical training in military subjects during the academic year.
   (b) Twelve to twenty-two weeks of practical training during the summer, depending upon length of vacation period and candidate's choice. Training will be as follows:
      (i) First and second years — at Corps Schools of the Canadian Army Active Force.
      (ii) Third year — practical leadership in charge of a troop, section or detachment at an Active Force Unit or camp in Canada or Europe.
4. Students accepted for COTC training are granted the rank of Officer Cadet during the first two years and in the third year are appointed as 2nd Lieutenants. They are eligible for pay of rank ($170 a month) for every full day of military duty. For this purpose four hours of lectures during the academic year count as one day's duty, as well as each day spent at summer camp up to a maximum of 20 weeks.
5. The commanding officer is Lt.-Col. J. J. Talman. Candidates should apply to the following officers: *University College*—Major J. F. Taylor, Resident Staff Officer, Room 117, Thames Hall or to Major R. N. Shervill; *Medical School*—Major J. A. Stevenson.
6. Students who wish to apply for COTC training should see one of the above officers before November 1st, 1953.

Royal Canadian Air Force University Squadron

The RCAF University Squadron offers undergraduates the opportunity of qualifying as trained commissioned officers in the RCAF Regular, or Reserve Forces. Besides the ROTP plan shown on the previous page, there is the

University Reserve Training Plan

Under the University Reserve Training Plan (URTP) students admitted to a squadron are appointed in the rank of Flight Cadet and hold that rank until commissioned as Pilot Officers at the end of the second summer of training. As Flight Cadets and Pilot Officers they are paid at the rate of $170 a month during the summer months and up to sixteen days' pay for attendance at squadron lectures held in Thames Hall. Those accepted for aircrew training will receive an extra $30 a month during the summer flying training. Upon graduation they are promoted to Flying Officer and given the option of service with the Regular Force, or going into the Supplementary Reserve, where they are on call only in case of national emergency.

Training consists of approximately 60 hours of parades, lectures, and films during each academic year, plus training in each cadet's particular field (i.e. Aircrew, Supply, Telecommunications, etc.) during summer employment on air force stations.

The Commanding Officer of the RCAF University Squadron is Squadron Leader M. H. M. MacKinnon. Information and application forms are available in Room 112, Thames Hall.

OFFICERS OF INSTRUCTION

Session 1952-53

(The year of first appointment to University Staff is given. "A" in brackets after name indicates the staff of Assumption College; "B", the staff of the School of Business Administration; "C", the staff of University College; "H", the staff of Huron College; "M", the staff of Music Teachers' College or the Conservatory of Music; "P", the staff of St. Peter's Seminary College of Arts; "U", the staff of Ursuline College; "W", the staff of Waterloo College. Alma College is designated by its whole name. Unless otherwise indicated the degrees have been granted by the University of Western Ontario.)
